The question to be decided is whether these workers were discharged for their Union activities or were discharged, as contended by the Company, because they were found redundant. The Company's case is that towards the end of September 1947, a new method of packing with straw caps was introduced in the Packing Department which led to economy of labour. This method was tried for some time and it was found that the labour saved amounted to about twenty-five per cent. There were thirty-four workers in the Packing Department but ultimately it was decided to reduce the labour by five only and these five packers were discharged on 6th November 1947. As to why these five packers were chosen for discharge, the Company's case is that three of them, namely, Md. Jan, Bandhuram and Laljiram, were juniormost, two having been appointed in November 1946 and Bandhuram in July 1947. Ali Hossain had been appointed in 1942. He was discharged on the ground that he was too old. Laluram had also been appointed in 1942 but since he had left service without notice, he was discharged. The Company has examined the Head of the Packing Department, Sushil Babu, to prove this. He denied that these packers has been discharged for their Union activities. The new method of packing was, however, discontinued on 9th December 1947 because it was found that it led to increased breakages of goods and the old method of packing was reintroduced. In spite of that, however, no necessity was felt for increase in the strength of the Packing Department and statistics have been submitted by the Company which show that in spite of the reduced strength the average number of boxes packed daily increased in December 1947 and January 1948. The Union laid great stress on the fact that though after the discharge of these packers the old method of packing was reintroduced, these packers were not reinstated and I was asked to make an inference from this that the discharge of these packers was not due to economy but for other reasons. In view of the statistics supplied, however, I cannot hold that the services of these packers became necessary on reintroduction of old method. In spite of this reduction the volume of work performed in the department has increased and so it cannot be said these packers were not really redundant.

The Union examined the three packers, namely, Ali Hossain, Laljiram and Md. Jan, to prove that they were discharged on account of their Union activities. Ali Hossain stated that he used to collect subscriptions for the Union. Laljiram and Md. Jan stated that they used to pay subscription to the Union. There is nothing to show that these three packers were active or dynamic members of the Union as was claimed in the written statement. No papers of the Union have been produced showing that they did anything for the Union beyond perhaps paying subscriptions. It was claimed at one stage that Ali Hossain induced Muhammadan employees to join the Union but he himself does not make any such claim. There is no evidence that the Management knew that these were members of the Union whether active or otherwise. Ali Hossain stated that Sushil Babu, Head of the Packing Department, told him that as he was working for the Union he would be discharged. Laljiram stated that Sushil Babu told him while paying wages that as he was paying subscription to the Union, his service would be dispensed with. Md. Jan, however, does not support this case and he says that Sushil Babu only told him that they were being discharged for two or three days and would be again taken in. He does not say that he was discharged for joining the Union. Ali Hossain says that Sushil Babu told him while he was alone and Laljiram also says the same thing. Sushil Babu has denied that he ever made any such statement to any of these packers or that he ever paid wages to them singly or alone. Sushil Babu gave the present strength of the Packing Department as twenty-eight including nineteen packers. In the list of packers submitted by the Company on 9th February 1948 (Ext. A), however, twenty-one names appear. Sushil Babu has explained that two of these twenty-one are persons who are also box-closers. He said that one Rahimaddi was junior in service to the discharged packers but he was not a packer but a coolie. His first statement was that Rahimaddi was a packer, but that was very possibly a genuine mistake and I cannot

accept the arguments of the lawyer for the Union that this statement shows that the three packers who were discharged because they were junior, were not actually the juniormost. There is nothing to show that these packers were specially chosen for discharge on account of some reason even remotely connected with the Workers' Union. Ali Hossain is certainly an old man and, according to Sushil Babu, he is not capable of packing bottles efficiently. The statement of Ali Hossain and Laljiram that Sushil Babu told them that they were being discharged for Union activities, is unbelievable and I cannot accept it. Had that been the real reason for discharge, Sushil Babu would certainly not have disclosed it to the packers. Taking all these facts and circumstances into consideration, I find no reason to hold that the discharge of these packers was due to any other consideration than economy. I hold that they were not discharged on account of their being members of the Union or as a measure of victimisation and that the discharge did not amount to unfair labour practice. They are not, therefore, entitled to reinstatement. They will, however, get seven days' pay in lieu of notice and the heirs of Bandhuram will also get the amount due to him on account of seven days' pay. Laluram was not entitled to any compensation, since he left service without notice.

Barin Ghosh was appointed by the Company on 21st February 1947 as a General Assistant on a basic salary of Rs. 80 (Ext. 1 is his letter of appointment). He had been recommended to Mr. Buxton, the Senior Office Executive of the Company, by his brother who had been known to Mr. Buxton from before. According to the Company, he was appointed as a statistical clerk and that this was a new appointment. His letter of appointment, however, does not mention this. He was appointed only as a General Assistant. On 26th August 1947 he was confirmed in his appointment on the expiry of his probationary period with effect from 24th August (Ext. 5 is the letter of confirmation). In this letter also he was not described as a statistical clerk. On the other hand, he was described as an employee of the Stock Ledger Department. The Company has made the case that as a statistical clerk, Barin Ghosh was not fully employed and that it was therefore decided that his appointment was permanently redundant and to absorb his duties into those of another appointment, but there is nothing in the confirmation letter to that effect and even on 18th September 1947 when Mr. Buxton wrote a letter to Barin Ghosh giving him a warning, it was not suggested that he had not been fully employed or that he was supposed to be redundant. In this letter (Ext. 2) Barin Ghosh was informed that his work was very satisfactory but that it had been necessary on a number of occasions to comment adversely on the diligence exercised by him in the performance of his duties and he was warned that unless there was improvement, his service would be dispensed with. It is difficult to follow what was exactly meant by this letter, since while it commented adversely on the diligence exercised by Barin Ghosh, it at the same time complimented him on the satisfactory nature of his work. Barin Ghosh has deposed and stated that before this letter he had once been told by Mr. Buxton that he was busy with other work and not doing his own work. This warning, according to Barin Ghosh, was prompted by the fact that he used at this time to do Union work being a member of the Executive Committee. This warning was given on 18th September 1947. On 25th September 1947 a demand was sent to the Managing Director of the Company on behalf of the Workers' Union. Since the demand was sent within a week of this letter, it can reasonably be presumed that the Union had been showing some activity about the time the warning was given. On behalf of the Company it has been stated that it was not known that Ghosh was a prominent member of the Executive Committee of the Workers' Union, but, according to Ghosh, Mr. Buxton knew it and had once remarked to him that he (Ghosh) was an influential member of the Union. There is no denial on behalf of the Company to this statement attributed to Mr. Buxton. If Ghosh was a member of the Executive Committee of the Union, as has been stated by him, and not been challenged, it is not unlikely that he had taken part in the activities of the Union which led to the submission of the demand to the Managing Director on 25th September 1947 and if he had received the letter of warning on 18th September 1947, only seven days before this date, there is no adequate reason to disbelieve his evidence that he received the warning because he had taken part in the Union activities about that time. I have already commented on the language of the letter of warning and there has been no attempt on the part of the Company to show how Ghosh could not have been diligent in the performance of his duties, if his work was satisfactory. After the letter of warning Mr. Buxton offered to transfer him to Lucknow on a higher salary and directed him to be ready to start any moment and he wrote a letter to the Lucknow Branch of the Company. Pending receipt of the reply from the Lucknow Branch, Mr. Buxton asked Ghosh to hand over charge to one Macfarlane, an employee of the Firm, and he did so. The Lucknow Branch replied that they did not require a man with such a high salary and that they had already appointed a man there. After this, according to Ghosh, Mr. Buxton told him that his post had become redundant and that since the Lucknow Branch did not require him, he might go to the Sales Department as Sale Representative. A letter was addressed to Ghosh on 29th November 1947 (Ext. 3) in which one month's formal notice terminating his service on the ground that his post had become redundant was given and Ghosh was directed to report to Mr. Fernandez for training as a Sale Representative. He received such training there for a month and proved satisfactory but on 31st December 1947 he was informed by a letter that as the Company had decided to reduce the sales force, his service could not be retained but that he should keep in touch with the Company for employment in the near future.

It was contended on behalf of the Company that Barin Ghosh was discharged for no other reason than that his post had become redundant and that Mr. Buxton tried to do his best for him and approached other concerns to secure employment for him and even offered him personal financial assistance. It is admitted by Ghosh that Mr. Buxton tried to help him and offered him financial assistance and that his personal relationship with Mr. Buxton was all along cordial. The question, however, remains whether Ghosh was really discharged because his post was redundant. As I have already shown, there was no suggestion of his post having become redundant even in the letter of warning sent on 18th September 1947. He was not appointed as a statistical clerk, according to the letter of appointment and the letter of confirmation. He worked in the Accounts Department and was also given charge of the preparation of statistics—over and above, he used to do work in other departments. Mr. Macfarlane, to whom Ghosh made over charge, has been examined by the Company and he has stated that the work which Ghosh used to do did not keep him occupied for more than twenty days in a month and that the statistical part of the work kept him occupied for nine or ten days. But this perhaps does not take into account Ghosh's work in other departments as a general assistant. It is difficult to believe that the Company would have kept Ghosh in service for eight or nine months and confirmed him without

giving him sufficient work to do. There is no suggestion that he had not sufficient work in any of the letters already referred to before 29th November 1947. Macfarlane had been appointed long after Ghosh. He deposed on 18th February 1948 that he had been in service of the Company for six months only. His pay is Rs. 160. He is a steno-typist. It has been contended on behalf of the Union that it was really Macfarlane whose post was redundant and that if the Company wanted to make a saving, they should have discharged Macfarlane, who was getting Rs. 160, and not Ghosh. Macfarlane as a steno-typist hopes to succeed another stenographer who is to retire soon but it is not clear why he should have been appointed before the retirement of this stenographer on a higher salary. It is certainly a very curious way of proving a man's post to be redundant by showing that another man was appointed on a higher salary long after him and that thereafter he was asked to make over charge to the man subsequently appointed after he had been confirmed in his appointment without any suggestion that his post was redundant. Taking all these facts into consideration, I have not been satisfied that Ghosh was discharged because his post was redundant. There must have been other reasons for the discharge and considering that he was a member of the Executive Committee of the Union and that he received the warning in spite of his satisfactory work only a few days before the Union submitted the demand to the Company, there is good ground for believing Ghosh's statement that he was warned because of his Union activities. It no doubt appears that Mr. Buxton, who had been instrumental in bringing Ghosh to this Company, liked him and was probably anxious to help him, but that is not sufficient to show that the Company did not dislike or disapprove of his Union activities or wanted to retain him in the office in spite of such activities. On behalf of the Union it has been argued that on account of the cordial relationship existing between Ghosh and Mr. Buxton, the latter felt some delicacy in discharging him forthwith and that Mr. Buxton therefore sought to transfer him to Lucknow in order to keep him away from his Union activities. Whatever Mr. Buxton's motive might have been in proposing his transfer, it is worth noting that even while offering to transfer him to Lucknow Mr. Buxton did not tell him that his post was redundant. Ghosh did not mention that he was told anything to that effect at that time and Mr. Buxton who cross-examined Ghosh did not suggest that he was sought to be transferred because his post had become redundant. It has been said that after discharge Ghosh was offered a post on Rs. 60 which he refused to accept. But he cannot be blamed for that since he had been holding a post on Rs. 80 and his appointment had been confirmed before he was discharged.

Taking all the above facts and circumstances into consideration, I am convinced that the discharge of Barin Ghosh amounted to victimisation and unfair labour practice. He is therefore entitled to be reinstated. I direct accordingly that Barin Ghosh be reinstated in his post with full pay and allowance with effect from the date of his discharge.

## ANNEXURE.

**In the matter of a dispute between Messrs. Maya Engineering Works of 36A, Russa Road, Calcutta, and its workmen as represented by the Maya Engineering Mazdoor Union of 34, Prince Anwar Shah Road, Tollygunge, Calcutta.**

BEFORE P. R. MUKHERJI, ESQ., *Tribunal, Industrial Disputes.*

By order No. 1003Lab., dated the 12th December 1947, the Government of West Bengal in the Department of Commerce, Labour and Industries, appointed me to be the Tribunal for adjudication of the abovementioned dispute.

*For the Union* : Sri Haridas Malakar.

*For the Company* : Sri Badarika Prasad Bhattacherjee, Pleader.

The Maya Engineering Works according to the Union's statement, is a sound Iron and Steel Company famous for its well-known Maya pump, drill, furnace and other engineering machines. About 400 workers are working in this factory. The unskilled are drawing 12 as. 6 pies per day and the maximum number of technical hands who are working in various departments, do not get their living wage in these days of crisis. Hence the Union put forward its demands.

The Company submitted a long written statement about the history of the firm showing how it came to existence by the enterprise of a single individual Rai Jatindra Nath Choudhury, a landlord, who, with a purely philanthropic motive,

established a manufacturing industry in the mechanical engineering line which the country almost lacked at that time.

Since the start of the factory in 1932 till 1941, the factory was running at a loss every year, the total loss for the whole period amounting to about Rs. 2,00,000. In spite of it, the factory was shifted to a bigger site at a considerable cost during the year 1938-39. From 1941 to 1945, the Company made a profit of about Rs. 8,60,000 mainly due to war orders. Thereafter, from 1946, the factory is again running at a huge loss and it is urged that the costs of production are going higher and higher and that they cannot compete in the open market. This is, according to the Company, mainly due to the negligence, go-slow tactics and unreasonable strikes on the part of the workers. In a word, the main contention is that the demands of the workers cannot be fully met due to the financial condition of the Company.

It is regrettable that during the proceeding the Company had discharged as many as 186 workers without permission of the Tribunal and thus violated the clear provisions of section 33 of the Industrial Disputes Act. The Tribunal had asked the Company to show cause why criminal sanction should not be given and it is all the more regrettable to find that after that notice, many more of the monthly-paid workers were discharged without the Tribunal's permission. I think this act on the part of the Company is a deliberate and determined violation of section 33 of the Industrial Disputes Act and I believe the Company was actuated more by vindictive motive than by anything else. The Company had also shown scanty regard for the orders of the Tribunal and contemptuously disregarded the authority of the Tribunal. I am in a position to say this because, while the Company was on the one hand discharging workers, they were also busy in making new recruits. Two advertisements in the "Ananda Bazar Patrika" were pointed out to me and it is clear that the Company was asking for new men for their factory. I have, however, already made a separate recommendation to the Government for criminal prosecution of the Proprietor and the Manager.

The points for adjudication:—

1. Whether grade system should be introduced? If so, what should be the grades of unskilled and skilled workers and mistries?

2. What, if any, should be the amount of dearness allowance?

3. Whether bonus can be claimed and, if so, from which year?

4. What should be the period of leave?

5. Can the employees claim—

(*i*) Cheap canteen?

(*ii*) Free medical arrangement?

(*iii*) Compensation in case of accident?

(*iv*) House allowance?

6. Whether Provident Fund Scheme should be introduced?

7. Is the Maya Engineering concern financially strong to meet the above demands?

## AWARD.

### Grade System.

The Union demanded the following grade system:—

| Category of worker. | Start. | Increment per year. | Up to. |
|---|---|---|---|
| | Rs. | Rs. | Rs. |
| Unskilled (including, durwan, bearer, coolie, etc.). | 40 | 2½ | 60 |
| Skilled .. .. | 60 | 5 | 100 |
| Mistry .. .. | 100 | 10 | 200 |

The Company, I am satisfied, is not very financially strong and as such I am not in favour of introducing grade system in this Company. Moreover, there is another reason why in this industrial concern, grade system should not be introduced; they have to compete in the open market and an increase of wages may be better made according to the efficiency a worker acquires. Experience has shown that some workers acquire efficiency within a short time, whereas in case of others, after years of service, they virtually make no progress. The Company, however, was willing to offer decent living wage to its workers and as such the question of grade system, in my opinion, should not at present be enforced in the case of this Company.

### Dearness Allowance.

The management has been at present paying dearness allowance at the rate of Rs. 14 per month and an allowance for cheap ration at the rate of Rs. 10-9 per month in case of majority of workers according to the award of the Adjudicator. The management was quite willing to increase the amounts to Rs. 17 and Rs. 13 (total Rs. 30), respectively, for 26 working days. I also make an order that dearness allowance at this rate should be paid for working days as also on "Factory Holidays" and other holidays.

The Company is also paying dearness allowance to its other workers at the following rate:—

6 annas per rupee to those drawing salary up to Rs. 50.

5 annas per rupee to those drawing salary from Rs. 51 to Rs. 100.

4 annas per rupee to those drawing salary from Rs. 101 to Rs. 150.

3 annas per rupee to those drawing salary from Rs. 151 onwards.

The present scale of dearness allowance should be maintained by the Company.

### Bonus.

In the present financial condition when the Company is making no profit, no question of bonus arises. If, however, there is profit at the end of the financial year, the Company should grant bonus to its employees, amount whereof is left at the discretion of the Company. It is not possible to assess the rate of bonus on a hypothetical assumption of the amount of profit.

### Leave Rules.

Previously, the daily-rated workers were not entitled to any leave but of late the Factories Act has been modified granting 10 days' leave with pay in this Company. In addition to 10 days' leave granted under the Factories Act, the workers

demanded casual leave for 15 days with full pay. In my opinion, the workers should be entitled to casual leave of seven days over and above the leave granted under the Factories Act.

Regarding the claim of privilege leave for one month with pay, I am afraid, this cannot be granted in a factory which is running at a loss and when the country is demanding more and more production. This will retard the progress of the industry.

### Cheap Canteen.

The management urges that the factory is very much congested and has no spare space where a canteen can be accommodated. The Union urges that there is enough space in the factory and that the Tea Expansion Board is willing to open a tea stall. The management should provide space for a tea stall at least and also arrange for the opening of a small shop for selling cheap articles of food to workers who mostly come from a long distance. The opening of a tea stall and selling of cheap articles of food will not require much space nor a big purse and the Company should provide for these at an early date.

### Free medical arrangement.

The Company should keep First Aid Box with full equipments and a part-time doctor to attend the cases at the time of emergency as provided in the "Factory Rules". Distribution of free medicines and retention of a permanent medical man at present cannot be ordered as it may hard hit the finance of the Company.

### Compensation in case of accident.

No separate order or award is necessary to be made as Workmen's Compensation Act sufficiently covers such cases.

### House Allowance and Provident Fund.

Considering the financial position of the Company, it is not possible to make any such order.

I, however, hope that with better days coming the Company should liberally consider the proposal of the Union and try to introduce the scheme of Provident Fund.

### Financial position of the Company.

Since the start of the factory in 1932 till 1941, the factory was running at a loss every year, the total loss for the whole period amounting to about Rs. 2,00,000. In spite of it the factory was shifted to a bigger site at a considerable cost during the year 1938-39. From 1941-45 the Company made a profit of about Rs. 8,60,000 mainly due to war orders. But as the firm was running all through at a loss and made no profit at all during the standard years, the standard profit may, therefore, be fixed at Rs. 36,000 only per year according to law. Calculating on the basis of Rs. 36,000 as standard profit, the Company will be liable to a taxation of about Rs. 6,00,000, thus leaving Rs. 2,60,000 as available profit for the war period. In spite of the above fact and with the idea of developing this indigenous industry, the proprietor, it is reported, invested during the war period and after, about Rs. 7,62,000 mainly on plants and machineries. From 1946 the factory is again running at a huge loss and the proprietor had to make a further advance of about Rs. 4,85,000 to keep the organisation going and this sum was invested in the purchase of the most up-to-date and semi-automatic machineries with the idea of diminishing the cost of production. It is seen, however, that the costs of production are going higher and higher and the Company alleges that in fixing the prices of many of their products, they have virtually made no margin for themselves. This is according to the Company mainly due to the negligence, go-slow tactics and unreasonable strikes on the part of the workers. It is also alleged that their workshop is full of manufactured articles costing about Rs. 1,50,000 and that they have no space to stock further manufactured articles. This fact is ascribed to the unsaleability of most of their products owing to their high cost of production. The Union, however, has suggested that it is due to inefficient management and want of sound business tactics that the produced articles are not being sold in the market. I had a look at the balance sheet of the Company and I found that the costs of office establishment were a fancy figure and I am told that one officer of the factory draws an emolument of over Rs. 1,000 per mensem for working only one or two hours and his business is only to sign few papers. Whatever that may be, there is much room for improvement in the business management. The Tribunal, of course, cannot suggest what should be the lines on which a shrewd business man should proceed. Nor is it the duty of the Tribunal to find out the reason why the Company is not making sufficient profit. The outstanding fact, however, is that it is not a profitable concern. The management throws the blame on the workers showing that they are adopting go-slow tactics, while the workers accuse the management of their want of keen business sense and intelligence. It is no use apportioning the liability, but I may say that while it is the duty of the workers to look to the best interest of the Company by not resorting to strikes or go-slow tactics, it is equally the duty of the Company to run the business on a sound and proper method. The Company has no right to keep the industry going in a slipshod way and thus to play with the fates of poor workers. It is better that the business should be closed for ever rather than allow it to be run in such a poor and unbusiness-like way. It is also advisable that the workers should see that the goose which lays the gold egg is kept alive.

I have, however, sufficiently considered the financial condition of the Company in making the award.

I find that the Company has dismissed many of the workers on a plea of retrenchment but at the same time they have advertised in the "Ananda Bazar Patrika" inviting men for employment. The management cou'd not satisfy me why this course had been taken. I have a shrewd suspicion that the Company is adopting an unfair labour practice by turning out undesirables and thwarting many more who had the audacity to join the Union and in submitting the demands. I, therefore, make the order that this Company should not appoint any new hand from outside when the discharged workers are quite competent to do the works. The Company should also try to absorb the discharged workers as early as possible.

This award will come into force at once and will remain in force for one year from this date.

(*e*) manner and form of application for loans and contracts,

(*f*) manner in which accounts of the Administration shall be kept and audited,

(*g*) any other matter which has to be or may be specified under this Act.

(*3*) All regulations made under this section shall be published in the official Gazette and shall come into force on such date as may be specified therein.

## STATEMENT OF OBJECTS AND REASONS.

Credit facilities for the settlement of refugees in business and industry cannot adequately be granted by commercial Banks and other financing agencies nor can they appropriately be provided by a commercial organization like the proposed Industrial Finance Corporation. It is also impracticable for the State to give such accommodation direct as in the case of agriculturists, small shop-keepers, artisans and persons engaged in professions. This Bill therefore seeks to establish for this purpose a Rehabilitation Finance Administration which will be financed and controlled by the Central Government but will work as a semi-autonomous body in close collaboration with the Central and Provincial Governments and Banks. Provision has also been made which will facilitate the granting of such financial assistance by normal banking channels.

NOTES ON CLAUSES

*Clause 1* (*2*).—Though for constitutional reasons the scope of the legislation is confined to the Provinces of India, the Administration is not prohibited from granting financial accommodation to refugees settling down in States (vide definition of "Displaced person"). In exercise of the powers given to the Central Government to issue directions under clause 17, the Administration will be directed to grant such accommodation in States which agree to give the Administration facilities regarding recovery similar to those provided for in the Bill. Specific provision in this respect is not required in the Bill.

*Clause 2*(*d*). The scope of the Administration is confined to financing refugees intending to settle in business and industry, since agriculturists, small shop-keepers, artisans and persons engaged in professions have to be dealt with on personal basis and are therefore best left to Provincial Governments for direct assistance.

*Clause 4.*—The constitution is designed to ensure close Government control as well as collaboration of bankers, businessmen and industrialists.

*Clause 5.*—The Advisory Board is meant to guide the Administration and it is proposed to give representation on it to Provinces, States, Reserve Bank and other banks, Chambers of Commerce and Industry, displaced persons and other interests.

*Clauses 10 and 11.*—The Administration will give direct loans as well as rediscount bills and guarantee loans given by banks in order to facilitate financing by banks. The total liability of the Administration is limited to Rs. 10 crores and power is given to Government to advance money to the Administration up to this limit. Government will advance the money as and when required. Interest at Government's long term borrowing rate is charged to the Administration so that it may work as a separate entity.

*Clause 12*(*b*).—In order to avoid overlapping, it is intended that the minimum limit for loans advanced by the Administration should correspond to the maximum amount advanced direct by the Provincial Governments. A maximum limit, say, of Rs. one lakh, above which the sanction of the Central Government would be required, will also be prescribed. As these limits will have to be varied in the light of experience, they are left to be prescribed by Government from time to time.

(*ii*) The Administration is given power to call for reports on loan applications from various sources. Where a Provincial Government has set up an organization for refugee rehabilitation, the Administration will naturally have recourse to such organization.

(*iii*) The maximum rate of interest to borrowers is fixed at 6 per cent. in order to ensure that borrowers get accommodation at reasonable rates and at the same time the Administration is enabled to cover its expenses.

(*v*) and (*vii*) To ensure safety of the loan a statutory first charge on the assets created from the loan has been provided, in addition to any other security.

*Clause 13.* The Administration is empowered to recall loans under certain circumstances in order to ensure timely action to prevent losses.

*Clause 14.*—Power to recover loans as arrears of land revenue is given to ensure speedy recovery.

*Clause 15.* -These powers are designed to enable the Administration to exercise proper control and supervision over the borrowers.

*Clause 17.*- The Central Government is given power to issue general or special directions to the Administration in order to ensure proper control by Government.

*Clauses 19 and 20.*- As the entire fund will be supplied by Government, Government alone is empowered to wind-up the Administration and in that event the undistributed assets are vested in the Government. In view of this arrangement the Administration is also exempted from payment of income-tax.

The remaining clauses do not need elucidation.

(*b*) that some points other than those referred to it by the Central Government in respect of any case also require investigation.

It may make a report to the Central Government stating its reasons for such belief and, on receipt of such report, the Central Government may at any time refer to the Commission for investigation the case of such other person or such additional points as may be indicated in that report."

(*4*) The authorised official shall have the same powers as the Commission under sub-sections (*1*) and (*2*), and any person having charge or custody of accounts or documents required to be examined shall be bound to produce them to the authorised official and to give to such official any information in respect thereof which he may require; and any person interrogated by the authorised official or called upon by him to make or prepare a statement or furnish information shall be bound to comply with his requirement and answer all questions relating to the case put to him by such official.

(*5*) If any person whose case or the points in whose case is or are being investigated either by the Commission or by an authorised official under sub-section (*3*) refuses or fails to attend in person

in compliance with a notice in that behalf duly served upon him or to give any evidence or to answer questions or to produce documents or to prepare and furnish statements when called upon to do so, the Commission or, as the case may be, the authorised official, may, if satisfied that the refusal or failure was wilful, close the investigation of the case and proceed to draw up a report on the case or on the points to the best of their or his judgment.

(*6*) The Commission and any authorised official may make such enquiries in such manner as they or he may deem fit and obtain statements on oath from any person who is considered likely to be in possession of any information or document relevant to the case or points in the case referred to the Commission or is in the opinion of the Commission likely to be reported by it to the Central Government for reference under the provisions of sub-section (*3*) of section 5; and for the purposes of these enquiries, the Commission and the authorised official shall have all the powers conferred on them by sub-sections (*1*), (*2*), (*3*) and (*4*).

(*4*) No person shall be entitled to inspect, call for, or obtain copies of, any documents, statement or papers or materials furnished to, obtained by or produced before the Commission or any authorised official in any proceedings under this Act; but the Commission, and after the dissolution of the Commission such authority as the Central Government may in this behalf appoint, may, in its discretion, allow such inspection and furnish such copies to any person.

except with the previous sanction of the Central Government.

**6. Amendment of section 8, Act XXX of 1947.**— For section 8 of the said Act, the following shall be substituted, namely:—

"8. *Power to direct re-opening of assessment proceedings.*—(*1*) The report of the Commission shall be made in accordance with the opinion of the majority of the members of the Commission where its decision is not unanimous.

(*2*) After considering the report, the Central Government may by order in writing direct that such proceedings as it thinks fit under the Indian Income-tax Act, 1922 (XI of 1922), the Excess Profits Tax Act, 1940 (XV of 1940), or any other law, shall be taken against the person to whose case the report relates in respect of the income of any period commencing after the 31st day of December 1938; and, upon such a direction being given, such proceedings may be taken and completed under the appropriate law notwithstanding the restrictions contained in section 34 of the Indian Income-tax Act, 1922 (XI of 1922), or section 15 of the Excess Profits Tax Act, 1940 (XV of 1940), or any other law and notwithstanding any lapse of time or any decision to a different effect given in the case by any Income-tax authority or Income-tax Appellate Tribunal.

(*5*) In respect of any order made in the course of proceedings taken in pursuance of a direction issued under sub-section (*2*), the provisions of sections 30, 31, 33 and 33A of the Indian Income-tax Act, 1922 (XI of 1922), and the corresponding provisions of the Excess Profits Tax Act, 1940 (XV of 1940), shall not apply so far as matters declared final by sub-section (*4*) are concerned; but the person concerned may, within 60 days of the date upon which he is served with a copy of such order, by application in the prescribed form accompanied by a fee of Rs. 100, require the appropriate Commissioner of Income-tax to refer to the High Court any question of law arising out of such order, and thereupon the provisions of sections 66 and 66A of the Indian Income-tax Act, 1922 (XI of 1922), shall as far as may be apply.

(*6*) Notwithstanding anything contained in this section, the Commission shall have power, either of its own motion or on the application of the person concerned or of the Government, to correct clerical or arithmetical mistakes in its report or errors therein arising from any accidental slip or omission; and after the Commission has ceased to exist, the Commissioner of Income-tax having jurisdiction over the case may exercise the power conferred upon him by section 35 of the Indian Income-tax Act, 1922 (XI of 1922), as if the Commission's report was an order passed by him.

## STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to amend the Taxation on Income (Investigation Commission) Act, 1947, as the provisions of the existing Act are far from adequate to enable the Investigation Commission to function effectively. The amendments proposed in the Bill embody the minimum powers which the Commission must possess if its labours are to bear fruit. Opportunity has also been taken to define and clarify the powers of the Commission so that purely technical objections may not be raised with a view to obstruct or defeat the work of the Commission. The principal provisions of the Bill are explained in the notes on clauses below.

R. K. SHANMUKHAM CHETTY.

NEW DELHI;
*The 2nd February 1948.*

### *Notes on Clauses*

*Clause 2.*—This is an administrative provision. The Central Government is being given the power to dissolve the Commission either permanently or temporarily, according to administrative expediency.

*Clause 3.*—Three changes have been made in section 5: (*i*) an extension of the date by three months; (*ii*) the insertion of words to make it clear that Government need not always refer a whole case to the Commission but may refer only certain points arising in the case of an assessee, leaving the rest of the assessment to stand; and (*iii*) a new clause to make it clear that the proceedings and findings of the Commission shall not be challenged merely on the ground that there were no adequate materials before the Commission when they *commenced* their investigation.

An extension of the date is necessary owing to the preoccupation of Government with the urgent problems arising out of the political changes.

*Clause 4.*—The amendment is designed to secure the following additional powers for the Commission and its nominee:—

(*1*) the power to require any person to prepare and submit a statement of his wealth or of such other particulars as may be specified;

(*2*) the power to make *ex parte* enquiries, without letting the assessee know the sources that are being tapped;

(*3*) the power to authorise an official of the Income-tax Department to visit buildings and premises for the purpose of taking extracts and copies of accounts and documents;

(*4*) the power, analogous to section 23(*4*) of the Income-tax Act, to close all further proceedings and to draw up a report on the basis of an adverse inference against an assessee who refuses to co-operate with the Commission and attempts to obstruct, defeat or delay its proceedings;

(*5*) the Commission's nominee who has to be an official of the Income-tax Department, to exercise, subject to the direction of the Commission, the same powers as the Commission.

The Commission's nominee has to be an official of the Income-tax Department with a view to secure the necessary measure of disciplinary control and to ensure that there may be no complaint from the assessees that their accounts are being divulged to outsiders.

The power to make *ex parte* enquiries and collect evidence is subject to the condition [*vide* clause 5, amended section 7(*2*)] that before the result of the enquiries is acted upon, the person concerned is given an adequate opportunity to rebut the evidence gathered from these enquiries.

*Clause 5.*—The new provisions introduced by this clause are designed—

(*i*) to enable the members of the Commission to act singly, for the purpose of expediting and facilitating the enquiry and taking of evidence in the several cases that may be referred to them,

(*ii*) to make it clear beyond doubt that they have the full powers of a Civil Court for the purpose of the Bankers' Books Evidence Act,

(*iii*) to enable them to demand strict proof of ownership where benami transactions are suspected, on the analogy of section 3119 of the U.S.A. Internal Revenue Law,

(*iv*) to make amendments consequential to the Commission having been given the power to make confidential or *ex parte* enquiries,

(*v*) to enable the Commission to grant copies of evidence and documents to any person they like so that the existence of this power might act as a deterrent against the making of false statements to the effect that assessee's own money was borrowed money or that assessee's own assets belong to somebody else and so on,

(*vi*) to clarify the provisions relating to prosecution for false evidence so that no sanction of Government would be necessary where the prosecution is at the instance of the Commission itself,

(*vii*) to ensure that the Commission is not flooded with all kinds of spurious documents as part of the evidence before them.

*Clause 6.*—The amendments introduced by this clause are designed—

(*1*) to secure that only the majority report shall be submitted as in the case of judgments of the Privy Council, to obviate embarrassment either to Government or to assessees;

(*2*) to enable Government to order not merely the reopening of assessments but also the institution of penalty or criminal proceedings in appropriate cases;

(*3*) to leave no discretion to the Income-tax Officer as to the action to be taken on the Commission's report, after it has been considered and orders thereon passed by Government;

(*4*) to make the findings of the Commission final, to the same extent as the findings of the Income-tax Appellate Tribunals are, under the Income-tax Act; but without prejudice to the right of the Income-tax Officer to initiate further proceedings under the ordinary operation of the Income-tax Act;

(*5*) to confer power on the Commission (and after the Commission ceases to exist, on the Commissioner of Income-tax) to rectify clerical mistakes and omissions apparent from the record;

(*6*) to ensure secrecy of the proceedings before the Commission on the lines of section 54 of the Income-tax Act, except to the extent to which the Commission is authorised to disclose the proceedings.

## GOVERNMENT OF INDIA.

### Constituent Assembly of India (Legislative).

The following Bill was introduced in the Constituent Assembly of India (Legislative) on the 11th February, 1948:—

A. BILL No. 7 OF 1948

(2) It shall come into force at once.

(a) for the word "eighteen" the word "twenty" shall be substituted;

(b) for the word "fourteen", the word "fifteen" shall be substituted;

(c) the following shall be added at the end, namely:—

"and in case the marrying male is over 45 years of age, under eighteen years of age".

**3. Amendment of section 4, Act XIX of 1929.**— In section 4 of the said Act, the following shall be added at the end, namely:—

"In case the male who contracts child marriage is over 45 years of age he shall be punishable with imprisonment which may extend to three months and shall also be liable to fine which may extend to one thousand rupees."

---

### STATEMENT OF OBJECTS AND REASONS

The Bill is designed to raise the marriageable age of boys and girls in particular.

The age of fourteen in the case of girls was adopted in the Sarda Act as a compromise between the viewpoints of the orthodox who wanted to fix it at 12 and the progressives who wanted to fix it at 16 as a change to the latter age from the conditions then existing was considered to be too abrupt.

Now the marriageable age has in general increased in the country and in many communities the girls are married beyond the age of fifteen years. It cannot be overemphasised that the age of fourteen years is certainly not a proper age for marriage. According to medical opinion maternity is not safe before sixteen though the proper age for it is not less than eighteen. The age of Consent Committee unanimously recommended that the present consent age of thirteen in married life be changed to fifteen.

There is at present a Bill before the Legislature to increase the age of consent in married life to fifteen years. The imperative demands of social justice and the compelling strength of public opinion in this matter make it reasonably certain that the contemplated change in regard to the increase of age of consent is likely to be affected in the near future. Our beloved leader Sardar Patel while speaking on the Bill (relating to increase of age of consent) in the Assembly described the demand for increase of age as "long overdue" and I have no doubt that ere long this demand will be duly met.

It is obvious that if the age of consent is increased to fifteen years, the increase of marriageable age from fourteen to fifteen years will be indispensably necessary to prevent crime and unwanted interference in domestic matters. Such increase is also called for in the interests of securing to the girls opportunities for education, physical growth and freedom from responsibilities of early and premature motherhood. There is a widespread desire for this change not only among ladies of advanced views and social reformers but in the country at large.

I consider this increase in the marriageable age of girls enlarging as it does the period of free and joyous girlhood for the young girls of the nation as not only a great boon for them but as a measure calculated to increase the stature of Indian womanhood and a lever of great national advancement and progress. The increase in the age of boys is also salutary and desirable. It shall be conducive to the growth of better health and strength among boys and afford better opportunities for education and strengthen in general the physical and moral backbone of national life.

The Bill further seeks to afford protection to young girls under eighteen against ill-matched marriages, say with males over the age of 45 years usually widowers with children perhaps older than or equally old as these young girls.

Not unotten greedy and indiscreet parents and guardians barter away the future happiness of their daughters and wards for filthy lucre or other alluring prospects by marrying them with elderly people who have one foot in the grave while the girls are,

owing to their minority, unable to resist and safeguard their interests. Many cases have come to courts in which the lust of impatient husbands had ruined the physique of the young girls or caused irreparable damage to their health. It is common experience that such marriages are generally attended with very unhappy consequences and spread morbidity, immorality and misery all round.

The relative ages and consequent outlook on life of the couple being so desperate and dissonant the period of married life is short and seldom happy. The young girl in her early teens does not respond alertly to the violent bursting forth passion of the impatient and elderly husband whereas in later life the dotard husband is far too sluggish and incapable to fully reciprocate and satisfy the yearnings and promptings of the youthful and fully-grown woman. In a fairly large number of cases the young wife becomes a widow after enjoying a short span of married life even before she has grown to full womanhood. The condition of widows in communities which prohibit re-marriage is extremely deplorable and there is nothing but unredeemed misery and trouble in store for such long lived widows. In other communities also the fate of the widow is full of great hardships and misfortunes.

Anyhow the normal happy matrimonial felicity and companionship, characteristic of suitable matches, which invest married life with enchantment and mutual devotion and make it worth living are wanting in such marriages which should be discouraged and interdicted. It is really cruel and unjust to mar for good the future well-being of a young girl at a time when she is dependent and unable to defend her own interests, and other considerations apart, the barest justice demands that young girls be protected against social tyranny of such reprehensible type. It is high time that we did not neglect our duties to young girls. I am sure that a stride towards social *Swaraj* is being taken none too soon.

THAKUR DAS BHARGAVA.

---

*Notes on Clauses.*

1. Clause 2 is designed to change the marriageable age of boys from eighteen to twenty and that of girls from fourteen to fifteen and in case of the marriage of elderly persons above the age of 45 from fourteen to eighteen.

2. The addition to section 4 penalises ill-matched marriages between females below eighteen and males above 45.

"*13. Power to make rules.*—The Central Government or the Provincial Government may for the proper and efficient working of the provisions of this Act make rules providing among other matters—

(a) for the compulsory registration of marriages enjoining upon the contracting parties in case they are not minors and upon parents and guardians of the contracting parties if they are minors to report within a prescribed time the factum of such marriage;

(b) for prescribing the form of registers and reports and particulars to be contained in such registers and reports;

(d) for grant of copies from such registers and reports; and

(e) for authorising officer-in-charge of such registration to furnish information or to make complaints in case of infraction of such rules and the provisions of this Act to proper authorities."

## STATEMENT OF OBJECTS AND REASONS.

The Bill seeks to amend the procedure relating to offences under the Child Marriage Restraint Act, 1929, and provide for bonds from persons convicted under the Act. Procedure according to the well-known Jurist Blackstone is not intended to hinder the smooth working of the provisions of law but to accelerate and contribute to the dispensation of justice and the progress of the law towards the realisation of its aims.

2. It has been realised by many that the Sarda Act is barren of results owing to the unnecessary impediments placed designedly by legislature against the possible misuse of its provisions. Experience has proved beyond doubt that these clogs miscalled safeguards were unnecessary and should be done away with. The Bill, therefore, seeks to repeal sections 10 and 11 of the Act and makes the offences and cases under the Act cognizable.

The provisions making the offences and cases cognizable are of drastic nature in so far as the police is even at present neither efficient nor free from corruption. But this aspect of the matter is applicable to all cognizable offences and cases. It must be realised that after 18 years during which the Sarda Act has been in operation its provisions are more widely known than before.

Moreover, the malady is too persistent and virulent to be remedied by mild measures. The evil is too great to be tolerated even if its prevention causes uneasiness and annoyance to the public. The Sarda Act has almost been a dead letter in the rural areas and backward communities and marriages of childern in arms and in early teens are very frequent resulting in the physical, economic and moral ruin of the nation. Any further dalliance with the evil of prepuberty consummation and early consummation which are eating into the very vitals of the society is simply criminal specially when we have got National Government and no measures however stingent can be deemed to be too drastic to prevent this evil which is so enormous in magnitude.

The new provisions regarding section 562 of the Code of Criminal Procedure, 1898, is calculated to relieve the rigor and harshness of any of the provisions of the Act.

3. The provision of bonds will at once serve as a preventive check upon commission of crime of marital misbehaviour and as a serious deterrent for offences under the Child Marriage Restraint Act. These provisions were recommended by the Age of Consent Committee and proceed on the lines of the preventive sections of the Code of Criminal Procedure.

It is common experience that it is impossible to prevent the commission of the crime of marital misbehaviour and to punish the offenders if the husband and the child-wife are allowed to cohabit with each other. It is as idle to expect that fire will not burn or air would not dry as to expect that crime will not be committed if the husband and the child-wife are allowed to be closetted in the bed chamber. Ascetism cannot be enforced by legislation and the creation of conditions in which crime cannot be committed is the only solution of the difficult problem.

Moreover an attempt to punish the offenders and abettors of the crime of marital misbehaviour will be much more irksome and annoying to the public than the attempt to prevent the crime from being committed through the instrumentality of the provision of bonds.

The utility and desirability of the provisions relating to bonds is therefore quite apparent. It is possible there might have been two opinions about the feasibility of these provisions eighteen years ago. At present the need and efficacy of such provisions is undoubted and obvious.

4. The Age of Consent Committee further recommended that marriage registers should be regularly kept and certificates of marriages should be issued. It is clear that the salient points in a prosecution under the Child's Marriage Restraint Act are factum of marriage and ages of the couple. The register of marriage shall dispense with proof of factum of marriage. The question of age is rather difficult to tackle yet the age given in the particulars of marriage register shall furnish the Courts with some proof of age which in some cases may be enough to bring home the charge to the offenders. Moreover an automatic system of bringing the offenders to book may be evolved by the rules which may require the Registrar of Marriages to furnish information to proper authorities or even to bring complaints in proper cases.

## DIRECTORATE OF AGRICULTURE, WEST BENGAL.

Calcutta, the 1st April 1948.

### Final Forecast of the Bhadoi Crops of West Bengal for 1947-48.

*The season.*—The weather conditions, as reported in Preliminary Forecast, were adverse in the early stages of the crops. That accounts for the diminution of acreages and to a large extent for the lower yields of the crops than normal as the figures herein indicate. In the later period also the weather conditions did not appreciably improve but, on the contrary, continued to remain unfavourable in some districts.

*Area and yield.*—The total area under different bhadoi crops is estimated to be 1,745,100 acres this year as against 1,960,500 acres, the revised estimate for the last year. Of this area, 1,420,200 acres are estimated to be under Autumn rice this year compared to 1,612,800 acres last year.

The outturn of Autumn rice is estimated at 79 per cent. of the normal yield, as against 85 per cent. of the normal yield last year. Calculated on the basis of the normal yield equal to 10·9 maunds of clean rice per acre, the gross total yield of Autumn rice for the province works out to 483,361 tons this year compared to 548,912 tons last year.

## DEPARTMENT OF COMMERCE, LABOUR and INDUSTRIES.

### Labour.

ORDER.

No. 1206Lab.—17th April 1948.—Whereas under the Government of West Bengal, Commerce, Labour and Industries Department, order No. 207Lab., dated the 26th January 1948, read with its corrigendum No. 410Lab., dated the 17th February 1948, the industrial dispute between the National Company, Limited, Rajganj, and their workmen as represented by the Rajganj Chatkal Mazdoor Union, Rajganj, in connection with the case of three of their workmen, namely Jugol Ghora, Makhan Paramanick and Ajmir, was referred for adjudication to Sree Matish Chandra Banerji, Additional District Judge;

And whereas the said Sree Matish Chandra Banerji, Additional District Judge, has given an award as shown in the annexure hereto;

Now, therefore, in exercise of the power conferred by section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased to direct that the award be published in the *Calcutta Gazette*.

### ANNEXURE.

INDUSTRIAL TRIBUNAL, CALCUTTA.

PRESENT: SREE MATISH CHANDRA BANERJI, *Additional District Judge, Tribunal.*

**Industrial dispute between Messrs. National Company, Ltd., Rajganj versus their workmen as represented by the Rajganj Chatkal Mazdoor Union.**

**Award.**

By order of the Government of West Bengal No. 207Lab., dated 26th January 1948, the industrial dispute between the National Company, Limited, and their workmen as represented by the Rajganj Chatkal Mazdoor Union in connection with the case of three of their workmen, was referred to me for adjudication under sections 7 and 10 of the Industrial Disputes Act. Due notices were served on the parties and both the Union and the Company filed written statements. The Union pleaded that the three workers in question, viz., Jugol Ghora, Makhan Paramanick and Ajmir were dismissed by

the Company on 5th July 1947 by way of victimisation, as they were prominent Trade Union leaders. The Union prayed for their reinstatement. The Company pleaded that the Tribunal had no jurisdiction to entertain the question of dismissal of a worker or his reinstatement. It further pleaded that Jugol Ghora and Makhan Paramanick were dismissed on the ground of gross misconduct and Ajmir was discharged for allowing unauthorised persons to work on his machine in spite of repeated warnings. The following issues were framed for decision of this case. The case was fixed on 18th March 1948 for hearing. Parties were present on that date and they were heard.

ISSUES.

1. Has the Tribunal jurisdiction to order reinstatement of the workmen as claimed?

2. Were the workers in question discharged by way of unfair labour practice?

3. Are any of the workers in question entitled to reinstatement, if so, on what terms?

**Decisions.**

**Issues 1, 2 and 3.**—The Company filed a petition stating that this Tribunal had no jurisdiction to entertain this case as the question of reinstatement of the three discharged workmen mentioned in the reference by the Government was the subject matter of the Jute Textile adjudication now pending before the Tribunal composed of Mr. S. N. Modak, Mr. N. C. Chakrabarti and myself. It also states that on behalf of the Indian Jute Mills Association which represents all the Jute Mills in that case, an application for a writ of certiorari challenging the jurisdiction of the Tribunal to consider reinstatement was made and that the Hon'ble High Court has issued a Rule. It is further stated that as the present subject matter was also the subject matter before the Jute Textile Industry Tribunal this reference was *ultra vires* and that the case should be struck off.

The Jute Textile Tribunal was formed by reference, dated 15th August 1947, and issues in that case were framed on 5th December 1947. Issue No. 26 deals with specific cases of victimisation as per list. This list shows the names of Makhan Paramanick, Jugol Ghora and Ajmir of the National Company, Limited. The present reference was made by Government on 26th January 1948. As the Jute Textile Industry Tribunal was already in seisin of the subject matter of this case, it is obvious, that this reference was ineffective and could not divest the Jute Textile Industry Tribunal of its jurisdiction to adjudicate on the subject matter in question. It is also a fact that the issues Nos. 9 and 26 of the Jute Textile Industry Tribunal has been stayed by a Rule of certiorari by the Hon'ble Hight Court In the circumstances, it is decided that this case should be struck off, and the issues shall not be answered.

*Additional District Judge, Tribunal.*

**Industrial dispute between Hooghly Bank, Ltd., 43, Dharmatala Street, Calcutta, and their employees as, represented by the Joint Secretaries of the Hooghly Bank Employees' Union, 157A, Dharmatala Street, Calcutta.**

### AWARD.

The Hooghly Bank, Ltd., is a banking institution which was started in 1933 and carries on business through its Head Office at Dharmatala Street, Calcutta, and its 20 branches situated in the city of Calcutta and its suburbs. The employees of the Bank formed a union in July 1946. The Union comprises of both the clerical and the non-clerical staff of the Bank. Being dissatisfied with the remuneration and other amenities received by the employees, the union submitted some demands to the Managing Director on 14th September 1946. On 27th September 1946 the Managing Director granted a general increment on the basic pay of the confirmed staff of the institution. In October 1946 there was a run on the bank. A grave situation was created, but it was somehow averted. In July 1947 the Management introduced grade-scales of pay for the clerical and the non-clerical staff and granted increments in the basic pay. One Sree Sukumal Bakshi, Manager of the Belur Branch, was unfavourably reported in the Audit Report of 1946 which was submitted in June 1947. In consideration of the defects in work, the Management transferred Sree Sukumal Bakshi to the Head Office in July 1947. Sree Sukumal Bakshi, however, took leave and he was ultimately dismissed by the Management with effect from 17th September 1947. In the General Meeting of the Employees' Union on 21st September 1947, a resolution was passed, demanding reinstatement of Sree Sukumal Bakshi. On the 11th October 1947 the Chairman of the Union complained to the Managing Director, characterising the dismissal of Sree Sukumal Bakshi as a case of victimisation, for his activities in connection with the Union and demanded his reinstatement. The Bank replied to this letter on 14th November 1947. The Union addressed another letter to the Management which was answered by the Bank on 5th December 1947. In the meantime on 1st December 1947 the Union submitted a fresh list of demands and in their letter dated 5th December 1947 the Management promised to consider the new demands. On 8th December 1947, however, a notice was given to the Managing Director informing him that unless Sree Sukumal Bakshi was reinstated and the other demands fulfilled, the employees would go on strike after 14 days. The Management and the Union met Mr. Q. Nawaj, Assistant Labour Commissioner, on 17th December 1947 and agreed to have an adjudication of their dispute by the Tribunal and the strike notice was withdrawn. On 15th January 1948, this dispute was referred to me for adjudication by the Government of West Bengal, in the Commerce, Labour and Industries Department, by Order No. 120Lab., dated 15th January 1948.

The parties filed written statements, examined witnesses and addressed me on their case. The case was heard on 21st February 1948, 26th February 1948, 28th February 1948, 2nd March 1948, 3rd March 1948 and 4th March 1948. The Union was represented by Sree Bhabeshchandra Basu, Chairman, and Sree Ajit Kumar Chatterji, Treasurer and one of the Joint Secretaries. The Bank was represented by Sj. R. N. Goswami, the Chief Accountant, Sree N. N. Basu, the Principal Officer and Mr. K. K. Basu, Counsel.

The disputed points were as follows:—

#### Decisions.

*Issue No. 1(a): Has the Tribunal jurisdiction to entertain the question of dismissal of Sree Sukumal Bakshi?*

The question is, if this Tribunal has the jurisdiction to entertain the question of dismissal of Sree Sukumal Bakshi. Sree Sukumal Bakshi was transferred from Belur Branch to the Head Office towards the end of July 1947. He was thereafter

dismissed on 17th September 1947. Mr. Bakshi was a Member of the Executive Committee of the Union. The Union's case is that Bakshi was dismissed as he was an active member of the Executive Committee and "the Management could not see eye to eye with Mr. Bakshi for his actively working for the Union, being the Manager of a Bank." It is further pleaded that "all wrath fell on him and he was transferred to Head Office" and that he was ultimately dismissed on 17th September 1947, just on the eve of the Annual Conference of the Union which was held on 21st September 1947.

The learned Counsel for the Bank claimed that this Tribunal had no jurisdiction to enter into the question of dismissal of an individual employee, unless it was a case of victimisation. To explain what was victimisation, the learned Counsel referred me to the award of Mr. Gupta, in the Imperial Bank dispute (*Calcutta Gazette*, 6th September 1947), where it was stated that what the learned adjudicator meant by victimisation was, dismissal or transfer of an employee, because of the part taken by him in the strike. There was no strike in this bank. From this it was sought to be suggested, that there could be no question of victimisation in the present case. The learned Counsel also referred me to an observation of Mr. Gupta at page 129 in the award stating "I would also like to emphasise strongly that in any institution or organisation where there are employees working under an employer, the latter must have the right to discharge unsatisfactory workers and an outside authority will never interfere unless it is clearly shown that the employer has abused his inherent rights." The case reported in 1947—2—A.E.R. 693 (R. *vs.* National Arbitration Tribunal, Ex parte Horatio Crowther and Co., Ltd.) was cited in support of the plea that the Tribunal could not reinstate a dismissed employee and, therefore, could not entertain the case of dismissal of an employee by an employer. It was further contended that in a contract between a master and a servant if a servant was dismissed after due notice, or pay in lieu of notice, the servant had the right, if any, to an action in the Civil Court. It could not be a case of an industrial dispute unless it was a case of victimisation. The dismissed employee had a remedy under the law in the Civil Court but he could not convert his grievance into that of the entire body of workers and invoke the extraordinary jurisdiction of the Tribunal, by way of an industrial dispute.

The Union maintained that dismissal of Sree Sukumal Bakshi in this particular case was an act of victimisation on account of his activities as a member of the Executive Committee of the Union and that it was, therefore, an unfair labour practice. It also referred me to the observation of Mr. Gupta noted above and drew my attention to the last clause stating that it was open to an outside authority and the Tribunal, to interfere, when it was clearly shown that the employer had abused his inherent powers in dismissing an employee.

As to what is really meant by victimisation the observation of Mr. Gupta in the award of the Imperial Bank dispute is not to my mind, exhaustive. There was a strike in the Imperial Bank and the plea of the Union there was that the dismissals and transfers were as a result of the employees taking part in the strike. That was certainly victimisation. It does not mean that where there was no strike any retaliatory measure taken by the employer could not amount to victimisation. In the English decision cited by the learned Counsel, Croom Johnson, J. states at one part of his Lordship's judgment "the real claim was that the alleged reason for their dismissal was not a true one and that they have been 'victimised', *i.e.*, been got rid of because they were members of the Chemical Workers' Union". This statement of the learned Judge clearly shows that victimisation means getting rid of an employee because he was a member of the union. I, therefore, conclude that victimisation is a measure taken in retaliation of the Employees' Union activities. If the employee was, therefore, dismissed as a retaliatory measure for his Trade Union activities, it was an industrial dispute and the cause could be taken up by the other employees as such a dispute.

In the English decision cited by the learned Counsel (1947—2—A.E.R. 693) it was decided by the learned Judges that a direction by the National Arbitration Tribunal to reinstate the workmen would be *ultra vires* the Tribunal. By the Conditions of employment and National Arbitration Order, 1940, made under the Defence (General) Regulations, 1939, Reg. 58AA, a Trade Dispute may be reported to the Minister of Labour and National service and referred by him to the National Arbitration Tribunal. Article 2 provides that if any trade dispute exists or it is apprehended that dispute exists, it may be reported to the Minister. It further provides that any agreement, decision or award shall be binding on the employers and workers to whom it relates and it shall be an implied term of the contract between the employers and the workers to whom it relates that the rate of wages to be paid and the conditions of employment to be observed under the contract shall be in accordance with such agreement, decisions or award. Trade Dispute under the Order is defined by Article 7 as any dispute or difference between employers and workmen or between workmen and workmen, connected with the employment or non-employment, or the terms of employment or with the conditions of labour of any person. Workmen is defined as any person who has entered into or works under a contract with an employer. Since November 1946 the workmen employed by the applicants, being the company, through their Union had pressed for changes in wages and conditions of service. On March 28, 1947, the Company gave the workmen on the manufacturing side of the business, including those in the Union, notice terminating their employment as as from April 4. On April 14 the matter was reported to the Minister of Labour and National service, who referred it to the National Arbitration Tribunal. The claim of the workmen included, *inter alia*, the reinstatement from the date of dismissal of the workers dismissed. The award of the Tribunal stated that they found in favour of the claim set out in the item as mentioned above and award accordingly. On an application for an order of certiorari, to quash the award, it was held, that the direction to reinstate the workmen would be *ultra vires* the Tribunal and the award so far as it related to that finding must be quashed. The judgment of Lord Goddard C. J. sets out in detail the grounds for which an order of reinstatement of an employee dismissed even by way of victimisation upon a trade dispute, could not be awarded by the Tribunal under the English Order. His Lordship states that there are no express words either in the Regulation or in the Order which in terms give the Tribunal any power to reinstate. It was claimed that as the Tribunal had power to deal with any question relating to any employment or non-employment it follows that they must have the power to make an order of reinstatement. His Lordship observes that it seemed a strong thing to say looking at the Regulation which alone gave force to the Order, that a power was thereby impliedly given to the Tribunal to grant a remedy which no court of law or equity even considered that they had the power to grant. It is further observed that a court of law or equity

has never granted an injunction compelling an employer to continue a workman in his employment or to oblige a workman to work for an employer. His Lordship pointed out that there was no provision in the Regulation which imposed a penalty on the employer if he refused after the award to re-employ the man nor on the workmen if in spite of an award he refused to work for the employer, that it was true that this Tribunal could do what no court could, viz., add to, or alter the terms or conditions of the contract of service, but express power to do so was given by the Regulation, while there were no words conferring a power to reinstate or revive a contract. The learned Chief Justice then states that if the employer of the workmen ignores the award of National Arbitration Tribunal as to reinstatement, his Lordship could find no method of compelling either to obey it whether by means of a prosecution or by a civil action. His Lordship discussed that in the case of a strike or lock-out where one side or the other has been given no notice to terminate the employment required by the contract and the other side has not accepted the breach, whether failure to employ or failure to serve, the contract existed and that in such a case the Tribunal could make an award which would have the effect of continuing the man in the service of the employer on such terms and conditions as the Tribunal might award. His Lordship concludes by saying that if there is and can be no means of enforcing the award, it is a cogent, if not a compelling, reason for saying that the Tribunal has no power to award it.

It, therefore, appears that the *ratio decidendi* of the decision of the learned Chief Justice and also Mr. Justice Humphreys who concurred with the learned Chief Justice, was that Article 2(*5*) of the Order provided a practical method of enforcing an award relating to wages to be paid or conditions of employment to be observed in that the terms of the award were to be an implied term of the contract of service, but no such provision was to be found relating to the award in a trade dispute connected with the employment or non-employment of any person. Under the English Act a trade dispute was a dispute between the employers and the workmen connected with each of the 3 heads of the definition of trade dispute, namely, the terms of employment, the conditions of labour, and the employment or non-employment of the workmen and while Article 2(*5*) of the Order provides a method of enforcing an award relating to wages to be paid and conditions of employment to be observed in that the terms of the award are to be an implied term of the contract of service, no such provision was made relating to the award of a trade dispute connected with the employment or non-employment of any person although the definition of a trade dispute expressly includes such a difference between employers and workmen. As observed by the learned Chief Justice, express power had been given by the terms or conditions of the contract of service while there were no words conferring a power to reinstate or revive a contract lawfully determined and further there was no means of enforcing an award of the later kind even if it were passed by the Tribunal.

The definition of an industrial dispute under the Industrial Disputes Act is similar to that of a trade dispute under Article 2(*5*) of the English Order. Under section 10 of the Industrial Disputes Act the appropriate Government may by order in writing refer an industrial dispute to a Tribunal for adjudication. Section 15(*1*) of the Act enjoins on the Tribunal to adjudicate an industrial dispute referred to it and to submit its award to the appropriate Government. Section 15(*2*) authorises the appropriate Government to declare an award to be binding. Section 18 lays down that the award shall be binding on all parties to the industrial dispute and some other parties mentioned therein. Section 19(*3*) shows that the award shall be in operation for a period to be fixed by the appropriate Government. Section 29 provides for the penalty for breach of any term of an award by a person on whom it is binding. On a survey of these provisions it appears that the Industrial Disputes Act grants a general authority on the Tribunal to adjudicate on an industrial dispute under each of the three heads of the definition of the dispute, viz., the terms of employment, the conditions of labour, and the employment or non-employment of the workmen. The authority of the Tribunal in regard to the disputes under each of the three heads of the definition is, therefore, similar. Under English Order, however, while the Tribunal was granted express authority to alter the terms of employment and conditions of labour, there was no power granted in regard to a dispute under the head of the employment and non-employment of the workmen. The Indian Legislature, however, did not discriminate between the powers of the Tribunal in regard to the three classes of the disputes. It cannot, therefore, be urged that while the Tribunal had greater powers than that of a Civil Court in respect of one class of disputes, it could not exercise such extraordinary powers in regard to another class. The second point of distinction between the English Order and the Indian Act is that a penalty has been provided by the Act under section 29 in regard to commission of breach of any term of an award by a person on whom the award is binding under the Act. It, therefore, appears that if the Tribunal passes an award in respect of an industrial dispute in regard to the employment or non-employment of workmen, the parties to the dispute are penalised on breach of such an award. The absence of this penalty in this English Order coupled with the absence of any provision for an express authority in the Tribunal in regard to this class of cases as distinguished from the other two classes for which express authority is given, virtually deprived the Arbitration Tribunal under the English Order, of any jurisdiction to pass any award upon the disputes in this class of disputes over the employment or non-employment of the workmen. In view of these circumstances, I am of opinion that decision reported in 1947—2—A.E.R. 693 has no application to a decision by a Tribunal under the Industrial Disputes Act.

The principle to be followed in assessing the right of the employee to claim reinstatement has been considered by Dr. H. G. Waight in the award in the Venesta Ltd. dispute (*Calcutta Gazette*, dated 6th September 1947). He observes as follows:—It is no doubt the fundamental right of an employer under the common law to select his employees and to discharge them. On the other hand, that right has been statutorily encroached upon and curtailed by enactments in highly industrialised countries. For example, the National Labour Relations Act of the United States makes it an unfair labour practice for an employer to discharge an employee for filing charges under that Act against an employer, and provides for the reinstatement of the employee so discharged. In Australia also employers have been restrained by statute from discharging employees for Trade Union activities and the remedy of reinstatement has been provided.

In the Indian United Mills, Ltd., Bombay (*Bombay Labour Gazette*, January 1947, P. 333), it has been laid down by Divatia, J. that every employer has a large discretion in discharging or otherwise punishing his employees for inefficiency, negligence, dishonesty, insubordination or misconduct, and so long that is done in good faith and without any ulterior motive, arbitrary conduct or unnecessary harshness in exercising discretion should not be interfered with. But the position

would be different where the employees' conduct is provoked by unfair labour practice of the employer himself. Where the employees' connection with the Union is the real though an indirect cause of dismissal and where an employee is dismissed on the plea of retrenchment and reorganisation, but really because he was a Vice-President of the Union, it was held that it was a fit ground for reinstatement. Section 33 of the Industrial Disputes Act, however, shows that even during the pendency of a dispute before Tribunal the employer is entitled to discharge, dismiss or otherwise punish a workman for a misconduct not connected with the dispute before a Tribunal. This suggests that the employer has always the power to punish his employee for a misconduct, unless such an action amounts to victimisation.

It is, therefore, decided that this Tribunal has the jurisdiction to entertain the dispute as to the reinstatement of Sree Sukumal Bakshi and that Sree Sukumal Bakshi should be entitled to the reinstatement, if it was found that his dismissal was by way of victimisation, that is, really for his union activities.

*Issue 1(b): Is the demand for reinstatement of Sree Sukumal Bakshi justified*

The Union's case is that after its formation in July 1946 it began to organise itself with the help of its active member Sree Sukumal Bakshi, the Manager of the Belur Branch, that the Management could not see eye to eye with Mr. Bakshi for his actively working for the union being the Manager of a Branch, that all wrath fell on him and he was transferred to Head Office, that during the period of his leave he prayed for a certificate for submitting the same to his prospective employer, that some higher officers took advantage of his seeking job elsewhere and demanded resignation from him without authority to do so and he was ultimately dismissed on 17th September 1947, four days before the date of the Annual Conference of the Union.

The plea of the Bank on this point has been detailed in pp. 12 to 20 of its written statement. It is stated that Mr. Bakshi was found unfit to carry on the duties of the Officer-in-charge of the Belur Branch, that his work was found unsatisfactory by the Auditors and also the Chief Accountant who went on inspection from time to time. The Management allowed him to continue and gave him chances for improvement and although the Auditors repeatedly suggested for removal of this Manager, the Management continued to retain him to permit him to improve and also as no suitable man was available all at once. In the Audit Report of 1946 which was submitted in June 1947 previous irregularities and defects were found to be continuing. An explanation was asked from Mr. Bakshi on 5th June 1947 and the reply thereto submitted by him on 14th July 1947 was found to be unsatisfactory. The Management thereupon on 26th July 1947 transferred Mr. Bakshi as an Assistant in the Head Office. On receipt of the order of transfer on 29th July 1947 Mr. Bakshi did not join at the Head Office but applied for leave for one month on the ground that he intended to go away for a change of air. He was allowed leave for one month on full pay with effect from 8th August 1947. On 25th August 1947 Bakshi wrote to the Management asking for a testimonial. On 4th September 1947 the Management enquired of the purpose for which the testimonial was required, and he was at the same time informed that it was not the practice of the bank to issue a service certificate to an Assistant during the currency of his service. On 4th September 1947 Mr. Bakshi applied for an extension of leave for another month in continuation of his previous leave which was to expire on 7th September 1947. On 8th September 1947 Mr. Bakshi wrote to the Management that the certificate he wanted was for submission to some other Firm where he was trying for a job and that he had no mind to serve in this institution. On the same day a letter was written by the Management in reply stating that a certificate could be issued only stating the period of service and that the Management would be pleased to answer any direct reference by the prospective employers. On 13th September 1947 the Management decided that Mr. Bakshi should not be retained in the service of the Bank any longer, in view of the fact that his service was all along unsatisfactory in spite of repeated warnings, and also in view of his statement that he had no mind to serve the institution any longer. A letter of resignation was demanded and Mr. Bakshi was informed that no extension of leave was to be granted to him. Mr. Bakshi in his letter dated 15th September 1947 objected to the refusal of the extension of leave and also to the demand of the resignation. On the same day the Management replied to his letter stating the considerations that impelled the Management to take the course of action they did and also informed him that on his failure to send the resignation letter within 3 days, as requested previously, his services would be terminated and he would be paid one month's salary in lieu of notice. He was further informed that on receipt of the resignation letter the certificate asked for would be issued to him. Mr. Bakshi did not tender his resignation and his services were terminated with effect from 17th September 1947. He was given one month's full pay in lieu of notice. The Bank also pleads that during the period of leave of Mr. Bakshi some irregularities in his work were discovered and that further irregularities were also discovered by the successor of Mr. Bakshi after the date of dismissal of Mr. Bakshi. All these irregularities complained of by the Bank were mentioned in its letter (Annexure XX) dated 14th November 1947, in reply to the complaint of the Chairman of the Union in his letter dated 11th October 1947 (Annexure XIX), that the dismissal of Mr. Bakshi was a case of victimisation. It is to be considered if Mr. Bakshi's dismissal was justified or if it was a case of victimisation for union activities.

Ext. A is an endorsement by Sree Sukumal Bakshi stating that he had read and understood the service rules of the Bank and agreed to abide by them. No. 8 of the Service Rules shows that the Bank was entitled to terminate the services of a permanent employee, without assigning any reason, on 30 days' notice or on payment of 30 days' pay, in lieu of notice. Exts. E and F are the Audit Reports of the Belur Branch for 1946. Ext. B is the explanation of Bakshi on the defects found in the Audit. The Chief Accountant Sree R. M. Goswami (O. P. W. 1), the Auditor in charge, Sree Arun Bhusan Sen Gupta (O.P.W.2) and Sree Tarapada Goswami, the present Manager (O.P.W.3) of the Belur Branch deposed for the Bank. Sree Sukumal Bakshi (P.W.1) was examined on the side of the Union. It appears from the evidence of O.P.W.1 Goswami that the irregularities found in the work of Bakshi has been classed under three groups as stated in Annexure XX; the first group are those found when Mr. Bakshi was working in the Belur Branch, the second group are those found when Bakshi was on leave and the third group are those that were found after Bakshi was dismissed. The Company relied on defects Nos. 2, 3, 7 and 9 of the 1st group, 1, 2 and 3 of the second group and 1 and 2 of the 3rd group, as the grounds in justification of the maintenance of the order of dismissal of Bakshi. Defect No. 2 of the 1st group is that Bakshi as the Manager of the Branch did not submit periodical returns in due time to the Head Office in spite of reminders. Defect No. 3 is that the balances in the General Ledger did not agree with the balance of the Saving Ledger for a long

time during Bakshi's tenure and Bakshi made no sincere effort to reconcile this defect. The balance in the Savings Ledger is taken in two groups—being the time liability and the demand liability, according to the Reserve Bank Act and it is stated by Mr. Goswami that Mr. Bakshi submitted fictitious figures in respect of the demand and the time liabilities. He also drew my attention to the fact that in many instances the figures on the Savings Ledger were not totalled. Ext. D is a Savings Ledger for 1946 of the Belur Branch. There was no totalling of the figures on 15th March 1946, and it appears that after 29th March 1946 the balance was struck on the ledger for the first time on 26th April 1946. The next entries were on 31st May 1946. The next following entries were on 28th June 1946, and the next following after 28th June 1946 was on 15th August 1946. The Branch was bound to make these entries once every week. Under section 42 of the Reserve Bank Act the amounts of the demand and the time liabilities of the Savings Bank are to be reported to the Reserve Bank each Friday. The Bank was bound to maintain in the Reserve Bank, an amount in proportion to the demand and the time liability amounts under section 42(*i*) and the default in this respect is penalised under sub-clause (*iii*) of that section. It is abundantly clear that it was not possible for Mr. Bakshi to submit correct figures every Friday as required by the Bank as the Ledger (Ext. D) shows that he did not maintain these figures every week. The figures submitted by him in these circumstances are bound to be fictitious and the Bank was all the time running the risk of being penalised by the Reserve Bank of India, as nobody knew if the Bank's deposit with the Reserve Bank was up to the limit prescribed by the Act. The only explanation that Mr. Bakshi offers in his evidence is that he was over-burdened with work as he had no Accountant and therefore these defects occurred. It appears in his evidence also that he knew of only two Branches of the Bank, out of 20, to have a separate Accountant. It appears that many of the Branches have no separate Accountants. Defect No. 2 in the second group of irregularities alleges that demand and time liability figures required for submission to the Reserve Bank of India were being fictitiously submitted by Bakshi and defect No. 3 alleges systematic submission of false figures in the daily intimation sent by Bakshi to the Head Office, to avoid detection of discrepancies between the Head Office and the Branch books. Mr. Goswami states in his evidence that Bakshi used to send intimations on the basis of the returns he used to receive from the Head Office every day and not on the basis of the figures in his own Ledgers and that this he did to avoid detection of discrepancies between his Ledger balances and the balances in the Head Office books. I do not find any denial of this charge by Bakshi in his evidence. Mr. Goswami further states that Mr. Bakshi did not sign the payment vouchers before the payments were made. This is irregularity No. 1 in third group in Annexure XX. I was shown 26 such vouchers at the time of the hearing, only for the months of May and June 1947 which were not signed by the Manager of the Bank. They were returned to the Bank after they were shown at the time of the hearing. It was also alleged in defect No. 2 in the 3rd group of irregularities in Annexure XX, that cheques encashed in the Bank were not posted in the Ledger for many days together. This charge is proved by reports (Exts. G and G1) of Nemaichandra Goswami of the Bally Branch. Ext. G even shows that in 1946 the payment of a cheque for Rs. 100 on 9th February 1946 was not at all entered into the Ledger and that the party took out Rs. 80-5 in excess of his deposit in subsequent transactions, on account of this omission. It also appears that Mr. Bakshi allowed overdrafts to a party without the sanction of the Head Office in 1946 and 1947. This matter appears from Report (Ext. H) filed by the Bank. It appears that Mr. Bakshi allowed over-draft to this party in 1946 and 1947 in spite of opposition by the Head Office and allowed drawal of money up to Rs. 19,134 as against the prescribed limit of Rs. 13,500. The defects in the Audit were testified to by O.P.W. 2 Sree Arun Bhusan Sen Gupta. I do not deal with the other defects alleged by the Bank in the Annexure XX. I do not consider that the defects mentioned above have been anywhere satisfactorily explained by Mr. Bakshi. It was argued by Sree Bhabesh Chandra Bose, the Chairman of the Union, that it was unfair on the part of the Bank to rely on defects which were not made the ground of dismissal of Sree Sukumal Bakshi and that the defects which have been now put forward by the Bank were condoned and Bakshi was merely transferred from the Belur Branch to the Head Office as an Assistant in view of the defects. It was further urged by the Chairman of the Union that after his transfer to the Head Office Bakshi was granted leave for one month with pay and that it was only when he wanted a certificate, his resignation was demanded and on his declining to resign he was dismissed. It is claimed that the dismissal of Bakshi on his refusal to resign was an unfair labour practice. It is true that Bakshi was not dismissed on account of the defects found in the Audit Report and that the only punishment that was awarded by the Management for this defect was his demotion as an Assistant in the Head Office. Bakshi, however, took leave for one month which was granted to him with effect from 8th August 1947. The period of this leave was to expire on 7th September 1947. On 4th September 1947 Bakshi prayed for extension of the leave for another month (*vide* Annexure XII). In the meantime on 25th August 1947 Bakshi applied to the Managing Director for a certificate (Annexure X). On 4th September 1947 the Chief Accountant replied to Bakshi enquiring why this certificate was required (Annexure XI). The reply to this letter is Annexure XIII where Bakshi states "I have not the mind to serve here. I have to submit a certificate to some other firm where I am trying for a better job. So the certificate required." Annexure XIV dated 8th/10th September 1947 is the reply to this letter by the Bank stating that it is not their practice to issue a certificate as to an employee's character during the currency of his service. Ext. C is the report on the matter by Mr. N. N. Basu, the Principal Officer of the Bank, to the Managing Director where the letter of Bakshi dated 8th September 1947 (Annexure XIII) and the letter of the Bank (Annexure XIV) were put up. The endorsement of the Managing Director shows that he considered the service record of this officer to be unsatisfactory. He also observed that as the officer had no mind to serve the institution there was no use in retaining him in service. The endorsement orders for calling for his resignation and in default in this respect for termination of his service. This order of the Managing Director is dated 13th September 1947. It appears that upon this the letter (Annexure XV) dated 13th September 1947 was addressed to Bakshi in reply to his leave application dated 4th September 1947. In this letter the Management refused the extension of leave and asked for his resignation. Annexure XVI is the letter dated 15th September 1947 by Sukumal Bakshi to the Bank complaining of the demand of the resignation as an autocratic measure and promising to join duties on the following day. Annexure XVII dated 15th September 1947 is a letter by which Bakshi was again asked to tender resignation within 3 days from 13th September 1947 according to the previous letter and he was also informed that in case the resignation was not forthcoming his services shall be terminated from 17th September 1947 and one month's salary in lieu of notice

all be allowed to him. As Bakshi did not resign, s Management by letter dated 20th September 47 (Annexure XVIII) dismissed Bakshi and lered for payment to him all the arrear emolu- nts and emoluments for 30 days from the date discharge in lieu of notice. In Annexure XVII two grounds which have been set forth by the anagement for the discharge of Bakshi were:

(1) That his quality of work while Officer-in- arge of Belur Branch was very unsatisfactory d in spite of repeated warnings there was solutely no improvement which necessitated his motion and transfer to Head Office.

(2) His letter dated 8th September 1947 clearly licates that he had no intention to serve the titution any longer, which shows that he had interest in this institution and the institution uld not derive any further benefit from his vice.

It is a settled principle of law that if a master dis- ses a servant for a certain reason, he can rely other grounds of defect of the servant, in justi- tion of the dismissal, in an action by the ser- nt (*vide* Anson's Law of Contract- 19th Edn., 325, 326). It, therefore, follows that although bank dismissed Sree Sukumal Bakshi for some ticular reason, it was open to it to prove other ects of Bakshi in this action, to show that his nstatement would be unjustified. The defects the work of Bakshi that were discovered after services were terminated, are therefore rele- nt to this enquiry on that ground.

The Union alleged that the defects which were ved against Mr. Bakshi could be proved against other Branch Managers, although they were ained in the service of the Bank. This is, how- r, no ground for assailing the conduct of the nk in dismissing a delinquent employee. As the Union activities of Bakshi it was stated that was a member of the Executive Committee and s an active member of that Committee, as he d to collect subscriptions and enlisted members the Union. Bakshi states that he believes t he has been punished for his work for the ion. He also states that he visited the branches the bank, for joint action through the Union, en the increment in January 1947 was not given that this annoyed the authorities of the bank, luding the Managing Director, the Chief countant, Mr. Goswami, Mr. N. N. Basu and . Sen the Auditor. In this connection I would er to the application to the Managing Director a certificate by letter, dated 25th August 1947, nexure X. The Chairman of the Union asked to believe that this was a private letter to the naging Director for a personal certificate and t this was pounced upon by the Chief Account- , Mr. N. N. Basu and Mr. S. K. Chatterji as excuse for getting rid of Bakshi. This does show, however, that the Managing Director s annoyed with Bakshi to the extent of getting of him on a pretext. If that were so, Bakshi uld never have asked for a personal certificate m the Managing Director Mr. D. N. Mukherji. t. 2 is a certificate granted by the Managing rector Mr. D. N. Mukherji to Sukumal Bakshi 3rd December 1940, and Ext. 2(*a*) is another tificate granted by Mr. R. N. Goswami the Chief countant to Bakshi on 16th June 1939. Ext. s a letter written by Mr. Goswami to Bakshi 12th September 1945 showing great sympathy the worries and difficulties of Bakshi. There nothing on record to show that the Managing rector or the Chief Accountant was in any way nically disposed towards Mr. Bakshi. It ears that there were 15 members of the Execu- Committee including one Chairman, two Vice- irmen, two Joint Secretaries, one Assistant retary and one Treasurer. Bakshi admits that Secretaries and the Assistant Secretary are more important members of the Union than he himself. There is nothing to show that the authorities of the Bank had any special ground for victimising Bakshi in regard to his Union activities leaving aside the more active members of the Union. It appears that many of the principal officers of the bank were members of the Union. It was argued by the Chairman of the Union that Bakshi had a bad Audit Report as he incurred the displeasure of the Audit Department in connection with his Union activities, in that he excluded some members of the Audit Department from the Union. The letter (Ext. 1) addressed to the officers of the Audit Department was shown in justification of this claim. I do not find, however, anything in this letter to justify such a claim. This letter only shows that some of the officers of the Department were absent in the meeting where their nominee was selected and they wanted a fresh election of their member to the General Committee and this was allowed by the Chairman Sj. Bose. I do not find anything to justify the plea that the defects in the Audit Report were the result of some malice on the part of the Audit Officers towards Bakshi. Some of the defects, as I have mentioned above, have been clearly proved before me. I did not enquire into the other defects found in the Audit Report as they were of a less grievous nature.

In view of the circumstances discussed above, it is clear that in view of his defects in work as the Manager of the Belur Branch he was transferred as an Assistant in the Head Office, but that he made an attempt to circumvent the order and avoided joining the Head Office and even went to the length of intimating the Management that he had not the mind to serve this institution any longer. The Management immediately turned round and stated that he was an inefficient member of their staff and they will be glad to part with him and called for his resignation. The circumstances are such that it was Bakshi himself who wanted to terminate his services with the Bank and this offer was only accepted by the Management in view of the fact that he was not a very efficient and useful member of the institution. I do not find anything on the record to justify the claim that Bakshi was got rid of really on account of his Union activities, as he was not such an important member of the Union as he claims to be. In these circumstances, I am of opinion that Sree Sukumal Bakshi was not dismissed by the Bank by way of victimisation on account of his Union activities and his dismissal was no instance of unfair labour practice by the Bank Authorities and that he is not entitled to reinstatement as claimed before me.

*Issue No. 2: Can the Tribunal entertain the demands Nos. 20-25 made by the Union?*

The Union submitted some demands to the Bank Authorities on 14th September 1946 and Ext. 4 is the copy of these demands. A second list of demands [Ext. 4(*a*)] was submitted to the Managing Director on 31st December 1947. All these demands are comprised in paragraphs 1 to 19 of the Union's written statement. The Union made it clear in its written statement that they were submitting fresh demands mentioned in paragraphs 20 to 25 before the Tribunal. The learned Counsel for the Bank objected to these demands incorporated in paragraphs 20 to 25 being considered by the Tribunal, as they were never placed before the Bank Authorities and there was no dispute or difference over them and, therefore, no industrial dispute concerning them at the date of the reference. The objection is well-founded.

The demands mentioned in paragraphs 20 to 25 formed the subject matter of the issues Nos. 14, 15 and 16. In consideration of this objection the issues Nos. 15 and 16 were agreed to be struck

off by the parties and they shall not, therefore, be answered. Issue No. 14 being fixation of working hours is connected with other issues, e.g., issue No. 8. This issue shall, therefore, be retained and answered.

*Issue No. 8: Leave for staff for work on Friday afternoon in double shift working branches.*

This issue arises from the demand No. 10 which shows that in double shift branches the evening shift on Fridays is recorded in papers as closed, but in practice the staff is forced to work in both the shifts on Fridays. The result is that the staff in the double shift branches are deprived of a half holiday. In page 31 the Management states that it had no objection to allow a half holiday on Saturday evenings in double shift working branches. The Union accepted this offer and it is awarded that in branches where work is done in two shifts, in the morning and evening, Friday will be a full working day and the evening shift on Saturday shall be closed.

*Issue No. 3. Revision of basic pay of clerical and non-clerical staff. House-rent and compensatory Allowance for Calcutta employees.*

The demand of the Union on 14th September 1946 wanted an increment on the basic salary of the clerks varying from Rs. 13 to Rs. 20, the maximum increment being for clerks enjoying a salary of Rs. 30 to 35. The Union also demanded a grade system of salaries starting from Rs. 50 for Assistants, Rs. 75 for Head Typist and Junior Officers and Rs. 90 for Stenographers and Senior Officers. Annexure II being the letter, dated 27th September 1946, by the Managing Director to the members of the staff shows, that a general increment of salary was granted to the confirmed clerical and non-clerical staff with effect from 1st September 1946. The clerical staff drawing salary below Rs. 200 per month was given a flat increment of Rs. 10 per month and the non-clerical staff was given an increment of Rs. 4 per month. On 1st of July 1947, grade scales of salaries were introduced and Assistants were divided into Class III and Class IV; Class IV Assistants were given the scale of Rs. 50-4-90(E.B.)—5—140; Assistants in Class III were given the scale of Rs. 75-6-135(E.B.) 7½-210. The Junior Officers were divided into two categories—Class II(b) with a scale of Rs. 100—8—180(E.B.)—10-280 and Class II(a) with a scale of Rs. 125—10—225(E.B.) 12½—250. It is needless to point out that the initial salaries of the Junior Officers and Assistants as allowed by the Bank is more favourable than what was demanded by the Union. It appears in the written statement of the Bank that other banking institutions of greater size than that of the Hooghly Bank do not pay a better grade scale of salaries than what is offered by the Hooghly Bank. The Chairman of the Union pointed out that the increment of Rs. 4 in the first stage in the scale of the Class IV Assistants was very unsatisfactory. I am of opinion that this increment should be raised from Rs. 4 to Rs. 5 in the year. The scale then stands as Rs. 50-5-90(E.B.) 5-140. With this modification I maintain the grade scales of salaries as offered by the banks to the clerical staff. The non-clerical staff was allowed the following scales of salaries:—

1. Jamadars and Durwans—Rs. 30—2—50.
2. Peons I—Rs. 25—1½-40
3. Peons II—Rs. 20-1-30.
4. Boys—Rs. 15-1-20.
5. Drivers—Rs. 75—4—115.

The written statement of the Bank states that the scales of salaries allowed to the clerical and non-clerical staff by the Hooghly Bank was better than that offered by the other banks in Calcutta of the same status.

I verified the salaries offered by the Comilla Union Bank and the Comilla Banking Corporation to their clerical and non-clerical staff and I find that the details given in the written statement on these points have been correctly stated.

In the circumstances, I am of opinion that the scales of salaries allowed by the bank to the clerical and non-clerical staff are satisfactory and require no modification except for the increment in the first stage of the salary of the Class IV Assistants as mentioned above.

The Union also demanded a house-rent allowance and a compensatory allowance for the Calcutta employees. As has been discussed above the grade scales of salaries offered by the Hooghly Bank is not less favourable than those offered by the other banks of its size. It will be discussed below that the net profits of the Bank do not admit of further appropriation for extra payments to the staff. The claim on the house-rent allowance and compensatory allowance should not, therefore, be entertained.

*Issue No. 1. Revision of Dearness Allowance.*

The present Dearness Allowance as allowed to the clerical staff is Rs. 20 and that to the non-clerical staff is Rs. 14. It appears that the Management allows free tiffin to all the members of the staff including the non-clerical staff, at a cost of about Rs. 10 per month. The Management therefore argued that to all practical purposes the Management allows really Rs. 30 as Dearness Allowance for the clerical staff and Rs. 24 as that for the non-clerical staff. It appears that the Comilla Union Bank, the Comilla Banking Corporation and the Bengal Central Bank pay Rs. 25 per mensem and that the Nath Bank pays Rs. 20 per mensem as Dearness Allowance to the clerical staff.

It also appears that the Hooghly Bank also pays one month's salary as bonus at the time of the Puja Vacation every year. It is stated by the bank in its written statement at page 28 that it generally pays one month's salary as Puja Bonus to the staff every year, though it is not obligatory to the Management to pay any such bonus. I would like to mention here that the Bank is not correct in stating that it is not obligatory to it to pay this bonus. This is a term of the employment in this Bank and this should be paid and it may be calculated in determining the total emoluments paid to the clerks. It would appear, therefore, that a clerk drawing the minimum salary of Rs. 50 gets another Rs. 50 by way of Puja Bonus and his monthly remuneration is, therefore, increased by a little over Rs. 4. It further appears that the Management provides for a free Life Insurance Policy for Rs. 1,000 for the clerical staff and Rs. 550 for the non-clerical staff for all employees who complete 2½ years' service in the Bank. A Life Insurance Policy of Rs. 1,000 will also require about Rs. 50 a year by way of premium which is paid by the Bank. This would mean another Rs. 4 paid to the lowest paid employee. It, therefore, appears that the total lowest remuneration received by a clerk of the Hooghly Bank is near about Rs. 90. For an employee in Calcutta this sum is somewhat below the poverty line according to the Central Pay Commission Report, but for employees who are engaged outside the city of Calcutta it is just on the poverty line. We are to consider if the financial condition of the Bank admits of increasing the Dearness Allowance any further.

Ext. G is the statement on the financial condition of the bank including the position at the end of 1947. It appears that in 1947 the Bank earned a profit of Rs. 2,06,000 and the dividend for the ordinary shares was reduced from 10 per cent. to 7½ per cent. The last year's balance brought forward of the profit and loss account was about Rs. 80,000 and the amount transferred to the Reserve Fund at the end of 1947 was Rs. 1,00,000. It appears, therefore, that a sum of about Rs. 20,000 only was transferred to the Reserve Fund. The statement (Ext. G) contains the balance sheet and the profit and loss account for the year 1947 which has not been yet audited. The Union submitted a balance sheet as on 30th September 1947 (Ext. 6) which shows a net profit of Rs. 4,11,000 and odd up to 30th September 1947. The Union contended that in view of Ext. 6 it was not possible to place any reliance on the balance sheet (Ext. G) showing a net profit of only about Rs. 2,00,000 up to the end of December 1947. The Bank Authorities pointed out that the profits from investments in stocks and securities were smaller in 1947 than in previous years and this explains for the shrinkage in total profits in 1947. I asked the Union to inspect the accounts of the bank to verify this statement of the bank but they declined to do so. In the circumstances, I have no other alternative than to accept the balance sheet submitted by the bank for the year 1947 as correct. It is admitted by both the parties that there are at present 175 menials and 355 employees of the higher category. The total number of employees is, therefore, 530. An increment of Re. 1 in the Dearness Allowance for each of them will involve an extra expenditure of Rs. 6,360. The menials are getting a Dearness Allowance of Rs. 14 besides the advantages of free tiffin valued at Rs. 10 and the free Insurance Policy of Rs. 350, the premium whereof is paid by the Company. The Union wanted an increment of Rs. 10 in Dearness Allowance for the clerks and Rs. 5 in Dearness Allowance for the menials. I have stated above the financial condition of the bank at the end of 1947. Ext. H is the profit and loss account for January 1948 supplied by the bank which shows a net loss of about Rs. 8,000. In view of these circumstances, I do not find it possible to award an increase in the Dearness Allowance of the clerks and the menials, as I am afraid such a step would be dangerous to the institution. It is, therefore, decided that no further increase in the Dearness Allowance is called for at the present moment.

*Issue No. 5 Creation of a medical fund.*

The Union demanded that a medical fund should be created upon a contribution of Re. 1 per head of the employees in the year to permit the bank to grant financial aid to the employees in case of protracted or serious illness involving too great a strain on the resources of the employees. As I have mentioned above there are about 530 employees in the bank and a contribution at Re. 1 per head involves a grant of Rs. 530 or near about in the year on the part of the bank. The Bank Authorities did not object to such a grant in the circumstances of the case. I, therefore, award, that the bank should start a medical fund for the employees, wherein it should contribute a sum of Re. 1 per head of the employees in the beginning of the year. It appears from the statements of the Union representatives that they have created a fund in the Savings Account out of the savings from their tiffin allowance from the bank. The Union representatives claim that this sum in the savings account which has been created from the savings of the tiffin allowances should be drawn to the medical fund and the bank authorities agreed to the suggestion. The number of the account was not supplied to me. But I have no doubt the bank authorities and the Union representatives will have no difficulty as to identification of this account and the money lying in this account should be transferred to the medical fund abovementioned. Contributions from the medical fund will be allowed to an employee only in case of a protracted illness or a serious illness involving an expenditure which it is difficult for the employee to bear. The administration of this fund shall be vested in a Board of 3 members, two of whom should be nominated by the Management and one by representatives of the employees. I award accordingly.

*Issue No. 6 Allowances for closing of accounts in June and December.*

The Union claimed a bonus for the closing of accounts of the bank in June and December every year as this work involves a great strain on the employees. This issue has been framed on the demand No. 7 of the Union. The reply of the bank on this demand appears at pp. 28 and 29. The last paragraph of this reply shows "as it was the policy in the past, the Management will try to pay extra bonus in any particular year if it is possible after making the usual disbursement". I am told by the Bank representatives that the share capital will be increased from Rs. 30,00,000 to Rs. 50,00,000 within the next year. If that be so, a proportionately greater net profit will be required to maintain the dividend and the other liabilities of the bank. It is decided in agreement with the representatives of the Management that an extra bonus of 15 days' pay for each of the closing of accounts shall be paid by the bank to the employees if the net profits amount to 3½ lakhs or more in the year.

*Issue No. 7 Gratuity*

The claim of the gratuity is contained in demand No. 8 of the Union's statement. The Union demands gratuity equal to one month's pay per year of service, to be paid at the completion of the service period, or death before the completion of the service period. In view of the financial circumstances of the Bank I do not consider that this claim may be entertained.

*Issue No. 9 Procedure of dismissal of employees.*

The Union claimed that no employee should be discharged except for bad conduct or dishonesty and that employees should be gvien an opportunity of explaining their conduct in case of discharge, and further, that the Union was to be informed upon discharge for defending the employees. It is difficult to define conditions on which an employee may be discharged or dismissed. it will be enough for me to enunciate here only that no dismissal or discharge should be made except after giving the employee an opportunity of explaining his conduct and that a dismissal or discharge should be made only by the proper authority of the institution. The employee in question shall be entitled to be represented at the enquiry by two representatives of the Union. The employees in question and not the Bank are to approach the Union, if necessary, in this connection.

*Issue No. 10 Increments from January to June 1947, if to be given immediately.*

It was claimed that increments from January to June 1947 which was withheld must be given to the individual staff immediately. At page 34 the Management states that they allowed a very decent

increment to the staff in April 1946, with retrospective effect from January 1946 and again in September of the same year it allowed a general increment of Rs. 10 on the basic salary to all confirmed clerical staff drawing salary below Rs. 200 and Rs. 4 to all confirmed non-clerical staff. The Bank also granted an increment to all the staff in July 1947 when the grade scales of salary were introduced. The increment on account of the grade scale was given with effect from 1st July 1947 and not from the beginning of the year. The employees claimed this increment with effect from the beginning of 1947. The extra expense involved would be Rs. 20,000 as shown in the letter of the Bank, dated 13th August 1947. A sum of about Rs. 80,000 was carried over to 1947 from the surplus of 1946. I do consider that the employees should be allowed the benefit of the introduction of the grade scales with effect from the beginning of 1947 as claimed. This expense may be met from the surplus of 1946. The arrear amount of increments for the first half year of 1947 may be paid in several suitable instalments by the bank after this award comes into operation. I award accordingly.

*Issue No. 11 Period of probation of non-clerical staff.*

This was framed from demand No. 17 where it is claimed that non-clerical staff should be confirmed after six months of service and they should get the privileges of leave, Provident Fund and Insurance at the end of the period. At page 37 of its written statement the bank states that non-clerical staff are confirmed after one year of service and the clerical staff is confirmed after six months of service. The grounds given for the confirmation of the non-clerical staff at the end of one year as stated in the written statement of the Bank are convincing, and I have not been shown anything from the side of the Union to assail them in any way. The period of probation for a period of one year for a worker was also fixed by Dr. Waight in the award of the Venesta, Ltd., dispute. It is awarded that a non-clerical employee shall be confirmed only after a satisfactory period of probation for full one year and that after they are confirmed they will get the advantages of leave, Provident Fund and free insurance.

*Issue No. 12 Leave rules for non-clerical staff.*

The leave rules for the non-clerical staff will appear in page 39 and it is stated that all leave rules applicable to the clerical staff are also applicable to the non-clerical staff with this exception that privilege leave is accumulated for 2 months instead of 3 months as allowed for the clerical staff. I do consider that these provisions are quite generous and cannot be reasonably assailed. They are upheld.

It was stated that demands are made by the Management for substitutes in case of granting leave to non-clerical staff and that this was objectionable. The Bank states in its written statement that such substitutes are sometimes demanded only in the case of responsible non-clerical staff as guards or durwans placed in charge of a branch or godown, when a long leave is prayed for. It is understandable that it is not always possible to relieve all at once a durwan or a guard in charge of a branch or a godown until a suitable substitute is obtained. If a substitute is given by the permanent employee, it ensures to the convenience of both the Bank and the employee. I do not find anything wrong in the demand of a substitute from a durwan or guard applying for leave. I do consider, however, that such a demand should not stand in the way of granting leave to the employee. It is awarded accordingly.

*Issue No. 13 Warm-kits for non-clerical staff.*

The Union demanded supply of warm-kits to all non-clerical staff. The bank states that those non-clerical employees who do manual labour from 10 a.m. to 5 p.m. do not require any warm-kit over and above the cotton uniform supplied by the bank, but concedes that those non-clerical employees who have to work in the morning and evening branches would be supplied with warm-kits in the next winter. The bank should supply warm-kits to all its non-clerical employees for use in the winter. These warm-kits should be supplied, however, only once in 3 years. It is awarded accordingly.

*Issue No. 14 Fixation of working hours.*

The office hours in general are from 10 a.m. to 5 p.m. as demanded by the Union. The Union also demand that where the employees are to attend or to leave office before or after office period they must be properly remunerated. It is true that to commence work at the counter just at 10 a.m., an employee has to arrive in the office little earlier, say, at about 9-45 a.m. It is admitted by the bank that some responsible officers have sometimes to work beyond the office hours to finish their work. I do not consider that such contingencies should call for extra wages. It is awarded accordingly.

*Issues Nos. 15 and 16 Non-clerical staff to be employed either as peon-cum-durwan during office hours or as durwan-cum-night guard for 24 hours.*

*Free Insurance Policies to be delivered to the staff in a running condition when they leave the institution.*

Struck off.

**Conclusion.**

The effect of this award will involve some extra expenditure to the bank and I would urge upon the employees to justify this extra cost by better out put of work and conscientious discharge of duties. The Management of the Hooghly Bank, Ltd., has all along shown reasonable consideration to all demands of the employees. I have noticed that there was no bitterness between the Management and the employees over the disputes that I have had to adjudicate on in this case. I trust the employees of the bank will see that they make their institution firmer and stronger than before so that it may award to them greater advantages from its resources.

## ANNEXURE.

FORE SRIJUT P. R. MUKHERJI, *Tribunal, Industrial Disputes.*

**the matter of a dispute between Messrs. Mohammad Jahangir Alam Cotawala, 7, Balai Dutt Street, Calcutta, and their employees represented by the General Secretary, Bengal Mariners' Union, 27B, Circular Garden Reach Road, Kidderpore, Calcutta.**

By order No. 200Lab., dated Calcutta, the 26th uary 1948, the above dispute was referred to for adjudication under provision of sections 7 l 10 of the Industrial Disputes Act, 1947.

### History and nature of the dispute.

Md. Jahangir Alam Gotawala is one of the nerous boating companies that operate on the ghly river. Their main job is to handle go from the various ships that come to the cutta docks and jetties. Most of these com-ies are organised in an Association called the cutta River Transport Association. The above npany, however, is not a member of this Asso-tion and does not abide by the decisions and ciples of the Calcutta River Transport Asso-tion. In February 1947, an agreement between members of the Bengal Mariners' Union and Calcutta River Transport Association was ived at by which a settlement was reached for time being of the outstanding issues of dis-e. However, this particular Company, not ng a member of that Association, did not abide that agreement and from that date the Union e been trying to get the grievances redressed. May 1947, a letter was addressed to the Com-y and another letter to the Labour Commis-ner regarding the grievances of the workers of s Company. Since then considerable corres-ndences passed between the Union and the bour Commissioner as well as the Company to no effect. Certain conferences were anged by the office of the Labour Commis-ner to settle the points of dispute on several asions but the attitude of the Company had n most uncompromising and finally the dispute referred to the present Tribunal.

*For the Union*: Sri Dwijendra Lal Sen Gupta, Pleader.

*For the Company*: Sri S. C. Sen and Sri M. Das Gupta.

The following issues were framed: —

1. What, if any, should be the basic pay and dearness allowance?

2. What, if any, should be the rules of Provident Fund, Pension and Gratuity?

3. What kind of leave should be allowed if at all and for what period?

4. Can the workers claim bonus? If so, the amount thereof?

5. Can the workers get extra allowance for special kind of work, *i.e.*, living on boats?

6. What should be the rules of recruitment? Will contract system of payment through manjhees discontinue?

7. Are the dismissals of 2 manjhees of boat Nos. 20 and 21 justifiable? If not, can they be reinstated?

### Basic pay and dearness allowance.

The Company engages manjhees and dandees for plying boats and the practice was to fix a lump sum per month for the manjhees of each boat for the entire complement of her crews and the rate of each boat was fixed on the basis of the size of the boat requiring the number of crews to be employed under the license.

The wages rate per boat was increased from time to time and in December 1946, the rate was as follows:—

(*a*) Boat employing 6 dandees—Rs. 180.

(*b*) Boat employing 5 dandees—Rs. 160.

(*c*) Boat employing 4 dandees—Rs. 145.

(*d*) Boat employing 3 dandees—Rs. 130.

At present the Company is paying Rs. 270, Rs. 250, Rs. 210 and Rs. 170 for boats employing 6, 5, 4 and 3 dandees respectively. Company does not pay any dearness allowance separately.

The demand of the Union is that the total minimum to be given to a dandee should not be less than Rs. 90 of which Rs. 45 should be given as basic wage and Rs. 15 as dearness allowance.

Regarding the manjhees, the Union suggested that they should be placed in the category of skilled workers and they relied on the recommendation of the Pay Commission which has fixed a scale of Rs. 55—130. The Union demanded, however, scale of Rs. 60 to Rs. 120 with increments of Rs. 5 per annum.

Dearness allowance claimed for these workers was Rs. 35. This is based on the cost of living index of 340.

Regarding the demand of the workers, it is urged by Mr. Sen on behalf of the Company that the matter had been previously settled and that the rates of manjhees and dandees were revised according to the rates adopted by the Calcutta River Transport Association. It is significant that the workers of this Company who are represented by the Bengal Mariners' Union pressed for their demands before the Company through their Union and insisted that the increases in basic pay and dearness allowance should be at the rate fixed by the Calcutta River Transport Association (*vide* the letter of the Bengal Mariners' Union, dated 14th May 1947).

The matter went also to the Labour Commissioner who also recommended to the Company that the rates of wages for manjhees and dandees be revised

to the level of the rates recommended by the Calcutta River Transport Association. It is thus clear that both the Calcutta River Transport Association and the Bengal Mariner's Union which represent the workers had a fixed scale of basic wage and dearness allowance which is followed by the companies plying boats in the Hooghly river. This rate is also the accepted rate of the Bengal Mariners' Union. The Company, however, is not paying any dearness allowance. There is no reason why dearness allowance should not be paid. The letter of the Labour Commissioner shows that the rate of wages recommended by the Calcutta River Transport Association is Rs. 50 for manjhees and Rs. 44 for dandees. Regarding dearness allowance, the present index is little over 300 but as the price of things are gradually coming down, I take the living index to be 280 and allow dearness allowance for all at the rate of Rs. 30 per month over and above the basic pay.

The Union is demanding basic pay on the recommendation of the Pay Commission but, in my opinion, the matter as it stood in July 1947, when the Union was quite willing to accept the scale of the Calcutta River Transport Association and was insisting and giving pressure upon the Company to accept the terms on the basis of rates recommended by the Calcutta River Transport Association should be adhered to. I do not understand why they should not stick to that and claim more, simply because the Pay Commission has recommended higher rates of wages. It is to be remembered that the recommendations of the Pay Commission are meant for Government officers and that some of the Provincial Governments have not yet been able to implement the terms of the Pay Commission. It is also inequitable to allow the workers singing a different tune when they come before a Tribunal. The prevailing idea is that the Tribunal will give its award on the basis of the Pay Commission irrespective of the equitable considerations that the Union were all along willing to abide at lesser rates of pay. In my opinion, therefore, the rates of wages fixed by the Calcutta River Transport Association, *i.e.*, Rs. 50 for manjhees and Rs. 44 for dandees as basic monthly wages be fixed and the Company is to pay accordingly. Over and above this, the Company is to pay dearness allowance at the rate of Rs. 30 per month to the manjhees and the dandees. The Company will have to pay at this rate with effect from January 1947.

**Provident Fund, Pension and Gratuity.**

This is a small Company and I do not see any reason why this should be introduced here, especially when there was no demand made on these heads and practically there was no dispute existing before the case came to this Tribunal on these heads.

**Leave, Bonus and Extra allowance.**

These also should be disallowed as there was previously no demand and no dispute on these points and as such these are new points urged before the Tribunal and the Tribunal must presume that there was no and is no industrial dispute regarding these heads and as such the Tribunal is not competent to give any award on this score.

**Rules of Recruitment.**

It is urged that at present the manjhees recruit the dandees, and there is no privity of contract between the Company and the dandees. It was urged that this system involves corruption and should be discouraged. I am told that this is a long-standing practice which has almost acquired the sanctity of a custom and this is also the usual trad practice. To alter this course of events may resul in dislocation of trade and also disturb industria peace. The existing system of recruitment o dandees by manjhees should prevail.

**Dismissal of manjhees of boat Nos. 20 and 21.**

One Md. Suleman is the manjhee in boat No. 2 and Md. Safi is the manjhee of boat No. 21. Bot these manjhees had been dismissed. Regardin Suleman, the claim of the Company is that he wa dismissed on 15th September 1947 for misconduc as he was not found on the boat. There is no satis factory explanation by the Company to show tha he was not found on the boat as alleged. Eve assuming that he was not found on the boat, h ought to have been asked to explain his absence an could have been more leniently dealt with rathe than being dealt with a drastic order of dismissal The matter had also gone before the Labour Com missioner who had also been pleased to orde reinstatement of this manjhee I make orde that this manjhee should be forthwith reinstate with effect from the date of his discharge, *i.e.*, fron 15th September 1947.

Md. Safi, the manjhee in boat No. 21, was dis charged on 1st February 1948 and it is alleged tha the boat is lying unseaworthy or in technical language it is laid up. The Company urges that th boat was laid up from January 1947 and that he has all along been paid till January 1948 and has been dismissed on 1st February 1948. The Com pany urges that the boat has not yet been repaired The Union urges on the contrary that the Company has been deliberately neglecting to repair the boat Whatever may be the reason, the fact is that the boat is not available for service. I however make the order that as soon as the boat is fit for working and start plying this manjhee should be reinstated at the scale of pay and dearness allowance already fixed. In the meantime the Company should give him a compensation of Rs. 80.

The terms of this award are to come into force at once and will remain in force for one year from this date.

**In the matter of an industrial dispute between Bengal Enamel Works, Ltd., Palta, 24-Parganas versus its employees as represented by Bengal Enamel Works Mazdoor Union, Palta, 24-Parganas, in connection with the case of Kaliratan Ukil.**

PRESENT: S. K. SEN, Esq., I.C.S., *Tribunal, Industrial Disputes.*

### Award.

By Government of West Bengal order No. 302-Lab., dated 5th February 1948, this dispute between the Bengal Enamel Works, Ltd., Palta, 24-Parganas, and its employees as represented by the Bengal Enamel Works Mazdoor Union in connection with the case of Kaliratan Ukil was referred to me for adjudication.

Kaliratan Ukil had been a workman of the Bengal Enamel Works, Ltd., from its very inception, *i.e.*, for a period of about 20 years. He was dismissed by the Company from the afternoon of 11th October 1947. The Mazdoor Union regarded the dismissal of Kaliratan as a case of retrenchment of an active Union worker in contravention of an undertaking given by the Management of the Company on the occasion of the settlement of a strike in the factory of the Company which lasted for two months from November 1946 to January 1947 and the Union moved the Government in connection with such dismissal. As the matter could not be amicably settled, the case was referred to me for adjudication.

After hearing both parties, the following issues were framed:—

(1) Does the dismissal of the employee Kaliratan Ukil amount to an unfair labour practice?

(2) Is the dismissed employee entitled to reinstatement?

### DECISION.

#### Issues 1 and 2.

From the written statement filed by the Union, it appears that the Bengal Enamel Works Mazdoor Union was registered in August 1946. According to the Union, the Management victimised the workers for the formation of the Mazdoor Union by discharging 23 workers including the Vice-President, the Secretary and the Assistant Secretary of the Union shortly after the registration of the Union and therefore the workers went on strike in November 1946 and the strike lasted for two months and when there was settlement at the instance of the Labour Commissioner, the Management took back five of the 23 discharged workers and agreed that if further retrenchment was necessary for lack of steel sheets, the Management would consult the Labour Commissioner before retrenchment. The Union's case is that Kaliratan Ukil was the only Union leader left in the service of the Company after the discharge of the 23 workers in 1946 and Kaliratan had also taken a prominent part in organising the strike, and therefore the Management victimised him by retrenching him. Now, as to Kaliratan having taken an active part in the formation of the Union, no evidence has been adduced by the Union. There is only the statement of Sri Nihar Ranjan Vedaratna, President of the Union, that Kaliratan was elected as the Treasurer of the Mazdoor Union when it was formed. Even accepting that statement to be true, there is nothing to show that because of this connection with the Mazdoor Union Committee, Kaliratan was victimised by the Management. Admittedly he was not selected for retrenchment when 23 men including the Vice-President, the Secretary and the Assistant Secretary were discharged between August and November 1946. There is nothing also to show that Kaliratan took an active part in organising the strike in November 1946. If he had taken an active part in organising the strike, it is hardly likely that the Management would have waited till November 1947, *i.e.*, one year after the strike to get rid of him.

The Management, on the other hand, has adduced evidence to show that Kaliratan was dismissed legally under the terms of the Standing Orders of the Company for absence from work without leave. The evidence of Sri Ramesh Chandra Ghosh, Secretary of the Bengal Enamel Works, Ltd., is that Kaliratan Ukil was absent from work from after the mid-day recess of 11th October 1947 and the application for leave (Exhibit A) from him was received by the Time-keeper on 19th October 1947, and thus Kaliratan was absent without obtaining leave from the mid-day recess of 11th October 1947 until 19th October 1947 even without applying for leave, though he had written two post-cards in the meantime to his departmental head and to the Manager of the Company. Both the post-cards, Exhibits B and B(1), were written on 14th October 1947 from Calcutta. Therein Kaliratan said that he had a quarrel in the household arising out of his domestic wants, and therefore he had left his house on Sunday and come to Calcutta for earning some money by working as a palmist and calling upon his clients in Calcutta and other places, and that he expected to return by Thursday evening. In the application, Exhibit A, dated 19th October 1947, Kaliratan says that he returned on Thursday, 16th October 1947, at 11 p.m., but he fell ill (fever) and could not, therefore, apply in time. He further admitted that he was in fault, but he wanted to be excused as it was a case of first offence. The endorsement of the Medical Officer of the Company, Exhibit A(1) shows that Kaliratan had only intestinal colic and not fever. Moreover the explanation given for not attending the workshop in the afternoon of 11th October 1947 does not appear to be satisfactory. He says in the application that owing to slight indisposition he was a few minutes late and therefore he did not consider it desirable to go to work that afternoon. Sri Nihar Ranjan Vedaratna appearing for the Union has not admitted the genuineness of the application and the two post-cards but they have been formally proved by Sri Ramesh Chandra Ghosh, Secretary of the Bengal Enamel Works. Kaliratan has not appeared in the case and there is no material for holding the application and the letters as anything but genuine. Sri Nihar Ranjan Vedaratna has referred to some facts appearing in the file of the Labour Commissioner in the case, namely, that on 29th November 1947 a letter was received from Kaliratan by the Labour Commissioner in which Kaliratan said that he had not authorised the Union to represent his case before the Labour Commissioner, but subsequently in December 1947 Kaliratan appeared before the Labour Commissioner with Nehar Ranjan Vedaratna and denied having written any letter questioning the authority of the Union. From this Nehar Ranjan Vedaratna urged that it is quite conceivable that the Management has fabricated the application (Exhibit A) and the letters (Exhibits B and B1). It is however possible that Kaliratan actually wrote the letter of 29th November 1947 to the Labour Commissioner seeking to repudiate the authority of the Union to negotiate about his case, but subsequently he thought better of it. Thus I have no material to find that the application, Exhibit A, and the post-cards, Exhibits B and B1, are not genuine.

On the basis of the application and the two post-cards I must hold that Kaliratan was at fault, for he displayed a callous negligence in respect of his duty of attending to his work regularly, and of obtaining leave of absence beforehand, when it was necessary for him to be absent. It is difficult to understand his conduct in not seeing the Management in the morning of 17th October 1947, for intestinal colic could hardly have confined him to bed altogether. From the evidence of Sri Ramesh Chandra Ghosh, it appears that shortly before this incident, Kaliratan was absent from duty without leave on another occasion. Kaliratan took leave of absence for 9th September 1947 on the ground that he had to attend Alipore Court as a witness on that day, but he was absent from duty without leave on 10th September 1947 also and on 11th September 1947 he applied for leave for 10th September 1947 stating that he could not come to work on that date because of domestic difficulty. He was granted such leave by the Managing Director but was warned on that occasion. Thus when absence without prior application for leave was repeated by Kaliratan in November 1947, the Management was justified in dismissing him, and it cannot be said that the dismissal was due to the fact that Kaliratan had been connected with the Mazdoor Union as the Treasurer or that he had taken an active part in organising the strike of November 1946. It was not a case of retrenchment, and therefore there was no breach of the undertaking given by the Management that the Management would consult the Labour Commissioner before any case of retrenchment.

I, therefore, find that the dismissal of Kaliratan did not amount to any unfair labour practice and therefore this Tribunal cannot order reinstatement of Kaliratan Ukil.

I accordingly make the award that the claim of the Bengal Enamel Works Mazdoor Union for the reinstatement of the dismissed employee Kaliratan Ukil be dismissed.

The award made by the said Sri P. R. Mukherji, Additional District Judge, shall bind the Company aforesaid and its workmen as specified therein.

## ANNEXURE.

BEFORE SRI P. R. MUKHERJI, *Judge, Industrial Tribunal, Calcutta.*

**In the matter of an industrial dispute between Messrs. India Industrial Works of 55/1, Dharamtola Road, Salkia, Howrah, and its workmen as represented by India Industrial Workers' Union of 3/1, Kali Banerji Lane, Howrah.**

### Award.

This dispute was originally referred to Sri Sailesh Chandra Chakravarty. Subsequently his services not being available, the dispute has been referred to me for adjudication as per Government of West Bengal, Department of Commerce, Labour and Industries (Labour), order No. 189-Lab., dated the 22nd January 1948.

The Company was represented by Sri G. D. Kar, Bar.-at-law, instructed by Sri M. L. Zhunzhunwala.

The Workers' Union was represented by Sri Prasanta Ghose, Pleader; Sri Shibnath Banerjee, M.L.A.

On the statements submitted by the parties, the following issues were framed:

1. Is the close down of the factory justifiable? Can the Company be asked to open the factory? If so, what should be the terms and conditions?

2. What should be the minimum basic wages and dearness allowance?

3. Whether grade system should be introduced? If so, on what basis?

4. What should be –
   (*i*) Provident Fund, Bonus, and Gratuity and amount thereof?
   (*ii*) Holidays?
   (*iii*) Free medical treatment?
   (*iv*) Cheap canteen and waiting room?
   (*v*) Security of service?
   (*vi*) Arrangement for playground and entertainment?
   (*vii*) House allowance?
   (*viii*) Arrangement for free education?
   (*ix*) Leave rules?

5. Should the Union be recognised by the Company?

### Issue No. 5.

Regarding recognition of the Union by the Company, Mr. Kar conceded that they would not contest representative character of the Union. I hold, therefore, that this Union is entitled to represent the workers.

### Issue No. 1.

Admittedly, the factory had been closed down from the 4th December 1947 before the case had been referred to the Tribunal. It is to be seen if this close down was malicious, intended to starve the employees into submission for their Union activities.

Before I proceed to deal with the matter, it is better to state the facts as narrated by the parties.

According to the Union, the workers of the factory had organised themselves by the middle of 1946 and started the Union styled India Industrial Iron Works Labour Union. But no sooner the Management scented the existence of the Union, they threw out a large number of workers, whomsoever they thought were leaders of the Union and

discharged them on the plea that they were surplus hands. The plea that the discharged workers were surplus hands was a false one as new recruits were brought in to fill up the places of discharged workers. Things went on in this way and the Union was unable to launch any collective effort. But after one year, the workers regained control over themselves and reorganised their Union, this time as a branch of Iron Factory Wokers' Union, and the first demand they placed before the Management was *Puja Bonus* through their representatives. At this Mr. Shroff, Managing Director of the Company, who never had any inkling regarding the workers' reorganisation, became white hot and at once discharged the representatives who had met him. All the workers consequently at once downed their tools and stayed in. But the situation was saved for the time being by conceding a meagre bonus and reinstating the workers that very day. Henceforward the constant attempt of the Management was to disintegrate the Union by persuasion, persecution and insinuation by turn but without effect. Then they engaged two powerful machines, Hari Singh and Kanjilal, in human form. These two personages were executive heads in the first Union of 1946 but afterwards severed all connections with the Union and as a prize the former got a substantial increment and the latter was promoted from a worker to one of staffs' grade. According to the Union, these two persons were trying to create division amongst workers but without success. Foiled in their attempt to disrupt the Union, the Company gave notice of closedown on 4th December 1947 and according to the Union, this closedown was malicious and not *bona fide* and intended to punish the workers for their Union activities.

There is another story given by the Union. The factory was originally a rolling mill. It was only in the later part of 1945, that the project of lantern manufacturing was taken up. At first it started with fifteen presses and gradually the number was increased and by the middle of 1947 there were 37 presses. First finish goods were produced in the middle of 1946.

The factory was provided with only one set of dies, whereas other lantern factories are provided with three sets of dies for each size of lantern manufactured. These dies are very vital in the process of manufacture and it is only natural that established manufacturers keep dies in duplicate or triplicate to meet emergency. But in the case of this particular Company, the Management indulged in producing dies, a long-drawn process, for a new project rather than have a duplicate set ready in case of emergency.

They started with Dietz Junior size lanterns, but within a year they started manufacturing table-lamps side by side with the former project. Before long a project of manufacturing a still smaller size lantern was taken up. New projects taken one after another kept the machine room so busy that even when any of the only set of dies required repairing, it could not be undertaken. Dies of the former project were being constantly used from the very beginning; and these tools became useless due to wear and tear by the middle of 1947 in spite of the fact that a number of them were replaced in the meantime.

According to the Company, the closedown of the factory is attributed to the following facts:—

The Company was incorporated on 17th day of January 1942, and started installation of the present lantern manufacturing plant in or about August 1945; but the actual production of the various parts for production of lanterns started in or about January 1946. The Company was at that time in a nascent stage and was employing 127 factory workers and only its press section was working. The Company started production of finished lanterns in the beginning of April 1946. Thereafter, the number of workers was increased as the demand for the Company's products increased and the production also steadily grew.

In the month of March 1947, the production of finished lanterns declined inasmuch as it came down from an average of about 28,000 in the previous months to about 20,000.

In July 1947, the production of the finished lanterns further declined from an average of 20,000 in the previous four months to 8,000 and continued to decline on the following months, though the number of workers employed in these months by the factory was almost the same. As such the Management of the Company gave a notice on 30th September 1947 intimating the workers the fact of declining production and requesting them to co-operate with the Management in keeping the production normal, as the same was in the interest of the workers and the Management.

In spite of the best endeavours of the Management, the conditions of production did not improve and the Company in the beginning of December 1947 tried to contact representatives of various Unions concerned for improving the work of the factory and called a meeting of the representatives of the various Unions on the 3rd December 1947. At the said meeting on 3rd December 1947, the representatives of the workers did not turn up and as such nothing could be done by the Company. In view of the above facts and the decline in production and the consequential losses of the Company, it had no other alternative than to close down the factory with effect from 4th December 1947. The Company denies that the closedown was a malicious one. As regards the allegation of the workers that it is a partially running factory, the Company denies the charge and alleges that only a few temporary workers are employed on daily wages for the purpose of oiling and cleaning machines, workshops and for keeping the products from getting rusty and rectifying defects. The Company further submits that the cost of production of lanterns is much higher than what had been taken into account by the Indian Tariff Board.

On reading the statements of the Union as also of the Company, it is clear that the production has steadily fallen. The Union attributes the cause to the want of keen business sense of the Company and accuses them for not keeping duplicate or triplicate sets of dies. It is also said that new experiments had been made by this Company with the same old dies as old as the Company itself.

The Company, on the other hand, lays the guilt to the door of the workers and attributes the loss of production to the go-slow tactics of the workers.

Whatever that may be, it is not for the Tribunal to pronounce any verdict regarding respective liabilities of the parties or find real reason for the loss of production and consequent financial loss of the Company. Mr. Kar pointed out to me two things —the estimated costs of production as per report of the Indian Tariff Board have gone high up now and the chart supplied by the Company clearly shows that the costs of production in this Company are 10 or 12 times the estimated cost of the Tariff Board, while production has gone down to one-fourth or one-fifth of that estimated by the Tariff Board. Facts stand supreme that costs of production have gone up by leaps and bounds while the amount of production has been also low. The Company has also submitted facts and figures—genuineness of which cannot be challenged—which show that the Company has incurred debts for which *tagids* have been made and pressure brought on the Company to make up the payment. The audited account shows that the loss during the year as it

stood on the 30th September 1947, is Rs. 1,65,545-8-9. Mr. Banerjee, M.L.A., on behalf of the Union, pointed out that this was a cooked account. In the absence of better materials or inherent inconsistence in the audited account, it is idle to dismiss this account as faked.

It is also pointed out to me that the cost of production in a sister lantern manufacturing firm is 8 annas and 5 pies per lantern, whereas in this Company, the cost of production is more than double per each lantern.

It is no doubt a mystery and a fact not explained to me how the cost of production and the amount of production as found by the India Tariff Board in this Company could have been otherwise. There must be some deep-seated reason for the same—it may be overworking of the dies or want of good materials or tools or it may be due to lack of sound business tactics. It may also be due to the go-slow tactics of the workers. The Company also urged that the labourers tampered with the machines. This charge was not proved and I must hold it baseless. Whatever that may be, I am satisfied beyond doubt that the Company is running at a loss and it would be simply absurd to ask the Company to keep the factory going on by employing all the workers over again. The financial position of the Company is such that until the Management decides to reorganise the present industry with an efficient footing by taking some further risks, it would have no other alternative than to go into voluntary liquidation.

The charge brought against the Company by the Union that there has been partial lock-out has not been substantiated and I hold the charge as baseless.

I, therefore, hold that the close down of the factory was not malicious and that it can be justified under the circumstances. The Company cannot, therefore, be asked to reopen the factory.

It is pointed out to me that this Company has no intention of closing down its doors but as a matter of fact it is going on with some chosen workers. It is also pointed out that in the All-India Exhibition this Company has opened a stall for exhibition of their lanterns. It is argued that no Company who has decided to take the final step for closing down the factory permanently, would go to the length of opening a stall for advertising the product. It is no doubt a hopeful sign that the Company has an idea of reorganising the factory. I also believe that the Company is entertaining the idea of reorganising the factory on a better footing and I want to make it clear that in case the factory is reorganised and remodelled, the Company should first take back the discharged workers who were once their employees. By taking these old workers who already had an experience in lantern manufacturing, the Company would also be benefited. I also want to make it clear that the Company should take back the old workers according to the length of their services—the oldest workers being first taken in accordance to the age of their services and experience. This direction should be binding on the Company when they make new recruits for the organised factory.

Regarding discharged workers, they can reasonably claim some compensation for involuntary unemployment, in these hard days. I direct the Company to pay wages to workers from the date of closing down of factory till end of January 1948.

In view of this order of payment of wages till January 1948, no further or separate order for compensation is necessary.

**Issue Nos. 2-4.**

Regarding basic wages, dearness allowance and other conditions of service urged by the Union, it is pointed out to me that during the period previous to the case being referred to the Tribunal, there was no grievance of the workers on these points. Neither in 1946 when the Union sent its demands to the Company, nor before the Labour Commissioner these demands had been made. It was argued by Mr. Kar that there was no dispute on these points existing at the time or before the time when the case had been referred to the Tribunal and as such the Tribunal had got no jurisdiction to entertain these new points. It is no doubt a very nice point of law though debatable. I had had experience in coming over several cases in which the Union made fresh and entirely new demands which were never before thought of in the earlier stage of the dispute. There is, however, a prevailing idea that any relief can be claimed in the Tribunal and that it is not necessary to stick always to the first demands or earlier demands and there is no harm in making an entirely new catalogue of grievances and big demands which were never thought of in the early or any stage of the dispute. This *volte face* should be discouraged as it hampers industrial peace and progress.

There is yet another and stronger ground on which the new catalogue of demands should not be entertained. In view of my decision that the Company was justified in closing down the factory, it is useless to make award on these heads regarding conditions of service, basic pay, dearness allowance, etc., in anticipation of the fact that the Company would reorganise the factory in some distant future. A hypothetical and conditional award will be infructuous from the very nature of the case as the award on these points will have to be made on double assumptions and its - if the factory reopens and starts again and if the old and identical workers who represented the present Union choose to join the Company at that time. It may be that the majority of the workers who represent the Union for the present and make the demands may not be willing to wait for the indefinite and uncertain date of the reopening of the factory, and the coming batch of workers may not think the conditions of service unsatisfactory in this factory. In this view, these issues do not call for any adjudication now.

As there has been no adjudication on the point of basic pay, dearness allowance, etc., it is not necessary to make any order regarding the period during which the award will have force.

The only order made by the Tribunal is one of compensation to be paid to the workers and this portion of the award shall come into force at once.

**In the matter of an industrial dispute between Bungo Steel Furniture, Ltd., and their discharged workers.**

PRESENT: SRI S. K. SEN, I.C.S.

### Award.

By Government of West Bengal order No. 265-Lab., dated the 3rd February 1948, this dispute between Bungo Steel Furniture, Ltd., and 150 discharged workers represented by the Bungo Steel Shramik Sangha was referred to me for adjudication. The Company and the Shramik Sangha duly appeared before the Tribunal and filed written statements. The following issues were framed:—

(1) Does the discharge of the 150 workers or any of them amount to an unfair labour practice?

(2) Is any of the discharged workmen entitled to reinstatement?

## DECISION.

### Issue No. 1.

In the Government order No. 265Lab. of 3rd February 1948 referring the dispute for adjudication, the number of discharged workers is mentioned as 150 and the same number was repeated in framing this issue; but during the hearing, it transpired that the number of discharged workmen is 109. Exhibit C is the typed list, in four sheets, containing the names of 132 workmen, who were originally proposed to be discharged, but 23 names of this list are scored through, and the Secretary of the Company Sj. R. S. Rao has explained that these 23 men were retained on reconsideration, so that the number of men actually discharged came to 109. The question for decision is whether the discharge of any of these men amounts to unfair labour practice. In the Government order No. 265-Lab. of 3rd February 1948, it is mentioned that these workers were discharged during the pendency of the dispute relating to the Company in the Tribunal constituted under the Government order No. 716Lab., dated 31st October 1947. The Tribunal constituted under the Government order No. 716-Lab, dated the 31st October 1947, is the General Engineering Tribunal and the Bungo Steel Furniture, Ltd., is one of the companies before that Tribunal. The discharge of the 109 workers of the Bungo Steel Furniture, Ltd., was made with effect from 1st November 1947. The evidence on the side of the Union is that when the workmen went for work on 1st November 1947, they found a list hung up with an order and thus they came to know that they were being discharged from that date. The evidence on the side of the Company is that the notice was hung up on 31st October 1947 (*vide* the evidence of O.P.W. 4 Anupada Mondal), though in the written statement of the Company, it was mentioned that the notice was hung up on 30th October 1947. Since the workmen generally saw the notice on 1st November 1947 when they came to work, it would appear that the notice was actually hung up after the close of the work on 31st October 1947. The order referring the general dispute between the Engineering Firms and their workmen was passed on 31st October 1947. It is, therefore, difficult to hold that the discharge was made by Messrs. Bungo Steel Furniture, Ltd., during the pendency of the dispute relating to the Company before the General Tribunal. Even if the order of discharge was hung up after the Government order No. 716Lab. appointing the General Tribunal had been passed, the General Tribunal had not yet taken up the case when the order of discharge was made; and from that point of view, I cannot hold that there was any contravention of section 33 of the Industrial Disputes Act. Apart from the time of discharge, I do not think that the discharge or retrenchment of staff on account of shortage of materials, falls within the mischief of section 33 of the Industrial Disputes Act.

I hold, therefore, that there was no contravention of section 33 of the Industrial Disputes Act by the management in the present case. Apart from contravention of section 33 of the Act, it is contended by the Union that there was unfair labour practice by the management, because they selected for retrenchment, the workmen, who had formed the Bungo Steel Shramik Sangha. Section 28K of the amended Trade Union Act defines unfair labour practice; and discharging workmen because of their forming a new trade union would certainly amount to unfair labour practice. The question is whether the Union has proved that 109 workers, who were discharged with effect from 1st November 1947, were selected for discharge because of their having formed a new trade union, known as Bungo Steel Shramik Sangha. The Union has adduced evidence to show that on 18th October 1947 in the afternoon a meeting of 30/35 workmen of the Company was held in the compound of Barisha High School under the chairmanship of Durgapada Nath, a workman of the Company, to form a Shramik Sangha, and that about 150 workmen joined the new trade union and that these men were selected for retrenchment and were discharged with effect from 1st November 1947. It appears, however, that the Shramik Sangha was registered under the Trade Union Act only in March 1948, *i.e.*, not only long after the discharge of the 109 workmen, but even after the order of the West Bengal Government passed on 3rd February 1948 referring the dispute to this Tribunal. The contention of the Company is that the Shramik Sangha was organised by the discharged workmen after the discharge. The Company has challenged the evidence on the side of the Union that a meeting was held on 18th October 1947 to organise the Shramik Sangha. The Company has adduced evidence to show that from 1944 there was a union of the workmen employed by the Company known as Bungo Steel Employees' Union. This Union was registered in 1944. O.P.W. 2 Ahindra Lal Pal, a clerk of the Company, is the Secretary of that Union and he has deposed on the side of the Company. The contention of the Shramik Sangha is that the Employees' Union is a dalal union or a pocket union run by the management; and that, therefore, an independent union, viz., Shramik Sangha, was being organised, but the management could not stand this and selected the members and organisers of the Shramik

Sangha for discharge. Now it appears from both sides' evidence that the management was contemplating retrenchment from long before 1st November 1947 because of the steady fall in the quota of steel sheets received by the Company. It appears from the evidence of O.P.W 1 Sj. R. S. Rao, Secretary of the Company, that for the first quarter of 1947 the quota received was 300 tons of steel, but that the quotas received for the second, third, and fourth quarters were respectively 188, 150 and 58 tons only. Sj. Rao says that about the middle of February 1947 when the second quarter's quota was communicated, the question of retrenchment was discussed in the Karigar Committee, consisting of Head Mistries of 19 departments, and at the request of the Karigar Committee, it was decided that retrenchment should be postponed and improvement in the quota position awaited. Sj. Rao also says that when the third quarter's quota was communicated in May 1947, the matter was again discussed by the Karigar Committee and again at the request of the Karigar Committee, the management agreed to postpone retrenchment. When the fourth quarter's meagre allotment came to be known, about the middle of September 1947, the matter was again placed before the Karigar Committee and the management insisted on retrenchment and the Karigar Committee then admitted that retrenchment would have to be made, but induced the management to postpone retrenchment till after the Pujas. Sj. Rao also says that the list of men to be retrenched was also prepared by the Karigar Committee and that it is not true that anybody was selected for retrenchment because of his connection with the new Trade Union known as the Shramik Sangha. O.P.W 1 Sj. Rao was fully corroborated by O.P.W 2 Ahindra Pal, the Secretary of the Employees' Union and O.P.W. 4 Shibnath Matilal, one of the Head Mistries of the Company and a member of the Karigar Committee. It appears from O.P.W. 4's evidence that when the quota for the fourth quarter of 1947 came to be known, the management wanted to reduce the staff to half; but that the Karigar Committee represented to the management that it would be impossible to carry on the work of all the departments of the Company, if such a drastic retrenchment were made, and so the number of persons actually discharged was about one-fourth of the total number of workmen then in the service of the Company, and not one-half as desired by the management. On the side of the Union, the evidence of P.W. 3 Sri Sukumar Chakravorty, President of the Shramik Sangha and a worker of the I.N.T.U.C., shows that it was known to him from before that the Company would have to effect some retrenchment. The written statement of the Union shows that before the actual discharge of the workmen, the President Sri Sukumar Chakravorty went to see the Managing Director to discuss the policy of discharge, but that the Managing Director refused the co-operation of Sri Sukumar Chakravorty in that matter. P.W 3, in his evidence, also admitted that in his interview with the Managing Director, Ratneswar Ghosh, the Managing Director told him that retrenchment of some people was necessary. The evidence adduced on behalf of the Company regarding the progressive fall in the steel quota received has been supported by production of the quota certificates and I must accept that evidence. I, therefore, find that it was necessary for the Company to retrench many of the workmen. I also accept the evidence adduced on behalf of the Company that the management consulted the Karigar Committee. The existence of the Karigar Committee and the fact that the Committee meets regularly, are admitted by some witnesses examined for the Union, *e.g.*, P.W. 1 Sri Prokash Ch. Roy, who says that there is a Karigar Committee, consisting of 19 Head Mistries of the 19 departments and that the Committee was formed about a week after the Independence Day, *i.e.*, 15th August 1947. It is quite natural that as soon as the second quarter's quota was known to the management, the management should be anxious to retrench some workmen, but if the Karigar Committee was constituted a week after 15th August 1947, it is not possible that the Committee should have been consulted in February 1947 or even in May 1947. It would, therefore, appear that the Karigar Committee was first taken into confidence when the fourth quarter's quota became known *i.e.*, towards the end of September 1947, and it is also possible that at the request of the Karigar Committee retrenchment was deferred till after the Pujas.

The point that arises is whether the workmen to be retrenched were selected on merits by the Karigar Committee, or the workers were selected because of their having organised and joined an independent Trade Union known as the Shramik Sangha. The evidence of O.P.W. 1 Sj. Rao is that the formation of the Shramik Sangha was not known to him till 8th November 1947, when he received the letter (Exhibit A) signed by Sri Sukumar Chakravorty regarding formation of the Shramik Sangha. Exhibit A is dated 1st November 1947, but Sj. Chakravorty admitted that there might have been some delay in posting the letter. The evidence of Sj. Rao is that it was received on 8th November 1947, and in the written statement of the Company it is mentioned that the letter bore the post mark of 7th November 1947 showing that it was posted only on 7th November 1947. It is from this fact that the Company has urged that the Sangha was really formed after the discharge, and that the discharged workmen under the leadership of Sj. Chakravorty tried to make out that the Shramik Sangha was formed on 18th October 1947, *i.e.*, before the discharge. It is true that the late posting of the letter announcing the formation of the Bungo Steel Shramik Sangha leads to some suspicion. But the Union has produced a number of witnesses to prove that actually 30/35 men under the leadership of Durgapada Nath met in the Barisha School compound on 18th October 1947 in the afternoon and formed a Union known as Bungo Steel Shramik Sangha. P.W.2 Dr. J. K. Chatterjee, Medical Officer of a Charitable Dispensary at Sursoonah and Vice-President of Barisha High School Committee, has deposed that Durgapada Nath approached him with an application for permission to hold such a meeting on 18th October 1947, and he granted such permission, *vide* Exhibits 1 and 1(a). Dr. Chatterjee did not himself attend the meeting, but six witnesses, who claim to have attended the meeting, have deposed in the case for the Union. They are P.W. 4 Shibnath Matilal, and P.W. 5 Bishnupada Chatterjee who are men of that locality and P.W. 6 Durgapada Nath, P.W. 7 Abdul Samad, P.W. 8 Mahadeb Samanta and P.W. 9 Dilip Kumar Banerjee, discharged employees of the Company. In view of this evidence I must accept the fact that there was some meeting on 18th October 1947 in the Barisha School Compound at which a resolution was adopted to form a Union, known as Bungo Steel Shramik Sangha. But Sj. Sukumar Chakravorty did not attend the meeting, according to his own evidence. He says that he was informed that he had been elected President of the newly formed Trade Union, *viz.*, Shramik Sangha, and on behalf of the Sangha he went to see the management on 26th October 1947 and he actually saw the Secretary and the Managing Director on 26th October 1947. Sj. Rao, who has deposed for the Company as O.P.W. 1, has denied that Sj. Chakravorty saw him on 26th October 1947 which was a Sunday. O.P.W. 4 says that Sj. Chakravorty came to the office of the Company on one Sunday after the retrenchment had taken place and not before the retrenchment. If Sj. Chakravorty had really seen Sj. Rao and Sj. Ghosh on behalf of the Shramik Sangha on 26th October 1947 and informed them about the formation of the Shramik Sangha, it is not likely that he should have written the letter, Exhibit A on 1st November 1947, informing the Company of the form

of the Bungo Steel Shramik Sangha and offering co-operation. I must come to the conclusion, therefore, that even though a resolution might have been adopted on 18th October 1947 in the Barisha High School compound to form a Union, known as the Bungo Steel Shramik Sangha, the management had no communication about the formation of the new Union until after the discharge of 109 workmen. Sj. Chakravorty has referred to the management having some spies, from whom they got all the informations. But this evidence could hardly have been given from direct knowledge and it is not possible to act upon such a statement. Moreover only 30/35 workmen attended the meeting on 8th October 1947. The Union has produced a Membership Register, Exhibit 5, containing 159 names but there is no reliable evidence to show when this register was prepared. Sj. Chakravorty says in his evidence that he obtained the register recently and he did not know when it had been written up. Sj. Chakravorty further says that subscriptions were realised on 3rd November 1947 when the members received their pay. Durgapada Nath, who deposed as P.W. 6, no doubt, stated that he enrolled members by house to house visit within four or five days after 18th October 1947 and he wrote up the register (Exhibit 5) by 26th October 1947; but if he had written up the register by 26th October 1947, there is no reason why he made it over to the President of the Union, Sj. Chakravorty, only shortly before the actual hearing of the case. Even if it is conceded that by house to house visit Durgapada Nath enlisted some members and wrote their names down in the register, it is not likely that the management should have known the names inscribed in the register and it is, therefore, not at all possible that the management should have selected 132 persons, originally listed for discharge from out of the list of the members of the Shramik Sangha. In view of the circumstances, I must accept the evidence adduced on behalf of the Company that the list of men to be discharged, was made by the Karigar Committee or at least in consultation with the Karigar Committee, and that the list consisted of juniormost employees and those with a record of irregular attendance.

Accordingly I conclude that the 109 workers discharged with effect from 1st November 1947 were not discharged on account of their having organised or joined a new Trade Union known as Bungo Steel Shramik Sangha, but that they were discharged in pursuance of the policy of retrenchment, which was necessitated by the progressive fall in the steel quota received by the Company in the four quarters of 1947. Accordingly the discharge of any of the workmen does not amount to unfair labour practice.

**Issue No. 2.**

In view of the finding that the discharge of the workmen does not constitute an unfair labour practice, I hold that none of the discharged workmen is entitled to reinstatement.

My award, therefore, is that the claim of the Bungo Steel Shramik Sangha for the reinstatement of the men with effect from 1st November 1947 be rejected.

The award made by the said Sree N. C. Chakravarty, Additional District Judge, shall bind the Mill aforesaid and their workmen as specified therein and shall remain in force for a period of one year with effect from the date of this order.

## ANNEXURE.

### Award.

By Government order No. 372Lab., dated 10th February 1948, the industrial dispute between the Hastings Jute Mill, Rishra, Hooghly, and their workmen as represented by the Hastings Jute Mill Mazdoor Union, Cravan Road, Rishra, Hooghly, in connection with the working hours in the said Mill was referred to me as the Tribunal for adjudication under the Industrial Disputes Act, 1947.

2. The workmen were represented by the Hastings Jute Mill Mazdoor Union, while the Mill was represented by the Indian Jute Mills Association. The Union representative was absent on 27th March 1948, the second day of hearing, and the hearing was concluded *ex parte* under rule 15 of the rules framed under the Industrial Disputes Act, 1947.

3. The dispute under adjudication arose as a result of a breakdown of machinery on the 8th December 1947 involving two out of the three turbines of the Mill. As it appeared then that the repairs would take some time, the Management in order to keep the Mill running and the workers employed decided to re-arrange the hours of work so as to stagger the load on the single turbine still working. The Management, therefore, issued a notice on the 11th December 1947 proposing new hours of work as a temporary measure and until such time as repairs were completed. It is not necessary for our purpose to set out in details the proposed programme of work. It is enough just to say that the spread-over in some of the departments exceeded 10½ hours which has been fixed as the maximum under section 38 of the Factories Act as amended. Some of the workers refused to work at night unless special allowance was sanctioned. There was an attempt at settlement with the help of Shri B. K. Bhattacharjee, Assistant Labour Commissioner. The proposals considered during the negotiation appeared not to have finally been accepted by either side. The workers ignored

the new programme of work which was notified and refused to work in night-shift from 6-30 p.m. to 10-30 p.m. The turbines were repaired earlier than anticipated and the Management reverted to the previous programme of work. As a result of the refusal to work during the night-shift from 6-30 p.m. to 10-30 p.m. there was no work done for 13½ hours in the week ending 20th December 1947. The present dispute is over the claim of the workmen for wages for these 13½ hours of work lost both to them and to the Mill.

4. Issues settled were—

(1) Was there any illegal change?

(2) If so, are the workmen entitled to remuneration for the hours during which there was no work done?

5. I take up both the issues together. Mr Ginwala, Counsel appearing for the Indian Jute Mills Association, contended that this was a case of involuntary unemployment and that, in so far as this identical issue was before the Jute Textile Tribunal, it should not be prejudged. He insisted that, in the circumstances, hearing of this dispute should be adjourned till the main Tribunal (Jute Textile Tribunal) decided the issue. I find no force in Mr. Ginwala's contention that this is a case of involuntary unemployment. It appears to me that the contention is wholly against the written statement filed on behalf of the Mill. In the written statement, the position taken by the Mill was that the Management wanted to keep the workers employed and to avoid unemployment of about 4,500 workers. It is clear, therefore, that the Mill's case is that while it endeavoured to keep the workmen employed, the workmen themselves voluntarily did not work. Where the workmen do not voluntarily work, the action amounts to a strike and not involuntary unemployment by the employer. I shall, therefore, proceed on the footing that there was a partial strike by the workmen as a result of which there was no work done by them for 13½ hours in question.

6. Mr. Ginwala further contended that at best the workmen could bring this case within section 33 of the Industrial Disputes Act, 1947, on the ground that there was a change in the condition of service prejudicial to the workmen and without the permission of the Jute Textile Tribunal. Mr. Ginwala contended on this assumption that though a contravention of the provisions of section 33 of the Act was punishable, it was the Government and not the Tribunal which could take the necessary action. I am unable to agree with this contention too. Conditions of service within the meaning of section 33 of the Act are quite different from conditions of labour. Where hours of work are altered temporarily there is a change in the conditions of labour but one cannot say that there is a change in the conditions of service. Even a temporary change in the hours of work against a Statute will, however, be an illegal change. Such an illegal change is an industrial dispute which may be referred to a Tribunal for adjudication. Even conceding in the present case that there was a possible contravention of section 33 of the Act for which a prosecution may be directed, the dispute over a change of working hours is itself an industrial dispute capable of being adjudicated under the Industrial Disputes Act.

7. It was contended on behalf of the workmen that the change in the working hours was illegal in so far as the spread-over exceeded the maximum fixed under section 38 of the Factories Act as amended. Section 44(2) of the Factories Act authorises the Chief Inspector of Factories to grant exemption by a written order from the provisions of section 38 of the Act on the ground that the exemption is required to enable a factory to deal with an exceptional press of work. It appears from Exhibit A that the Chief Inspector of Factories, West Bengal, by an order in writing under section 44(2) of the Factories Act granted the exemption to the Mill on account of exceptional press of work arising out of a breakdown of two steam turbines. By this order, it was directed that the spread-over shall not exceed 12 hours for any worker. The order of the Chief Inspector of Factories in question is conclusive on the point. The change of working hours for the reason of the spread-over having exceeded 10½ hours as prescribed by section 38 of the Factories Act was not therefore, illegal. Issue No. 1 is thus found. I give my award accordingly.

8. The basic principle of all employment is that an employee has the right to receive payment only for the work done; and that if he voluntarily unemploys himself he has no right to receive pay. Ordinarily this principle should be adhered to unless sufficient reasons appear in favour of making a deviation in cases of industrial strikes. One such exception is clearly the case of industrial strikes provoked by an unfair labour practice by the employer. Nothing can be said to be unfair in labour practice which is in accordance with Statutory directions. Therefore, in extending the spread-over from 10½ hours to 12 hours with the exemption order in writing from the Chief Inspector of Factories, the Management adopted no unfair labour practice. It made, I am satisfied, a *bona fide* attempt at keeping the workmen employed. There was no force in the objection of the workmen not to work during the night-shift. To meet exceptional press of work arising out of circumstances beyond the control of the Management, the law has thrown upon the workmen the obligation to be employed under a longer spread-over which may extend even to night. The action of the Management, in the present case, should not reasonably have provoked the strike. The workmen assumed a right in the wrong way and thought, without just reason, that they were free to do no work during the night-shift. In refusing to work during the night-shift, the workmen voluntarily unemployed themselves. In so far as there was no provocation given by the Management by adopting an unfair labour practice, I find that no just grounds exist, in the present case, for deviation from ordinary rule that an employee is not entitled to pay for the period he voluntarily unemploys himself. I find issue No. 2 against the workmen. My award is that the workmen are not entitled to any remuneration for the 13½ hours in question during which there was no work done.

---

STATEMENT OF OBJECTS AND REASONS

1. The Provident Funds Act, 1925 (Act XIX of 1925), is not applicable to workers employed in factories or labourers in industrial establishments such as house-buildings, quarrying, docks and other such establishments. Under section 58B (1) of the Income Tax Act, 1922, the Commissioner of Income-tax may accord recognition to any provident fund which in his opinion, satisfies the condition prescribed in section 58C and the rules made thereunder. It will be evident that under section 58B (1) the first move to obtain recognition of provident fund, for employees in factories and in other industrial establishments, should be made by the employer. It is very rare that an employer would volunteer to establish a Contributory Provident Fund for his employees. The main object of this Bill is to make it compulsory for every employer of workers and labourers in the industrial concerns to establish provident fund for the betterment of such employees and their families. From the meagre pay they get, the employees are not in a position to lay by anything for themselves or their family for hay day. Establishment of provident fund will teach them frugality and the advantages of such a system will not meet with any objection or disapproval on their part as they would realise that the Bill aims at the good of their family and for themselves also.

2. The contribution by the employer will be an impetus for them to join the fund. The interests of the employers and the employees are generally found to be at variance. In order to establish mutual trust and confidence and to cement the differences between the employers and the employees, a measure like the one in this Bill would go a great way to promote mutual healthy relations between the capitalists and labourers. This Bill seeks to promote growth of spirit of confidence, and with co-ordination of employees, the employers would be able to yield better results. By creating such fund, the employers will attract to themselves a class of labourers which will be contented and in view of the provisions of the Bill, they would prefer to remain attached to a particular employer and there will be few occasions of strike in work.

**8. Substitution of new section for section 12, Bengal Act III of 1890.**—For section 12 of the said Act the following section shall be substituted, namely:—

"12. *Appointment and salary of Chief Executive Officer.*—The Trustees shall appoint a Chief Executive Officer as the head of Executive Administration whose salary shall not exceed Rs. 2,000 per mensem and who shall be the servant of the Trustees.

The Trustees shall at their first meeting, delegate such powers as they deem fit to the Chief Executive Officer."

**9. Amendment of section 40, Bengal Act III of 1890.**—After sub-section (3) of section 40 of the said Act the following shall be inserted, namely:—

"(4) All meetings of the Board shall be open to the Press except such meetings and such subjects which the Chairman feels should be held in camera and shall not be open to the Press:

Provided that the Committee meetings shall be held in camera."

## STATEMENT OF OBJECTS AND REASONS

The amendment of Calcutta Port Act is overdue and in view of the Dominion of India being attained, it becomes more necessary to amend the Act. The main object of this Bill is to amend its constitution, increase the number of elected Trustees and the Chairman to be elected by the Trustees instead of a salaried Chairman to be nominated by the Government. To replace the salaried Chairman, a provision has been made in the Bill to appoint a Chief Executive Officer whose salary shall be fixed by the Trustees.

At present the meetings of the Trustees are being held in camera, the last section provides that all meetings should be open to the Press and the Committee meeting should be held in camera.

It is also proposed that the term of the Trustees shall be three instead of two years at present.

### Conservation of Private Forests and Afforestation of Waste-lands.

**3.** (*1*) The Provincial Government may, by notification, direct that every owner of a private forest which is not a vested forest, but which is situated within such area as may be specified in the notification, shall prepare in the prescribed manner and submit within the period mentioned in the notification to the Regional Forest-officer a working plan for the conservation of such private forest.

(*2*) On the expiry of the period mentioned in the notification under sub-section (*1*), the Regional Forest-officer shall, after considering each working plan submitted to him under that sub-section, and after consultation in the manner prescribed with the Conservator of Forests of the forest circle within which such forest is situated, by an order in writing, accept the working plan or modify it in such manner as he may consider necessary or substitute another working plan for it.

(*3*) If any owner of such private forest does not submit a working plan within the period specified in the notification issued under sub-section (*1*), the Regional Forest-officer may, after consultation in the manner prescribed with the Conservator of Forests of the forest circle within which such forest is situated, prepare a working plan in respect of such forest.

(*4*) When the Regional Forest-officer by an order in writing modifies any working plan under sub-section (*2*) or substitutes another working plan under that sub-section for the working plan submitted under sub-section (*1*), he shall cause a copy of such order to be served in the prescribed manner upon the owner of such private forest to which such working plan relates and such owner may, within sixty days of the date of service of such order, appeal against such order to the Appellate Committee and the Appellate Committee may thereupon, after giving such owner an opportunity of being heard, by an order in writing, either accept the working plan with or without modifications or reject it and the decision of the Appellate Committee on every such appeal shall, subject to the provisions of sub-section (*5*), be final.

(*5*) The Board of Revenue may, on application by an owner of a private forest for revision of an order of the Appellate Committee passed in appeal under sub-section (*4*), and if such application is made within thirty days from the date of the order, call for the record of the appeal in which the order was passed and on receipt of such record, after giving such owner an opportunity of being heard, may, if it does not see fit to reject the application, direct the Appellate Committee by an order in writing to make such modifications in the working plan accepted by the said Committee under sub-section (*4*) as may be specified in such order in writing.

(*6*) The Board of Revenue shall, as soon as may be after an application for revision is disposed of under sub-section (*5*), communicate the order passed by it on such application to the Appellate Committee, and on receipt of such order the Appellate Committee shall, where the Board of Revenue has directed any modification to be made in such working plan, modify it accordingly.

Approved working plans.

**4.** (*1*) When the Appellate Committee accepts any working plan with or without modification under sub-section (*4*) of section 3, or modifies any working plan under sub-section (*6*) of the said section, or the Regional Forest-officer accepts, modifies or substitutes any working plan under the said section, or prepares any working plan under the said section, such Committee or officer shall by an order in writing approve such working plan or the working plan as so modified by the Committee or such officer, as the case may be, and every working plan so approved shall be

deemed for the purposes of this Act to be an approved working plan:

Provided that the Regional Forest-officer shall not so approve any working plan that he has modified or substituted by an order under sub-section (*2*) of section 3 if,—

(*a*) an appeal against the order has been made to the Appellate Committee; or

(*b*) where no such appeal has been made, the time within which such appeal may be made has not expired:

Provided further that the Appellate Committee shall not so approve any working plan accepted by it with or without modification by an order under sub-section (*4*) of section 3 if,—

(*a*) where an application for revision of the order has been made to the Board of Revenue, the order of the Board of Revenue on such application has not been received by such Committee; or

(*b*) where no such application for revision has been made, the time within which such application may be made has not expired.

(*2*) A copy of every approved working plan shall be sent in the prescribed manner by the Regional Forest-officer to the owner of the private forest to which it relates and the owner shall thereupon manage such forest in accordance with such plan and shall carry out all the terms and conditions thereof.

(*3*) At any time after five years from the date of approval of a working plan under sub-section (*1*), or with the previous sanction of the Provincial Government at any time within the said period of five years, a Regional Forest-officer may, after consultation in the manner prescribed with the Conservator of Forests of the forest circle within which the forest to which such working plan relates is situated, by an order in writing, modify the approved working plan in such manner as he considers necessary and the provisions of sub-sections (*4*), (*5*) and (*6*) of section 3 and sub-sections (*1*) and (*2*) of this section shall apply to every plan so modified:

Provided that nothing in this section shall prevent the owner after the expiry of the said period of five years from applying in writing to the Regional Forest-officer for the modification of the working plan in such manner as may be specified in the application and if the Regional Forest-officer, after giving the owner an opportunity of being heard, does not see fit after such consultation as aforesaid so to modify the working plan, he shall record an order to that effect and the owner may within thirty days from the date of such order appeal against such order to the Appellate Committee and an application for revision shall also lie to the Board of Revenue from any order passed by the Appellate Committee on such appeal if presented within thirty days from the date of such order and the decision of the Appellate Committee on such appeal shall, subject to such revision by the Board of Revenue, be final.

Prohibition of leases and extension of terms of existing leases of private forests after issue of notification under section 3 (*1*).

**5.** After the publication of a notification under sub-section (*1*) of section 3, no owner of a private forest in the notified area shall enter into any new lease or extend the term of any existing lease in respect of such forest until the working plan in respect of such forest has been approved under sub-section (*1*) of section 4 except with the previous sanction of the Provincial Government and, after such working plan has been so approved, except in accordance with the terms and conditions of such plan and any lease entered into or any extension of the term of any lease granted in contravention of the provisions of this section shall, notwithstanding anything contained in any other law for the time being in force, be void and have no effect.

Penalty for the violation of working plan.

**6.** (*1*) If after an approved working plan in respect of any private forest has been sent under sub-section (*2*) of section 4 to the owner of such forest, such owner fails or neglects to carry out any of the terms and conditions of such plan, he shall be punishable with fine which may extend to five hundred rupees:

*The West Bengal Private Forests Act, 1948.*

*(Chapter II.—Conservation of Private Forests and Afforestation of Waste-lands.—Sections 7, 8.)*

Provided that no prosecution shall be instituted under this sub-section unless the Regional Forest-officer has served in the prescribed manner a notice on such owner specifying the terms and conditions of the working plan which such owner has failed or neglected to carry out and requiring such owner to take such steps for carrying them out as are specified in the notice within thirty days from the date of service of such notice and unless such owner has failed to comply with such notice.

(*2*) If the owner of a private forest is convicted a second or subsequent time under sub-section (*1*) for the failure or neglect to carry out any of the terms and conditions of the working plan in respect of such forest, the Provincial Government may, by a notification, direct that the control of such forest shall be vested in such Regional Forest-officer for such period as may be specified in such notification:

Provided that no such notification shall be issued until such owner has been called upon by notice in writing by the Regional Forest-officer within sixty days of such conviction to show cause before the Appellate Committee within such time as may be specified in the notice as to why such notification should not be issued and until the Appellate Committee, after considering the cause, if any, shown by him and any evidence which he may produce in support thereof, has recommended to the Provincial Government that such notification should be issued.

(*3*) Nothing in sub-section (*1*) shall render any owner of any private forest liable to conviction for any deviation from any approved working plan if such deviation has been previously sanctioned by the Regional Forest-officer on application made by such owner in that behalf to such officer or by the Appellate Committee on an appeal from an order of the Regional Forest-officer refusing to sanction such deviation presented by the owner to such committee within thirty days from the date of such order.

Vesting of forest in a Regional Forest-officer.

**7.** Notwithstanding anything contained in sections 3 and 4 or in sub-section (*2*) of section 6, if the Provincial Government is satisfied that the conservation of any private forest in a notified area should not be left to the owner thereof, the Provincial Government may, by a notification specifying the reasons for so doing, direct that the control of such forest shall be vested in such Regional Forest-officer for such period as may be specified in the notification:

Provided that no such notification shall be issued until,—

(*a*) the Regional Forest-officer has, by notice in writing, called upon the owner of such forest to show cause before the Appellate Committee within such period as may be specified in such notice why the control of such forest should not be so vested, and

(*b*) the Appellate Committee after considering the cause, if any, shown by the owner and any evidence which the owner may produce in support of the same has recommended that such notification should be issued.

Forest loans.

**8.** (*1*) Subject to rules made under this Act, loans may be granted on the recommendation of the Appellate Committee by such officer as may be empowered in this behalf by the Provincial Government to any owner of a controlled forest or of a vested forest who, in the opinion of the Appellate Committee, is likely to suffer unduly owing to any temporary reduction of his income resulting from any action taken under section 4 or sub-section (*2*) of section 6 or section 7 or to any owner of a controlled forest to enable such owner to pay any compensation payable by him under sub-section (*6*) of section 10 or sub-section (*2*) of section 25.

(*2*) An application for such a loan shall be made in the prescribed manner to the Appellate Committee and shall state the following particulars, namely:—

(*a*) the amount of the loan required,

(*b*) the reasons for which it is necessary, and

(*c*) the period for which it is required.

(*3*) After considering in the prescribed manner the application made under sub-section (*2*) and any evidence that may be produced in support thereof, the Appellate Committee shall state in writing its opinion as to whether or not a loan should be given, and, if it recommends the grant of a loan, shall forward the application to the officer empowered under sub-section (*1*) with its opinion, stating the reasons for such recommendation and specifying the following particulars, namely:—

(*a*) the amount of the loan that should be granted and the rate of the interest that should be charged,

(*b*) the instalments in which the loan should be advanced, and

(*c*) the period after which and the instalments in which the loan should be repaid.

(*4*) Subject to rules made under this Act all loans granted under sub-section (*1*), all interests, if any, chargeable thereon and costs, if any, incurred in granting such loans shall, when they become due, be recoverable by the Collector as if they were arrears of land revenue due in respect of the controlled forest or the vested forest of which the borrower was the owner at the time the loan was granted:

Provided that no proceeding in respect of any such forest under this sub-section shall affect any interest in that forest which existed before the date of the order granting the loan other than the interest of the borrower and of mortgagees of, or persons having charges on, the interest of the borrower.

Amalgamation of two or more vested forests under one working plan.

**9.** (*1*) If, after consultation in the prescribed manner with the Conservator of Forests of the forest circle within which the forests are situated, a Regional Forest-officer is of the opinion that it is impossible otherwise to secure the conservation of two or more forests, belonging to different owners, of which the control has been vested in him by a notification under sub-section (*2*) of section 6 or under section 7, he may record an order that such forests shall be managed under one working plan as if they belonged to one owner, and shall cause a copy of such order to be served in the prescribed manner on the owner of each such forest.

(*2*) The Regional Forest-officer may at any time, after consultation in the manner referred to in sub-section (*1*), by order in writing rescind or modify an order passed by him under that sub-section and a copy of every order passed under this sub-section shall be served in the prescribed manner on the owner of each such forest.

(*3*) Any owner or other person interested in any such forests may, within thirty days from the date on which the copy of any order passed under sub-section (*1*) or sub-section (*2*) is served on him, appeal against such order to the Appellate Committee and the decision of the Appellate Committee on such appeal shall, subject to the provisions of sub-section (*4*), be final.

(*4*) The Board of Revenue may, on application made within thirty days from the date of any order of the Appellate Committee passed in appeal under sub-section (*3*), revise such order.

Afforestation of land adjoining a forest.

**10.** (*1*) The Provincial Government may, if it is satisfied on application made by the owner of a controlled forest, or by the Regional Forest-officer in whom the control of a private forest is vested under this Act, that any land adjoining such forest has not been cultivated during the three years immediately preceding the year in which such application is made and that such land is suitable for afforestation, by notification, announce its intention to declare such land to be liable to be made over to the owner of such controlled forest or vested forest, as the case may be.

(*2*) Every notification issued under sub-section (*1*) shall specify a period within which objections to the proposed declaration may be submitted by any person interested in such land to the Appellate Committee and a copy of every such notification shall be served in the prescribed manner on the person entitled to cultivate such land.

*The West Bengal Private Forests Act, 1948.*

*(Chapter II.—Conservation of Private Forests and Afforestation of Waste-lands.—Section 10.)*

(*3*) After the expiry of the period so specified in a notification issued under sub-section (*1*), the Appellate Committee shall hear the objections, if any, submitted by the person entitled to cultivate such land or any other person interested in such land and any evidence which any such person may produce in support of the same and forward the objections so submitted and its opinion thereon to the Provincial Government.

(*4*) If, after considering the objections and the opinion of the Appellate Committee forwarded under sub-section (*3*), the Provincial Government is of opinion that such land should be declared to be liable to be made over to the owner of the controlled or vested forest referred to in sub-section (*1*), the Provincial Government shall issue a notification —

(*a*) declaring such land to be liable to be made over to the owner of such forest to be specified in the notification,

(*b*) specifying as nearly as possible the situation and limits of such land, and

(*c*) appointing a Forest Settlement-officer to determine, subject to any rules made under this Act, by an order in writing,—

(*i*) what rights in or over such land shall be extinguished, and

(*ii*) what rent, if any, shall be payable by the owner of such forest to any landlord of such land.

(*5*) When a notification has been issued under sub-section (*4*), the amount of the compensation payable under sub-section (*6*) to every person whose rights as specified by the Forest Settlement-officer under sub-clause (*i*) of clause (*c*) of sub-section (*4*) are to be extinguished shall be determined, subject to any rules made under this Act, in the manner and in accordance with the principles hereinafter set out, that is to say—

(*i*) when the amount of compensation can be fixed by the Forest Settlement-officer appointed under clause (*c*) of sub-section (*4*) by agreement, it shall be paid in accordance with such agreement;

(*ii*) where no such agreement can be reached, the Provincial Government shall appoint as arbitrator a person who has exercised the powers of a District Judge in West Bengal or who possesses such qualifications as are normally required for appointment to the post of District Judge in West Bengal;

(*iii*) at the commencement of the proceedings before the arbitrator the owner of the forest, or the Regional Forest-officer by whom the compensation is payable, and the person to be compensated shall state what in their respective opinions is a fair amount of compensation;

(*vi*) save as provided in this sub-section and in any rules made under this Act, nothing in any law for the time being in force shall apply to arbitrations under this sub-section.

(*6*) The amount of compensation determined under sub-section (*5*) shall be paid in the prescribed manner, in the case where the notification under sub-section (*1*) was issued on the application of the owner of a controlled forest, by such owner, and in the case where such notification was issued on the application of a Regional Forest-officer, by such officer out of the profits of the vested forest adjoining such land, to the person entitled to such compensation and, on payment of such compensation, the land shall be made over by the Forest Settlement-officer appointed under clause (*c*) of sub-section (*4*) to the owner of the controlled or vested

forest specified in the notification issued under that sub-section and shall thereupon vest in such owner and all rights in or over such land specified by the said officer under sub-clause (*i*) of the said clause shall with effect from the date on which such land is so made over be extinguished.

(*7*) When any land is made over under sub-section (*6*) to the owner of a forest, it shall, with effect from the date on which it is so made over, be deemed to be a private forest.

(*8*) When any such land is made over under sub-section (*6*) to the owner of a vested forest which adjoins such land, the control of such land shall be vested in the Regional Forest-officer in whom the control of such forest is for the time being vested and the land shall, for the purposes of this Act, be deemed to be a vested forest.

(*9*) When any such land is made over under sub-section (*6*) to the owner of a controlled forest which adjoins such land, the Regional Forest-officer may, after consultation in the prescribed manner with the Conservator of Forests of the forest circle within which such controlled forest is situated, by an order in writing, a copy of which shall be served on such owner in the prescribed manner, either direct that the approved working plan in respect of such controlled forest shall be deemed to be the working plan approved for such land under sub-section (*1*) of section 4 or require such owner to prepare in the prescribed manner and submit within the period to be mentioned in such order to such officer a working plan in respect of such land.

(*10*) Where the owner of a controlled forest is required under sub-section (*9*) to prepare and submit a working plan in respect of the land made over to him under sub-section (*6*), the provisions of sections 3 and 4 shall apply to such working plan as if such owner has been required to prepare such working plan under sub-section (*1*) of section 3.

Afforestation of other land.

**11.** (*1*) If it appears from the report of a Regional Forest-officer that any waste-land which is lying uncultivated for not less than three years is suitable for afforestation and that the owner of such land is unwilling or unable to cultivate it by growing therein agricultural crops, or to use it for the purposes of horticulture to the satisfaction of such officer or to afforest it, the Provincial Government may, by a notification, direct that the control of such land shall be vested in a Regional Forest-officer to be specified in the notification for the purpose of afforestation for such period as may be stated in the notification:

Provided that the Provincial Government shall not issue any notification under this sub-section without considering whether or not such land can more advantageously be used for the purposes of agriculture or horticulture than for the purposes of afforestation:

Provided further that no such notification shall be published until a notice has been issued by such Regional Forest-officer calling upon the owner of such land and any other person interested therein to show cause before the Appellate Committee within such period as may be specified in the notice why the notification should not be published and until the cause, if any, shown and any evidence that may have been produced in support of the same before the Appellate Committee and the opinion of the Appellate Committee thereon have been considered by the Provincial Government.

(*2*) Any land in respect of which a notification has been published under sub-section (*1*) shall be deemed to be a vested forest for the purposes of this Act.

(*3*) When all expenses incurred by the Provincial Government for the afforestation of any such land have been recouped, the profits resulting from such afforestation shall, during the period the control of such land remains vested in a Regional Forest-officer, be divided in equal shares between the Provincial Government and the owner of the land.

*(Chapter II.—Conservation of Private Forests and Afforestation of Waste-lands.—Sections 12—14.)*

Apportionment of rents of forests held under a lease jointly with other lands and the division of the tenure or holding comprising a forest.

**12.** (*1*) Notwithstanding anything contained in any other law for the time being in force, where a private forest or any waste-land is, at the date of publication of a notification vesting the control thereof in a Regional Forest-officer under sub-section (*2*) of section 6 or under section 7 or under section 11, as the case may be,—

(*a*) held under a lease granted by the owner of such forest or land before the date of publication of such notification, and such lease comprises not only the areas included in such forest or land but also other areas, or

(*b*) held by the owner of such forest or land as part of a tenure or holding jointly with other lands,

the Collector of the district may, on application made in this behalf by such Regional Forest-officer,

(*i*) in the case referred to in clause (*a*), by an order in writing, apportion, subject to rules made under this Act, the rent payable under the lease between the areas included within the vested forest and other areas comprised within the lease on the basis of their respective assets, and

(*ii*) in the case referred to in clause (*b*), by an order in writing direct the division of such tenure or holding in such manner that a separate tenure or holding is formed with the lands included within the vested forest and also direct such distribution of the rent payable in respect of such tenure or holding between the two separate tenures or holdings so formed as he deems fair and equitable:

Provided that no order shall be passed under this sub-section without giving, in the case of an order passed under clause (*i*) the lessor and the lessee of such forest or land, and in the case of an order passed under clause (*a*) the owner of such forest or land and the landlord or landlords, or their common agent, if any, of the tenure or holding, a reasonable opportunity of being heard.

(*2*) An appeal shall lie from every order passed under sub-section (*1*) to the Commissioner of the Division if it is presented within thirty days from the date of such order and the decision of the Commissioner on such appeal shall be final and shall not be questioned in any Court.

*Explanation.*—In this section, "lease", "lessor" and "lessee" have the same meanings as in the Transfer of Property Act, 1882, and "tenure" and "holding" have the same meanings as in the Bengal Tenancy Act, 1885. IV of 1882. VIII of 1885.

Rent to be a charge on the leasehold interest in a vested forest.

**13.** Where a private forest or waste-land of which the control has been vested in a Regional Forest-officer by a notification under sub-section (*2*) of section 6 or under section 7 or under section 11 is, at the date of publication of such notification, held either exclusively or jointly with other property under a lease granted by the owner of such forest or land before such date, the rent payable under the lease or under an order of apportionment made under clause (*i*) of sub-section (*1*) of section 12 in respect of such forest or land during the period such forest or land remains so vested in the Regional Forest-officer shall, subject to the prior payment of the land-revenue, if any, due to the Government thereupon, be a first charge upon the leasehold interest in such forest created by such lease.

Power to order a vested forest to be formed into a separate estate.

**14.** The Provincial Government may, if it thinks it expedient, direct the Collector to partition off that part of an estate which comprises a vested forest into a separate estate; and the demand in respect of land-revenue and cess for which the original estate was liable shall on such partition be assessed upon and divided between the two separate estates so formed respectively in such manner as the Provincial Government may direct.

*(Chapter II.—Conservation of Private Forests and Afforestation of Waste-lands.—Sections 15—17.)*

Power to exempt an estate of which a vested forest forms part from sale for arrears of revenue.

**15.** The Provincial Government may, if it so considers expedient, by a notification, exempt any estate, and subject to the provisions of section 14 of the Bengal Land-revenue Sales Act, 1859, every share or part of an estate for which a separate account has been opened under section 10, or section 11 of the said Act, or under section 70 of the Land Registration Act, 1876, of which a vested forest forms part, from sale for arrears of Government revenue accruing during the period the control of such forest remains vested in a Regional Forest-officer under sub-section (*2*) of section 6 or under section 7 or under section 11 or during such part of such period as may be specified in such notification: XI of 1859. Ben. Act VII of 1876.

Provided that where any such estate, share or part is so exempted, all such arrears of revenue shall be the first charge upon the sale-proceeds of such estate, share or part which may be sold otherwise than for such arrears of revenue.

Determination of cost of management of vested forest and distribution of net profit.

**16.** (*1*) The cost of any extra staff required for the management of a vested forest in each year shall be determined in the prescribed manner by the Regional Forest-officer and shall be recovered by him in that year, or in subsequent years, from the sale of the forest produce of such forest.

(*2*) The cost of the operations of any Forest Settlement-officer and such part of the cost of a Regional Forest-officer and of his staff as is proportionate to the work done by them in connection with the management of a vested forest shall be included in the cost of management.

(*3*) Any amount due in respect of a loan made under section 8 to the owner of a vested forest shall be included in the cost of management of such forest.

(*4*) Any amount paid as compensation by the Regional Forest-officer under sub-section (*6*) of section 10 out of the profits of a vested forest or paid as compensation by the Regional Forest-officer under sub-section (*2*) of section 25, and to be recouped under that sub-section from the profits of a vested forest, shall be included in the cost of management of such forest.

(*5*) Until otherwise determined by a competent Court, the respective shares of the owners of a vested forest shall be determined by a Forest Settlement-officer in the prescribed manner, and thereafter, the net profits in respect of such forest, which shall be calculated in the prescribed manner, shall be distributed among the various owners thereof in proportion to their respective shares as so determined.

(*6*) In each year the Regional Forest-officer shall record in a statement the cost of management with which each vested forest shall be charged and any amount which shall be paid in respect of the net profits calculated under sub-section (*5*) and shall cause a copy of such statement to be served in the prescribed manner on the owner of such forest.

Imposition of cess.

**17.** (*1*) The Provincial Government may impose in the prescribed manner on an acreage basis a cess on all private forests within a notified area with effect from such date, not being before the expiry of ten years from the date of publication of a notification under section 3, as the said Government may appoint.

(*2*) Such cess shall be so calculated as to yield a sum not greater than that which is sufficient to meet the cost of the Regional Forest-officer and his staff, including any expenses incurred in connection with their work to be determined in the prescribed manner.

(*3*) If the Regional Forest-officer or his staff does any work in connection with a Government forest, a proportionate deduction shall be made from the cost of such Regional Forest-officer and of his staff before the cess is calculated under sub-section (*2*).

(*4*) Every cess imposed under sub-section (*1*) shall be recoverable as a public demand under the Bengal Public Demands Recovery Act, 1913. Ben. Act III of 1913.

(*5*) The Provincial Government may, by general or special order, exempt any private forest in a notified area from the payment of any cess imposed under sub-section (*1*) or of any portion of such cess for such period as may be specified in such order.

Release of vested forest to the owner.

**18.** (*1*) If the owner of a vested forest satisfies the Appellate Committee—

(*a*) at any time after the expiry of fifteen years from the date of the notification by which the control of such forest has been vested in a Regional Forest-officer, that—

(*i*) the control of such forest may be restored to him without undue risk of detriment to its conservation, and

(*ii*) the cost of its management as determined under the provisions of sub-section (*1*) of section 16 has been recovered in full, or

(*b*) at any time after the expiry of thirty years from the date of such notification, that the cost of management of such forest as determined under the provisions of that sub-section has been recovered,

the Appellate Committee shall by order direct that with effect from a date, to be specified in such order, the control of such forest shall cease to be vested in the Regional Forest-officer:

Provided that no such order shall be made in the case of any forest, whether any working plan in respect of such forest has been previously approved under section 4 or not, until—

(*a*) the Appellate Committee has by an order called upon the owner of such forest to prepare in the prescribed manner and to submit within such period as may be specified in such order to the Regional Forest-officer a working plan in respect of such forest, and

(*b*) a working plan has been approved in respect of such forest in accordance with the provisions referred to in sub-section (*2*):

Provided further that no such order shall be passed regarding a forest in respect of which there subsists an order passed under sub-section (*1*) of section 9, unless the owners of all the forests, in respect of which the order under the said sub-section was passed, have satisfied the Appellate Committee that there will be no undue risk of detriment to the conservation of any of such forests if the control of the said forest ceases to be vested in the Regional Forest-officer.

(*2*) When the owner of a forest has been required under the first proviso to sub-section (*1*) to prepare and submit a working plan in respect of such forest, the provisions of sections 3 and 4 shall apply to such working plan as if such owner has been required to prepare such working plan under sub-section (*1*) of section 3.

(*3*) The fact that the control of any forest has ceased to be vested in a Regional Forest-officer shall not operate to revive any right which may have been extinguished or modified by a proclamation under section 28.

## CHAPTER III.

### Rights in Forests.

Control and demarcation of vested forest.

**19.** When a notification has been published in respect of any forest under sub-section (*2*) of section 6 or under section 7 or under section 11, the control of such forest shall be vested in the Regional Forest-officer, who shall forthwith proceed to demarcate it.

Appointment of Forest Settlement-officer.

**20.** (*1*) A Forest Settlement-officer shall be appointed by the Provincial Government in respect of every forest of which the control is vested in a Regional Forest-officer by a notification under sub-section (*2*) of section 6 or under section 7 or under section 11, and may be appointed in respect of any controlled forest on the application made in this behalf to the Provincial Government by its owner.

(*2*) Such appointment shall be made by a notification specifying in such notification, as nearly as may be possible, the situation and limits of such forest.

**21.** After the issue of a notification under section 20, no right shall be acquired in or over the land comprised in such notification, except by succession or under grant or contract in writing made or entered into, with the previous sanction of the Provincial Government, by or on behalf of the owner or some person in whom such right was vested when the notification was issued; and no fresh clearings for cultivation or for any other purpose, and cutting, conversion or removal of timber or the collection, manufacture or removal of other forest-produce, shall be made in such land except in accordance with such rules, if any, as may be made by the Provincial Government in this behalf.

Proclamation by Forest Settlement-officer.

**22.** (*1*) The Forest Settlement-officer shall publish in the neighbourhood of the forest in respect of which he has been appointed, a proclamation in Bengali and, if any other language has been prescribed in this behalf for the local area in which such forest is situated, also in such other language—

(*a*) specifying, as nearly as possible, the situation and limits of such forest;

(*b*) explaining the measures proposed for, and the consequences which will ensue on, the conservation of such forest; and

(*c*) requiring every person who claims any right, other than a right of ownership, over such forest or over any forest-produce from such forest, to give to such Forest Settlement-officer, within a period of not less than three months to be stated in the proclamation, particulars, either in writing or by word of mouth, of such right and the amount and nature of the compensation, if any, claimed in respect thereof.

(*2*) The Forest Settlement-officer shall take down in writing all statements made by word of mouth under clause (*c*) of sub-section (*1*).

(*2*) The Forest Settlement-officer shall give a hearing to the Regional Forest-officer or an officer authorised by such Regional Forest-officer in writing, in this behalf, to satisfy himself as to the necessity of modifying or extinguishing any right in the interests of the conservation of the forest.

Powers of Forest Settlement-officer.

**24.** For the purpose of such inquiry, the Forest Settlement-officer may exercise the following powers, that is to say:—

(*a*) power to enter, by himself or by any officer authorised by him for the purpose, upon any land, and to survey, demarcate and make a map of the same; and

(*b*) the powers of a Civil Court in the trial of suits.

Specification and modification of rights.

**25.** (*1*) After completion of the inquiry under section 23, the Forest Settlement-officer shall, by an order in writing—

(*a*) record the nature of the rights existing at the time of the notification under section 20, and

(*b*) direct the modification or extinction of any such right, other than a right of ownership, in the interests of the conservation of the forest.

(*2*) When the Forest Settlement-officer directs under clause (*b*) of sub-section (*1*) the modification or extinction of any right, he shall, unless the person whose rights are affected has come to an agreement as to the amount of compensation payable to him, determine what compensation shall be awarded to such person, and the amount of any compensation payable under this sub-section to any such person shall be paid in the prescribed manner, in the case where the forest to which such right relates is a controlled forest, by the owner of such forest, and in the case where such forest is a vested forest, by the Regional Forest-officer in whom the control of such forest is vested under this Act and every payment so made by the Regional Forest-officer shall be recouped from the profits of the vested forest to which such right relates as part of the cost of management of such forest.

**26.** (*1*) An appeal may be presented against any order made under section 25 within ninety days from the date of such order to the Commissioner of the Division by an owner of a forest or by a Regional Forest-officer or by any person who has given particulars of his claims under sub-section (*1*) of section 22.

(*2*) Every such appeal shall be made by a petition in writing and shall be heard in accordance with the procedure for the time being applicable to the hearing of appeals in matters relating to land-revenue.

(*3*) The order of the Commissioner on such appeal shall, subject to the provisions of sub-section (*4*), be final.

(*4*) An application for revision shall lie to the Board of Revenue from an order of the Commissioner passed in appeal under this section if it is presented within thirty days from the date of such order.

Pleaders.

**27.** The Provincial Government, or any person who has made a claim under this Act, may appoint any person to appear, plead and act on its or his behalf before the Forest Settlement-officer, or any appellate or revisional authority in the course of any inquiry, appeal or revision under this Act or before any arbitrator appointed to determine any compensation payable under sub-section (*5*) of section 10.

Extinction of rights.

**28.** (*1*) When the time within which appeals against orders under section 25 may be made has expired and, when any such appeal has been made under section 26, the time within which applications for revision of any order passed in such appeal may be made has also expired and all applications for revision under sub-section (*4*) of section 26 have been disposed of, the Forest Settlement-officer shall issue another proclamation specifying the rights which may be exercised in respect of the forest regarding which any such order under section 25 has been made and also specifying the date with effect from which all rights in respect of such forest which are not specified in such proclamation shall be extinguished.

(*2*) A translation of such proclamation in Bengali and, if any other language has been prescribed in this behalf for the local area in which such forest is situated, also in such other language shall be published in the neighbourhood of such forest before the date so specified in such proclamation.

(*3*) With effect from the date so specified in such proclamation all rights in respect of such forest not specified in such proclamation shall be extinguished.

(*b*) any trees have been felled, girdled, lopped, tapped, burnt, or otherwise damaged,

(*c*) any other forest-produce has been burnt or removed, or

(*d*) any land has been broken up for any purpose,

otherwise than in the exercise of any right in or over such forest with intent to cause detriment to the conservation of such forest, and if the District Magistrate is satisfied after enquiry that the inhabitants of any local area are concerned in the commission of any such offences or are in any way assisting persons in committing such offences, the District Magistrate may, by order in writing in which shall be specified the reasons for making such order, impose on the inhabitants of such area a collective fine which may extend to five hundred rupees or three times the value estimated by him of any forest-produce damaged, whichever is greater, and may, after such further enquiry, as he deems necessary, apportion such fine amongst such inhabitants and such apportionment shall be made according to the respective means of such inhabitants.

(*2*) Every order imposing a collective fine under sub-section (*1*) shall be forthwith published in the local area in such manner as the District Magistrate considers best calculated to bring the order to the notice of the inhabitants of the area concerned.

(*3*) The District Magistrate may exempt any person or class or section of such inhabitants from liability to pay any portion of such fine.

(*4*) The portion of such fine payable by any person may be recovered from him as a fine or as a public demand under the Bengal Public Demands Recovery Act, 1913. Ben. Act III of 1913.

(*5*) Every apportionment of collective fine made under sub-section (*1*) shall be subject to revision by the Commissioner of the Division on application made in that behalf to him by any person affected by such apportionment within thirty days from the date on which such apportionment is made and the decision of the Commissioner thereon shall be final.

Nothing in sub-section (*1*) of section 29 to prohibit acts done in certain cases.

**31.** No act shall be an offence for the purposes of sub-section (*1*) of section 29 if it is done—

(*a*) in the exercise of any right in or over such forest, or

(*b*) in respect of a vested forest, with the permission in writing of a Forest-officer, or

(*c*) in respect of a controlled forest, with the permission in writing of the owner thereof or of his authorised agent, or

(*d*) in accordance with rules made under this Act.

**32.** (*1*) When there is reason to believe that a forest-offence has been committed in respect of any forest-produce, such produce together with all tools, boats, motor vehicles, carts or cattle used in committing any such offence, may be seized by any Forest-officer or Police-officer.

(*2*) Every officer seizing any property under this section shall place on such property a mark indicating that the same has been so seized, and shall, as soon as may be, make a report of such seizure to the Magistrate having jurisdiction to try the offence on account of which the seizure has been made:

Provided that, when the offender is unknown, it shall be sufficient if the officer makes, as soon as may be, a report of the circumstances to his official superior.

Power to release property seized under section 32.

**33.** Any Forest-officer of a rank not inferior to that of a Ranger, or any Police-officer of a rank not inferior to that of a Sub-Inspector, who, or whose subordinate, has seized any tools, boats, motor vehicles, carts or cattle under section 32, may release the same on the execution by the owner thereof of a bond for the production of the property so released, if and when so required, before the Magistrate having jurisdiction to try the offence on account of which the seizure has been made.

Information to the Magistrate and procedure thereupon.

**34.** The Regional Forest-officer may cause information to be given to a Magistrate regarding any forest-offence which he has reason to believe to have been committed in respect of any forest-produce; and upon receipt of any such information, the Magistrate shall, with all convenient despatch, take such measures as may be necessary for the arrest and trial of the offender and the disposal of the property according to law.

Notice to claimants of seized forest-produce.

**35.** (*1*) If a Regional Forest-officer has not caused information to be given to a Magistrate under section 34 in respect of any forest-produce seized under sub-section (*1*) of section 32, he shall, if there is any doubt as to the person who is entitled to such produce, cause a notice to be published in such manner as may be prescribed containing a description of such produce and requiring any person who may claim the same to present a written statement of his claim to him within such period as may be specified in such notice.

(*2*) If only one such statement of claim is presented in respect of any such forest-produce, the Regional Forest-officer shall, after making such inquiry as he thinks fit and recording his reasons in writing, either reject the claim or deliver the produce to the claimant.

(*3*) If more than one such statement of claim is presented, the Regional Forest-officer may, after making such inquiry as he thinks fit and after recording his reasons in writing, either deliver the forest-produce to such of the persons as he considers to be entitled thereto or refer the claimants to the Civil Court and retain such produce pending receipt of an order from the Civil Court for its disposal.

(*4*) Any person whose claim has been rejected under this section may, within three months from the date of rejection of such claim, institute a suit to recover possession of the forest-produce claimed by him; but no person shall be entitled to recover any compensation or costs against the Provincial Government, or against any Forest-officer, on account of rejection of such claim, or on account of the detention or removal of any forest-produce, or the delivery thereof to any other person under this section.

**36.** If no statement of claim is presented in respect of any such forest-produce after a notice has been published under sub-section (*1*) of section 35, or if a person whose claim has been rejected under that section omits to institute a suit under sub-section (*4*) thereof, the ownership of such forest-produce shall vest in the Provincial Government free from all encumbrances, or, when such forest-produce has been delivered to any person under sub-section (*3*) of that section, in such person free from all encumbrances not created by such person.

Disposal of seized property after information has been given under section 34.

**37.** (*1*) Any forest-produce in respect of which a forest-offence has been committed and information has been given to a Magistrate under section 34 shall, on the conclusion of the trial for such offence, be made over to the owner of the forest from which it was derived or to any other person whom the Magistrate deems to be entitled to the same:

Provided that, if it is not known from which forest such produce was derived, such forest-produce and all tools, boats, motor vehicles, carts and cattle used in committing such forest-offence shall be liable to confiscation.

(*2*) Such confiscation may be in addition to any other punishment which may be awarded under this Act for such offence.

**39.** When the offender cannot be found, the Magistrate may, if he finds that an offence has been committed, order the property in respect of which the offence has been committed to be confiscated and taken charge of by the Regional Forest-officer, or to be made over to the person whom the Magistrate deems to be entitled to the same:

Provided that no such order shall be made until the expiry of one month from the date of seizing such property, or without hearing the person, if any, claiming any right thereto, and the evidence, if any, which he may produce in support of his claim.

Procedure as to perishable property seized under section 32.

**40.** The Magistrate may, notwithstanding anything hereinbefore contained, direct the sale of any property seized under section 32 and subject to speedy and natural decay, and may deal with the proceeds as he would have dealt with such property if it had not been sold.

Appeal from orders under section 37 or section 39.

**41.** The officer who made the seizure under section 32, or any of his official superiors, or any person claiming to be interested in the property so seized, may, within one month from the date of any order passed by the Magistrate under section 37 or section 39, appeal therefrom to the Court to which orders made by such Magistrate are ordinarily appealable, and the order passed on such appeal shall be final.

Property when to vest in Government.

**42.** When an order for the confiscation of any property has been passed under section 37 or section 39, as the case may be, and the period limited by section 41 for an appeal from such order has expired, and no such appeal has been preferred, or when, on such an appeal being preferred, the Appellate Court confirms such order in respect of the whole or a portion of such property, such property or such portion thereof, as the case may be, shall vest in the Provincial Government free from all encumbrances.

Saving of power to release property seized.

**43.** Nothing hereinbefore contained shall be deemed to prevent any officer empowered in this behalf by the Provincial Government from directing at any time the immediate release of any property seized under section 32.

Punishment for wrongful seizure.

**44.** Any Forest-officer or Police-officer who vexatiously and unnecessarily seizes any property on pretence of seizing property liable to confiscation under this Act shall be punishable with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

shall be punishable with imprisonment for a term which may extend to two years, or with fine, or with both.

Power to arrest without warrant.

**46.** (*1*) Any Forest-officer or Police-officer may, without orders from a Magistrate and without a warrant, arrest any person against whom a reasonable suspicion exists of his having been concerned in any forest-offence punishable with imprisonment for one month or upwards under this Act.

## The West Bengal Land Development and Planning Ordinance, 1948.

WHEREAS the West Bengal Legislature is not in session and the Governor is satisfied that it is necessary in the public interest to take immediate action for making better provision for the acquisition and development of land in West Bengal for public purposes;

The Governor is pleased in exercise of the power conferred by sub-section (*1*) of section 88 of the Government of India Act, 1935, to make and promulgate the following Ordinance, namely:— 26 Geo. V, c. 2.

Short title, extent and commencement.

**1.** (*1*) This Ordinance may be called the West Bengal Land Development and Planning Ordinance, 1948.

Ben. Act V of 1911.

(*3*) It shall come into force at once.

Definitions.

**2.** In this Ordinance, unless there is anything repugnant in the subject or context,—

Appointment of the prescribed authority.

**3.** The Provincial Government may appoint, in accordance with the rules, an authority (hereinafter referred to as the prescribed authority) for carrying out the purposes of this Ordinance.

*The West Bengal Land Development and Planning Ordinance, 1948.*

(*Sections 4—7.*)

Declaration of notified area.

**4.** (*1*) The Provincial Government may, by notification in the *Official Gazette*, declare any area specified in the notification to be a notified area if it is satisfied that any land in such area is needed or is likely to be needed for any public purpose and the Collector shall cause public notice of the substance of such notification to be given at convenient places in the locality in such manner as he may think fit.

(*2*) Thereupon it shall be lawful for any person either generally or specially authorised by such Government in this behalf and for his servants and workmen,—

to enter upon and survey and take levels of any land in such area;

to dig or bore into the sub-soil;

to do all other acts necessary to ascertain whether the land is suitable for such purpose;

to set out the boundaries of the land proposed to be taken and the intended line of the work (if any) proposed to be made thereon;

to mark such levels, boundaries and line by placing marks and cutting trenches; and

where otherwise the survey cannot be completed and the levels taken and the boundaries and line marked, to cut down and clear away any part of any standing crop, fence or jungle:

Provided that the Officer so authorised shall at the time of such entry pay or tender payment of all necessary damage to be done as aforesaid, and, in case of dispute as to the sufficiency of the amount so paid or tendered, he shall at once refer the dispute to the decision of the Collector or other chief revenue officer of the district, and such decision shall be final.

Preparation and sanctioning of development scheme.

**5.** (*1*) The Provincial Government may direct the prescribed authority, or, if it so thinks fit in any case, authorise any Company or local authority, to prepare, in accordance with the rules, a development scheme in respect of any notified area and thereupon such scheme shall be prepared accordingly and submitted, together with such particulars as may be prescribed by the rules, to the Provincial Government for its sanction.

(*2*) A development scheme submitted to the Provincial Government under sub-section (*1*) may be sanctioned by it either without any modification or subject to such modification as it may deem fit.

Declaration for acquisition of land needed for development scheme.

**6.** (*1*) When a development scheme is sanctioned under sub-section (*2*) of section 5 and the Provincial Government is satisfied that any land in the notified area for which such scheme has been sanctioned is needed for the purpose of executing such scheme, a declaration to the effect that such land is needed for a public purpose shall, unless already made in pursuance of section 7, be made by the Provincial Government.

(*2*) The declaration shall be published in the *Official Gazette*, and shall state the district or other territorial division in which the land is situate, the purpose for which it is needed, its approximate area, and, where a plan shall have been made of the land, the place where such plan may be inspected.

*Explanation.*—For the purposes of this clause the decision of the Provincial Government as to whether any land is or is not waste or arable land shall be final;

(*b*) in determining the amount of compensation to be awarded for land acquired in pursuance of this Ordinance the market value referred to in clause *first* of sub-section (*1*) of section 23 of the said Act shall be deemed to be the market value of the land on the date of publication of the notification under sub-section (*1*) of section 4 for the notified area in which the land is included subject to the following condition, that is to say,—

if such market value exceeds by any amount the market value of the land on the 31st day of December, 1946, on the assumption that the land had been at that date in the state in which it in fact was on the date of publication of the said notification, the amount of such excess shall not be taken into consideration.

Power to dispose of land without development.

**9.** Notwithstanding anything elsewhere contained in this Ordinance or in any rule or order made thereunder, the Provincial Government may, if it so considers expedient, retain, let on hire, lease, sell, exchange or otherwise dispose of any land acquired in pursuance of this Ordinance.

Execution of development scheme and disposal of land.

**10.** (*1*) The Provincial Government may direct the prescribed authority to execute any development scheme sanctioned under sub-section (*2*) of section 5 or cause it to be executed in accordance with the rules and upon the execution of the scheme as so directed the lands comprised therein shall be disposed of by the Collector in such manner as may be directed by the Provincial Government.

(*2*) If the Provincial Government so thinks fit, it may also empower a Company or a local authority to execute, at its own cost, any such development scheme and to dispose of the lands comprised therein on such terms and conditions including conditions relating to the manner of disposal of land as may be settled by the Provincial Government and embodied in an agreement to be entered into by the Provincial Government and the Company or local authority, as the case may be.

Withdrawal of power from Company or local authority to execute development scheme or to dispose of land.

**11.** If, at any time, the Provincial Government is satisfied that any of the terms or conditions contained in an agreement referred to in sub-section (*2*) of section 10 is not being complied with, it may, by order served in accordance with the rules on the Company or local authority, as the case may be, withdraw the power conferred on it to execute any development scheme or to dispose of the lands comprised therein or both and may thereafter make such arrangement in that behalf as it may deem fit and proper.

## GOVERNMENT OF WEST BENGAL

**:ST BENGAL LEGISLATIVE ASSEMBLY DEPARTMENT.**

NOTIFICATION.

o. 444L.A.—27th February, 1948.—The follow- report of the Select Committee on the West Bengal Premises Rent Control (Temporary Provisions) Bill, 1947, with the Bill embodying amendments recommended by the Committee, is hereby published for general information:—

### Report of the Select Committee on the West Bengal Premises Rent Control (Temporary Provisions) Bill, 1947.

We, the members of the Select Committee to which the West Bengal Premises Rent Control (Temporary Provisions) Bill, 1947, was referred to by a motion carried in the West Bengal Legislative Assembly on the 8th December, 1947, have the honour to submit this our final report with the Bill embodying amendments recommended by us.

2. The Committee met for the first time on the 12th January, 1948, in the Committee Room of the "Assembly House", Calcutta, under the Chairmanship of the Hon'ble Sri Kalipada Mookerji, Minister-in-charge of the Department of Land and Land Revenue. The Committee met from time to time with occasional recess but as the subject-matter of the Bill was difficult and intricate and as the Committee could not finish their deliberations on the provisions of the Bill, the Chairman presented the preliminary report at the meeting of the Assembly held on the 13th January, 1948, and moved for extension of time till the 17th February, 1948, for submission of the final report of the Select Committee.

3. The Committee thereafter continued their deliberations under the Chairmanship of the Hon'ble Sri Mohini Mohan Barman, Minister-in-charge of the Department of Land and Land Revenue, and finished their deliberations on the Bill on the 11th February, 1948.

4. The Bill was published before introduction in the *Calcutta Gazette, Extraordinary*, dated the 26th November, 1947.

5. We do not consider the Bill to have been so materially altered as to require republication. Matters recommended to be omitted by us have been printed in *italics* and included in square brackets and those recommended to be inserted have been underlined.

6. The reasons for the changes suggested in the Bill, apart from those of a purely drafting nature, are as follows:—

**Clause 1.**—*Sub-clause (1).*—The change in the short title of the Bill is due to the lapse of time.

*Proviso to sub-clause (3).*—We consider it desirable that the Act should be extended to urban areas.

*Sub-clause (4).*—We think it desirable that the period of operation of the Act should only be extended by a resolution of the West Bengal Legislative Assembly.

**Clause 2.**—We have thought it proper to include the definitions of "hotel or lodging house", "letting", "manager of a hotel" and "owner of a lodging house" in this clause to be more precise.

We have also thought it necessary to recast the definition of "premises" so as to exclude stalls in municipal markets and other markets owned by certain local authorities.

We have altered the definition of "standard rent" with reference to basic rent and allowed an increase on a graduated scale on the basic rent for the purpose of arriving at the standard rent.

We have altered the definition of "tenant" so as to include a "sub-tenant".

**Clause 3.**—Paragraph (*a*) of the proviso to sub-clause (*1*) has been omitted in view c the provisions made in clause 9.

**Clauses 4 and 5.**—We have recommended the deletion of these clauses as provision have been made in clause 12.

**Clause 9.**—We have altered the period of time in respect of which refund of rent, etc will be allowable.

**Clause 11.**—We have recommended the omission of this clause in view of the fact th provision has been made separately and in detail in Chapter IV-A.

**Clause 12.**—We consider that the date "1st December, 1941" should be changed to "1st October, 1946" with a view to arrive at a fair standard rent by the Controller.

Clause (*h*) has been inserted to provide for the fixation of standard rent in cases where a sub-tenant becomes a tenant immediately under the landlord.

**Clause 13.**—The changes are more or less of a drafting nature only with the exception that the standard rent as fixed under clause (*f*) of section 12 shall take effect from the date of increase of municipal rates, etc.

**Clause 14.**—We have included certain additional grounds for ejection of a tenant. We do not consider that sub-tenancies beyond the sub-tenancy of the first degree should be recognised except without the consent of all the superior landlords. We have also made provisions for a sub-tenant to become a tenant directly under the landlord.

**Clause 15.**—We consider that a tenant should get the benefit of protection against eviction when a suit is pending against him for arrears of rent. We have inserted new sub-clause (*2*) providing that a tenant who fails to pay rent for three consecutive months shall be treated as a trespasser.

**New clause 15A.**—We have recommended for the insertion of this new clause making special provision for tenancies for not less than ten years and expiring on or after the 1st October, 1946.

**Clause 17.**—We have recast clause 17 with a view to give protection to the original tenant who will be entitled to restoration if and only when the premises are relet within six months of the recovery of possession by the landlord to a person other than the original tenant without notice to the Controller.

**Clauses 18 to 23.**—We have dispensed with the necessity of obtaining permission of the Controller as it involves undue delay.

We have provided for a new clause 18 empowering the Civil Courts to enquire into the grounds whether the cause for eviction exists.

**Clause 19.**—We consider it necessary to provide for the stay of execution of decrees and orders for recovery of possession in certain cases.

**Clause 24.**—We have made certain changes in this clause for better facilities to both landlord and tenant.

**New clause 24A.**—We desire that punishment should be given to such tenants who *mala fide* provide with incorrect names and addresses of their landlords.

**New clauses 25A to 25F.**—We have provided for a separate chapter for hotels and lodging houses.

**Clause 26.**—We have added a new sub-clause to provide for speedy disposal of cases. We consider that a member of the Judicial Branch of the Provincial Civil Service should be appointed as a Rent Controller, Additional Controller or Deputy Controller and so sub-clause (*4*) has been amended accordingly.

**Clause 34.**—We consider that the fines should be recoverable as a public demand.

**Clauses 37 and 38.**—We consider it desirable to provide for the recovery of repairing charges of premises from the landlord.

**Clause 41.**—We consider that an order made under section 17 should be executed in accordance with rules. The changes made in clause 41(*2*) (*g*) is consequential.

In new sub-clause (*3*) we have made a provision for laying of the rules framed by Provincial Government before the West Bengal Legislative Assembly for the information of members.

**The Schedule.**—A schedule has been inserted showing what the percentage of increase of rent should be, if it is to be allowed by the Controller or agreed upon by the parties. A slab system of rise has been recommended.

The Bill contemplates some stringent measures against the landlord which were absent in the Ordinance. Besides these measures the present Bill makes the offence of taking *salami* a cognizable offence. Clause 32 while making the offence cognizable also makes it unbailable. This sub-clause (2) of clause 32 is open to much criticism and misuse. Even in grave offences bail is allowed. An offence is made unbailable where it is apprehended that the accused will abscond and will not be produced in court. There is no such possibility of this kind where a landlord is concerned as he possesses landed property. Again there is a possibility that a mischievous tenant lodges a false report say on Saturday evening and gets his landlord arrested. The Commissioner of Police even knowing that the landlord will not abscond cannot release him on any bail because the Bill does not provide it and the landlord will have to rot in jail for two nights and one day in case Monday is not a holiday. Such occurrences will not be rare. Where the tenant fears that the case will end in a failure he can quietly leave the premises and go away with impunity for lodging a false report. I think the offence though made cognizable should be made bailable.

## AWARD.

Pursuant to the provisions of sections 7 and 10 of the Industrial Disputes Act of 1947, Government of West Bengal by order No. 135Lab., dated 17th January 1948, constituted a Tribunal with Sri Ashutosh Das Gupta as Chairman, and Sri Sailesh Chandra Chakravarti and Sri Sudhir Chandra Dutta Gupta as members to adjudicate upon disputes between 267 mercantile firms of Calcutta and their employees.

The firms have been divided in two lists in the Government order and it is proposed to maintain the serial numbers given in the lists for the sake of convenience. In column 1 of the lists the names of the firms have been stated and in column 2 the names of the unions representing the employees have been stated. The names of unions have not been stated against many of the firms and it became a difficult job to contact them. Notices had been issued on the unions named and they appeared and the employees of some of the firms who had unions but not mentioned in the lists also appeared. Newly formed unions also appeared. It transpired that the employees of many of the firms had no unions and many of them intimated to the Tribunal by letters and by applications that no dispute existed between the employer and the employees. Yet there had been a large number of cases in which there had been no response. In the circumstances the Tribunal considered it necessary to issue some public notices in the Calcutta dailies—*Ananda Bazar Patrika*, *Jugantar* and *Basumati*—inviting the employees to appear before the Tribunal on the 18th of March 1948. On that date it was found that employees of many of the firms had appeared while in some there was no response and in some there were intimations carried to us that no dispute existed and in some settlements between the employer and the employees were filed.

We are satisfied that the employees of all the concerns had due information about the reference and the constitution of the Tribunal. We proposed to consider the cases of absent parties, the cases in which intimations about no dispute had been filed and the cases in which settlements had been filed. We fixed 2nd April 1948 for the purpose and to enable the employees to know about this date, notices were sent to the employers to be affixed in their respective notice boards.

Now the question is whether these cases can be wrenched out of the rest to be disposed of separately. Mr B. K. Chowdhury, Counsel on behalf of the Federation of the Mercantile Firms' Employees' Unions, urged two points against separate treatment of these cases. The first point is that "industrial disputes" within the meaning of the Act cover a dispute between the employer of one firm with the employees of another firm or any other person and, therefore, anybody can raise a dispute. It was thus contended that their cases cannot be disposed of either on their consent or in their absence. The second point argued by him was that the reference to this Tribunal was indivisible and that the Industrial Disputes Act contemplated only one award for one reference.

If the answer to the second question be that these are separate disputes joined together artificially, the first point need not be answered and it will only be necessary to consider whether the Tribunal in this case may make a separate award for each dispute. This takes us to the consideration of the terms of reference to us. The reference runs to this effect:—

"Whereas industrial disputes have arisen or are apprehended between the employers of mercantile firms and their associate firms specified in column 1 in the two lists Nos. 1 and 2 annexed thereto and their clerical and all subordinate staff in their offices as represented by some trade unions mentioned against firms in column 2 of the schedule aforementioned, and others represented by such other registered trade unions as may be permitted by the Industrial Tribunal hereinafter mentioned to be represented individually for legitimate reasons and it is expedient that the said disputes should be referred to a Tribunal, the Governor is pleased under sections 7 and 10 of the Industrial Disputes Act, 1947, to constitute a Tribunal for adjudication of the said disputes.

The Governor is further pleased to appoint Sri Ashutosh Das Gupta, Additional District Judge, to be the Chairman, and Sri Sailesh Chandra Chakravarti and Sri Sudhir Chandra Dutta Gupta, Additional District Judges, to be the members of the said Tribunal. The said Tribunal shall meet at such places on such dates as the said Chairman directs".

There are two lists. In column 1 the names of the firms have been given and in column 2 the names of the unions against some firms have been stated. There is no mention of any union against many of the firms. The inference is that there were no unions of the employees of those firms or Government was not aware of the existence of the unions.

There are in the firms, solicitors and auctioneers, concerns for transport by water as also by air, chartered accountants and engineers, cutlers and shoe-makers, bankers and insurers, etc., etc. The concerns are not all of allied nature. There is no reason to justify a dispute by the clerks of a shoemaker against the solicitor, for pay of his clerk. If there was any intention on the part of the Government to convey to the Tribunal that there existed a dispute or a dispute was apprehended collectively by the employees of all the firms against all the firms collectively, the most proper course was to group the two columns together. Mr. B. K. Chowdhury stressed on the use of the word "others" in the reference. This clearly refers to representations of persons not covered by the unions named in the order of reference and not to strangers.

We are of opinion that these are references of 267 separate disputes and, for the sake of convenience, have been joined together in one order of reference.

Now the question is whether we can pass separate awards at different times for the different disputes between different parties.

Section 15(*1*) of the Industrial Disputes Act is to the following effect:—

"Where an industrial dispute has been referred to a Tribunal for adjudication, it shall hold its proceedings expeditiously and shall, as soon as practicable on the conclusion thereof, submit its award to the appropriate Government." It contemplates one award for one dispute—not two final awards for the same dispute. Here there is one dispute for each firm and therefore they can be separately dealt with. What the Tribunal cannot do is to pass separate awards for separate items of disputes of the same concern with its employees.

We fail to appreciate the necessity of keeping those persons tied to the Tribunal who are not quarrelling. This detention must necessarily be for an indefinite period. The Industrial Disputes Act contemplates

speedy disposal of disputes. Chance of some employees falling out with the employers on account of long detention need not receive encouragement from the Tribunal meant for ending disputes and troubles. We are of opinion that separate treatment of the disputes and immediate disposal of some of the cases will not prejudicially affect the cases of persons which are not being disposed of immediately. These are separate disputes and the decision of one will not affect the decision in the other. If in future, the service conditions of the persons whose cases are now disposed of are put forward as prevailing conditions, it is, apart from other contentions, open to the contesting parties to show that this inaction was somehow purchased.

It is transparently clear that the Government apprehended disputes in some of the firms, but investigation by us showed that the effervescence of disputes existing at that time had since died out.

In Schedule 1 of this award we mention those cases in which either the employees or both the employer and the employees have not appeared before the Tribunal and in Schedule 2 we have listed those cases in which intimations have been carried to us that no dispute exists. We have retained the old serial numbers in the order of reference.

Now we come to the cases in Schedule 1. Rule No. 15 of the rules framed by the Government runs to the following effect:—

"If without good cause shown, any party to the proceedings before the Court or Board or Tribunal fails to attend or to be represented, the Court or Board or Tribunal may proceed as if such party had duly attended or had been represented." The legitimate inference to be drawn is that these employees have at present no dispute with the employers and, therefore, the present conditions of service shall continue for such period as the Government will determine under section 19(3) of the Industrial Disputes Act.

Now about those cases in which intimations have been conveyed to us either by applications or by letters that no dispute exists. We received even some anonymous letters that signatures were obtained *in terrorem*. We are conscious that it may be that all the employees of the firms have not signed the applications. We assume that some of the signatures are not genuine. All these do not affect the position in any way because their cases cannot be taken in any way as weaker than the cases mentioned in Schedule 1. Even if we are not inclined to act upon the "No dispute" statement, the position is that these employees have neither placed nor have signified their willingness to place any demands. The employees shall have to take courage to come to the Tribunal not only to enter appearance but also to lay down their grievances. If in terror or out of free will they do not come before the Tribunal, it cannot help them. So the cases of Schedule 2 deserve to be treated in the same way as the cases in Schedule 1.

Our award in respect of the firms and their employees referred to in Schedules 1 and 2 is that their present conditions of service shall continue for such period as the Government decides under section 19(3) of the Industrial Disputes Act, This is the award in all the cases mentioned in Schedules 1 and 2.

ORDER.

No. 1245Lab.—21st April 1948.—Whereas under the Government of West Bengal, Commerce, Labour and Industries Department, order No. 1002Lab., dated the 12th December 1947, the industrial dispute between Messrs. Oriental Gas Company, Limited, of 12/A, Park Street, Calcutta, and its workmen represented originally by the Oriental Gas Workers' Union of 3/51, Narikeldanga Main Road, Calcutta, and subsequently by the Oriental Gas Karmachary Sangha of 14, Canal West Road, with the permission of the Tribunal after withdrawal of the said Union from the adjudication proceedings, was referred for adjudication to Sri S. C. Datta Gupta, Additional District Judge;

And whereas the said Sri S. C. Datta Gupta, Additional District Judge, has given the award as shown in the annexure hereto;

Now, therefore, in exercise of the powers conferred by sub-section (2) of section 15 read with sub-section (3) of section 19 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased to make the following order and to direct with reference to section 17 of the said Act that the award be published in the *Calcutta Gazette*.

The award made by the said Sri S. C. Datta Gupta, Additional District Judge, shall bind the Company and its workmen aforesaid as specified therein and shall remain in force for a period of one year with effect from the date of this order.

**ANNEXURE.**

PRESENT: SRI S. C. DATTA GUPTA, *Chairman, Industrial Tribunal.*

**In the matter of a dispute between the Oriental Gas Company, Ltd., of 12/A, Park Street, Calcutta, and its workmen.**

By order No. 1002Lab., dated the 12th December 1947, the Government of West Bengal in the Department of Commerce, Labour and Industries, appointed me under sections 7 and 10 of the Industrial Disputes Act, 1947, to be the Tribunal for adjudication of the abovementioned dispute and referred it to me.

The Oriental Gas Company, Ltd., has been maintaining gas works in Calcutta and Howrah. It is the only source for the supply of gas in this city and Howrah. It is a public utility concern under the Industrial Disputes Act, 1947, and supplies light and power to the Public Works, to the Corporation for street lights in Calcutta, to various institutions like hospitals, hotels, restaurants, laboratories and to private houses and numerous industrial concerns.

The Oriental Gas Workers' Union was formed primarily for the workers as the name suggests. In the latter part of 1946 however the subordinate staff and the clerks also joined the Union. An industrial dispute had arisen between the Company and its workmen and in the order of reference the workmen were described as being represented by the Oriental Gas Workers' Union. Mr. Parimal Das as Secretary of this Union filed a written statement in this Tribunal on behalf of the employees on the 12th January 1948. This statement included a charter of demands on behalf of the employees and the terms of agreement between the Company and the Union that had been arrived at in the presence of the Labour Commissioner on the 2nd December 1947. Subsequently a history of the dispute was filed by Mr. Parimal Das on the 22nd January 1948 as a supplement to the written statement filed on the 12th January 1948. In the last part of January and in the first part of February 1948 certain correspondence was addressed to this Tribunal on behalf of Oriental Gas Karmachary Sangha seeking permission to represent the employees in these proceedings stating *inter alia* that the Oriental Gas Workers' Union had been dissolved and a new Union of the employees had been formed under the name and style of Oriental Gas Karmachary Sangha. Thus a dispute was raised regarding the question of recognition of these two or either of these Unions.

The Oriental Gas Karmachary Sangha on the 14th February 1948 supported and adopted the written statement filed by Mr. Parimal Das on behalf of the employees.

The Company filed a written statement resisting the claims of the employees and raising some disputes for adjudication.

The adjudication proceedings were held on the 18th March and 24th March 1948 in Writers' Buildings, Calcutta. Mr. S. C. Choudhury, Counsel, assisted by Messrs. P. L. Basu and S. C. Sen, Advocates, appeared for the Company on the 18th March, and the latter two gentlemen as Advocates represented the Company on the 24th March. Mr. D. N. Sen Gupta, Pleader, represented the employees on both the days of hearing. Mr. Parimal Das also appeared on the 18th March and addressed the Tribunal with regard to issue Nos. 1 and 2, but he withdrew from the proceedings on the 24th March. It should be noted here that in fact he did not appear in the Tribunal between the 7th of February and 18th of March 1948 and when the issues were framed.

The contentions of the parties as raised in their respective written statements will appear from the following issues:—

**Issues.**

1. Are the points raised in the Union's charter of demands within the dispute referred to the Tribunal by the order of reference. If not, has the Tribunal jurisdiction to adjudicate on them?

2. Was any settlement reached in any conciliatory proceeding on 28th June 1947? If so, are the points in dispute covered by such settlement? If yes, has the Tribunal jurisdiction to enter into those points?

3. Minimum basic pay and grades of pay of unskilled worker, clerk, and Meter Inspector.

4. Increase of pay of all other categories of staff.

5. Dearness allowance.

DECISION.

**Issue Nos. 1 and 2.**

These two issues are inter-connected and were heard together.

The history of the dispute is as follows: On the 11th February 1947 the Secretary of the Oriental Gas Workers' Union on behalf of the employees issued a strike notice on the Company with certain demands regarding pay, allowances, etc., and thereupon the Company granted certain increments to all the employees. A second strike notice was served on the 16th June 1947 on the Company on behalf of the employees and a memorandum of settlement was drawn up on the 28th June 1947 during a conciliation proceedings held by the then Deputy Labour Commissioner Mr. G. Mobarak (Appendix IV to the written statement of the Company) and the Company implemented the terms of the agreement and granted some increments to the employees. This memorandum of settlement, dated the 28th June 1947, is admitted on behalf of the Union. In August 1947 the Union raised certain disputes regarding overtime payment. Then followed some correspondence and negotiations between the parties and the Chief Inspector of Factories was approached and he gave some decision. But the matter remained unsettled and the Company finding that any settlement either by private negotiation or by conciliation proceeding was not possible addressed an application to the Labour Commissioner on the 6th November 1947 for reference of the dispute to a Tribunal. This letter embraced questions raised in issue Nos. 6 and 21-25.

The Company's grievance is that meanwhile the Union followed a "go-slow" policy and its Secretary intimated the Management on the 29th November 1947 that they would go on strike from 3 p.m. that day if the Management did not accept their demands. In order to avert the threatened strike the Labour Commissioner suggested an interim agreement and the settlement was signed by both the parties in his presence on the 2nd December 1947. This Tribunal was then constituted by the Government's order, dated the 12th December 1947.

The charter of demands of the Union that was filed in these proceedings is, as I have told at the outset, dated the 12th January 1948. These demands have given rise to issue Nos. 3-19.

The learned Counsel for the Management contends that the points raised in the charter of demands are not within the dispute referred to the Tribunal by the Government and as such it has no jurisdiction to adjudicate on them. It is abundantly clear from the materials placed before me that the employers and not the employees sought the appointment of a Tribunal. Even in the history of the dispute which forms a part of the written statement on behalf of the employees it is admitted that "the Company prayed for a Tribunal and is the real complainant" here and "therefore the whole onus justifying the reference to the Tribunal devolves on the Company". It is manifest therefore that except with respect to the question of overtime payment raised in issue No. 6, regarding which both parties admittedly had disputes since August 1947, all the points raised in issue Nos. 3-5 and 7-19 cover demands on behalf of the employees raised for the first time on the 12th January 1948, *i.e.*, after the order of reference. The order of reference shows that the disputes which had arisen between the parties were referred to the Tribunal, *i.e.*, the disputes existing on the 12th December 1947 were only referred here. The jurisdiction of this Tribunal is limited by this order of reference as the Tribunal is a creature of the Statute. So this Tribunal cannot go into questions not connected with disputes that existed on the 12th December 1947. Demands by one party when wholly or partially refused by another can give rise to a dispute. Similar is the case with difference also. Difference presupposes expression of opinion or demands by one party and disagreement therewith by another party. When the demand or opinion of one party is not made known to the other party it is not known whether the other party would agree to or accept the same and therefore in that case it cannot be said that a dispute or difference exists. As the dispute covered by issue Nos. 3-5 and 7-19 were raised for the first time by the employees on the 12th January 1948 the Tribunal has no jurisdiction to go into them. These are fresh points of dispute for which the employees are at liberty to seek for appointment of a fresh Tribunal.

I was referred by Mr. Sen Gupta appearing for the employees to clause 3 of the settlement, dated 2nd December 1947, which provides that the agreement would not debar either the Company or the Union from raising "any other" matter before the Tribunal. With reference to context clause 3 really concerns questions connected with overtime payment. Even if it does not, the parties by any agreement cannot vest jurisdiction in the Tribunal unless it has jurisdiction inherent in itself. In clause 4 of the settlement the parties were only given liberty to settle their grievances by discussion and agreement and this has no bearing on the legal question. Clause 5 favours the contention on behalf of the Company as it lays down that the Labour Commissioner would recommend to Government for appointment of a Tribunal to adjudicate on the disputes between the Company and the Union, apparently implying the disputes that existed on the 2nd December 1947. The terms of settlement, dated the 2nd December 1947, do not induce me to alter my conclusion that I cannot, in view of the order of reference, go into the points raised in issue Nos. 3-5 and 7-19, as these having been raised for the first time subsequently are not within the dispute referred to the Tribunal. The Tribunal cannot go into a new dispute not referred to it. Some of these issues, *viz.*, issue Nos. 3-5, 7, 9, 10, 11 and 13 cannot be gone into in these proceedings for another reason. The memorandum of settlement, dated the 28th June 1947, between the parties in a conciliation proceeding is admitted. Issue Nos. 3-4 are embraced by clauses 1, 2 and 5, issue No. 5 by clauses 3 and 7, issue Nos. 7, 9, 10 and 13 by clauses Nos. 11, 9, 10 and 8 respectively and issue No. 11 by clauses 4 and 6 of this memorandum of settlement. This settlement was agreed to take effect from the 1st June 1947. As it has not

been provided in it as to how long it was to be binding between the parties, it would under section 19(2) of the Industrial Disputes Act, 1947, continue to be binding for a period of six months and thereafter until the expiry of two months from the date on which a notice in writing of an intention to terminate the settlement is given by one of the parties to the other. No such notice has been given in this case. Thus a legal bar is put by operation of section 19(2) of the Act in the way of the Tribunal in going into these issues. Even if clause 3 of the later settlement, dated the 2nd December 1947, which does not override the earlier agreement, dated the 28th June 1947, were to be construed as not debarring the Union from raising any dispute before the Tribunal, there is no getting over the legal bar put on by operation of section 19 of the Act as there cannot be any estoppel against the Statute.

The issue No. 20 which relates to recognition of the Unions also cannot be gone into at this stage in these proceedings. The Secretary of the Oriental Gas Workers' Union filed the written statement on behalf of the employees. Thereafter on the 14th February 1948 the General Secretary of the new Union named as the Oriental Gas Karmachary Sangha supported and adopted these written statements on behalf of the employees stating that the Oriental Gas Workers' Union was no longer in existence. The Company had previously recognised Oriental Gas Workers' Union but in its written statement filed on the 18th February 1948 sought for withdrawal of this recognition. Whether both the Unions or either of them should be recognised is a question which has been raised for the first time after the order of reference and accordingly this Tribunal has no jurisdiction to go into this question.

We are therefore left with issue Nos. 6 and 21-25 only regarding which I propose to give my award.

### Issue No. 6—Overtime payment.

The Company works its different sections 8 hours daily and 6 hours on Saturday. A daily employee thus works 46 hours weekly. In some cases some employees are engaged for 48 hours weekly. Regarding overtime payment the demand on behalf of the employees as contained in the charter of demands is as follows:—

(*a*) For the work on Sundays and holidays payment should be made at double the ordinary rate of pay over and above the usual monthly pay.

(*b*) Part-time work on Sundays and holidays should be treated as whole-time work and be paid for as (*a*) above.

(*c*) Any extra work for usual office hours in week days should be paid at double rate.

Thus the employees demand—

(*i*) ordinary overtime payment under the Factories Act, and

(*ii*) overtime payment for holidays or Sundays not recognised by the Act.

The Company raised the following points over the question of overtime:—

(*a*) The method and basis of calculation.

It was maintained that the Indian Factories Act should rule.

(*b*) Whether the clerical staff, who according to the Company, are not workers within the meaning of the Factories Act, are entitled to any overtime pay?

(*c*) Whether the pay for computing overtime is the basic pay or the total remuneration including dearness and other allowance?

In the interim agreement that was arrived at between the parties on the 2nd of December 1947 it was provided that according to the recommendations of the Labour Commissioner regarding the overtime as an interim measure pending decision of the matter by the Tribunal, overtime payment would be made for work on Sundays and other holidays at 1½ times the usual rate in addition to the usual monthly payment and that payment for overtime apart from Sundays and other holidays will be in accordance with the system in vogue since September 1947. In that very agreement the Company reserved the right to challenge before the Tribunal this rate of overtime payment which was agreed upon only as an interim measure.

The difference between the parties over the question of overtime payment has been made clear in Appendices IX and X to the written statement of the Company and it may be shown as follows:—

Workers on the actual production of coal gas have been working on 8-hourly shift basis. They get 24 hours off every fortnight. They work 56 hours each week and are paid for $48+(8\times2)=64$ hours weekly. The objection on behalf of the employees is that wages should be calculated on daily basis. The argument put forward in this behalf is that when workmen are employed on four Sundays in a month they should be paid as under:—

$30+(4\times2)=38$ days' wages.

While according to the calculation of the Management it is—

$26+(4\times2)=34$ days' wages.

The following illustrations will show the mode of payment adopted by the Management so far:—

*Case No. 1.*—Token No. 3—Sakhi Chand, Foreman, Group No. (1).—He was absent on 1st, 2nd and 3rd and worked for 28 days. There were 3 holidays—15th, 16th and 19th. He got paid as below:—

28 days + holidays + 4 Sundays + (4 Saturdays = 1 day) = 36 days.

At the rate of Rs. 46 per month he was paid Rs. $46/31\times36$ = Rs. 53-7.

*Case No. 2.*—Token No. 5—Sheik Aziz, Crusher Attendant.—Absent for one day. He got paid for 30 days + 3 holidays + 5 Sundays + (5 Saturdays = 1·2 days) = 39·2 days.

At the rate of Rs. 48 per month he got paid Rs. $48/31\times39\cdot2$ = Rs. 60-12.

*Case No. 3.*—A worker was absent on Sunday and worked for 10, 10, 8, 8, 8 and 8 hours on Monday, Tuesday, Wednesday, Thursday, Friday and Saturday respectively. Thus he worked for 52 hours during the week, 4 hours being the overtime. He was paid for $48+(4\times2)=56$ hours.

*Case No. 4.*—A workman was absent on Sunday and Tuesday and worked for 8, 10, 9, 8 and 8 hours on Monday, Wednesday, Thursday, Friday and Saturday respectively. Thus the total hours worked by him during the week was 43 of which 1 hour was the overtime. He was paid for $42+(1\times2)=44$ hours.

These examples clearly show that for Sundays and holidays the employees get paid at double rates while if they are absent for one day only a 30th or 31st part is deducted. The employees demand overtime which according to their calculation is at triple rates.

The differences in the mode of calculation between the parties were referred by the Management to the Chief Inspector of Factories who by his letter, dated the 30th September 1947, informed the Management that the calculations of the Company with respect to overtime pay in the cases quoted above are correct and in accordance with the provisions of section 47 of the Factories Act (*vide* Appendix XIV to the written statement of the Company). It is interesting to note that Mr. Parimal Das on behalf of the employees by a letter, dated the 24th September 1947, informed the Management that the ruling of the Government authority

(apparently meaning the Chief Inspector of Factories) as to the calculation and payment for Sunday and other nature of overtime would be accepted by the Union. It must be made clear that though the opinion of the Chief Inspector of Factories as referred to above is not the last say in the matter the same cannot be lightly brushed aside as it is the opinion of a disinterested and responsible third party.

It is conceded that overtime payment has to be made in terms of the provisions contained in section 47 of the Factories Act, 1934. The Oriental Gas Company is a non-seasonal factory and the matter of overtime is to be governed by the Statute. It is admitted that after an employee has worked for 48 hours in the week he gets paid at the rate of twice his ordinary rate of pay for every extra hour worked. Under section 35 of the Factories Act no daily worker shall be allowed to work in a factory on a Sunday unless he has had or will have a holiday for a whole day on one of the three days immediately before or after that Sunday. Thus for every Sunday worked an employee gets a substituted day of rest. All shift workers get one day off after working for 6 days. Their days off may or may not fall on a Sunday but that is not sufficient ground for holding that when it does not fall on a Sunday they should be paid the day's wages for working on a Sunday. So long as they get one off day in 7 it is not understood how their demand for extra payment for Sunday can be supported. When on a Sunday a worker works he gets a substituted holiday and therefore in such a case the question of overtime payment does not arise as Sunday carries pay.

I am of opinion that for work on Sundays and holidays, an employee should be paid at ordinary rate of pay over and above his usual monthly pay and I decide accordingly. This system obtains in the Company as seen from the illustrations quoted above.

As regards the next demand of the employees that part-time work on Sundays and holidays should be treated as whole-time work and be paid at double rate, it cannot but be characterised as unreasonable. In no manner can the fraction of a day be calculated as a whole day. It is insisted on behalf of the employees that even one hour's work on a Sunday or a holiday should be treated as equivalent to a whole day's work entitling an employee double the wages for that day. This demand cannot be put up with when it is seen that a Sunday or a holiday carries pay.

The last demand on behalf of the employees is that any extra work over usual office hours on week days should be paid at double rate. This is acceded to by the Company.

I may now take up the points raised on behalf of the Company with regard to the question of overtime payment. I have already pointed out that in calculating overtime payment the Indian Factories Act should rule. The method and basis of calculation adopted by the Company are correct as the illustrations quoted above clearly show.

The next question is whether the clerical staff are entitled to any overtime pay. The Tribunal has no jurisdiction to vary or repeal section 47 of the Factories Act by any award. Therefore the matter is to be governed by the Statute. Section 47 of the Factories Act provides that where a worker in a non-seasonal factory—and the Oriental Gas Company is one such—works for more than 9 hours in a day or for more than 48 hours in any week, he shall be entitled in respect of the overtime work to pay at the rate of twice his ordinary rate of pay. There is no provision in the Act regarding overtime payment except in this section. Now "worker" has been defined in section 2(*k*) of the Act according to which "worker" means a person employed whether for wages or not in any manufacturing process, or in cleaning any part of the machinery or premises used for the manufacturing process or in any kind of work whatsoever incidental to or connected with the manufacturing process or connected with the subject of the manufacturing process, but does not include any person solely employed in a clerical capacity in any room or place where no manufacturing process is being carried on. Mr. Sen Gupta on behalf of the employees contends that the work of a clerk inside a factory must be taken as being connected with the manufacturing process." I am unable to be at one with this view. The definition of the word "worker" in the Act does not attract the clerical staff and they not being workers within the meaning of the Factories Act are not entitled to any overtime payment.

The next point to be examined is whether the pay for computing overtime is the basic pay or the total remuneration including dearness and other allowance. Overtime is a statutory work having a statutory meaning, as given to it in section 47 of the Act. "Pay", to my mind, means basic pay. Looking into the scheme of the Factories Act no other meaning seems possible to be given to it. Section 49C which deals with pay during annual holidays shows that in that section pay has been taken to include allowances also. It is clear therefore that what the legislature intends it puts down. There is nothing however in section 47 of the Act to suggest that pay in that section was intended to include dearness or any other allowance also. Thus in computing overtime basic pay need only be considered.

**Issue No. 21—System of payment of wages.**

With regard to this point the Company proposes to issue pay tickets to be exchanged for wages after getting signatures or thumb impressions of the employees. The present system of paying wages put the pay clerk to a lot of inconvenience. Men wait in a queue for a considerable time which not only causes inconvenience to them but also entails waste of time and consequent loss of work. The Company proposes that wage tickets will be issued to workmen a day before the pay day. A sample ticket has been produced before me. It contains columns for putting down the name of the month and year and the token number of the worker. It is suggested on behalf of the employees that the amount of pay and all cash allowance also may be put into this wage ticket. This is only reasonable and the Company accepts it. With the details put into the wage ticket the workmen will give their signatures or thumb impressions on the ticket and this will be exchanged for their wage envelope on the pay day. This issue is thus decided on agreement.

**Issue No. 22.—Rationing system.**

The Management wants to introduce cash instead of credit system for according to it the present system of credit requires elaborate accounting and at the time of deductions, items, rates, etc., are disputed.

The employees are for maintaining the old system. It is said that when on the pay day the employees get money in their hands they are likely to squander it away leaving nothing to obtain their ration. This apprehension is not altogether unfounded. Supply of ration on a credit system is a part of labour welfare policy and if this system be discontinued consequent labour unrest might follow as it is bound to cause hardship to the workers. My attention was drawn to section 7 of the Payment of Wages Act by the learned Advocate appearing for the Company and it was pointed out that deduction for ration supply on credit is not provided in that section. In spite of section 7 credit system has obtained so long in this Company and even if a very strict and rigid interpretation be given to it, it should not present an unsurmountable difficulty. There is provision in this Act for making advance payment to the workers and ration

may be supplied weekly to the workers on credit system. I am in favour of continuance of the existing system as nothing in these days of tension between the labour and the capitalists should be done which might affect the labour welfare system in any way.

**Issue No. 23.—The right of the Management to employ daily paid men.**

The Management wants that when necessary, as for example to fill gaps when workers are absent without notice, it may employ daily paid men. This demand is opposed on behalf of the employees as they are apprehensive that any economy in this direction effected by the Management might be at the cost of reducing the permanent staff.

Permanent employees are employed on monthly system. The Company employs some daily-rated people also from time to time on certain contingencies for certain casual purpose to meet the rush work. For instance the need of employing extra men arises out of the urgency of unloading wagons in the shortest possible time due to serious wagon shortage in the country at the present time. In the Oriental Gas Services Standing Orders, 1946, framed under the Bengal Industrial Employment (Standing Orders) Act, there is provision in rule 4 for employment of casual workmen, whose employment is of a casual nature, besides permanent and temporary workmen. In his letter, dated the 17th November 1947, to the Management, the Secretary of the Oriental Gas Workers' Union recognised the necessity of employment of daily paid men at least in the Wagon Department. Employment of casual workers may be necessary at times and when it is provided in the Company's Standing Orders there cannot be any objection to it. Assurance however has been given on behalf of the Management that they will not reduce the permanent staff and in continuing the system of employing daily paid men no victimisation is intended. This issue accordingly is decided against the employees.

**Issue No. 24.—Weekly hours.**

The present weekly hours are 46 in the week. The Management wants all employees to work 48 hours in a week as contemplated in the Factories Act. The Factories Act in section 34 provides that no adult worker shall be allowed to work in a factory for more than 48 hours in any week. After some discussion it was agreed between the parties that there should be no disturbance of the existing system of weekly hours of work at present.

**Issue No. 25.—Shifts in Wagon Department.**

The Management proposes to work its loading and unloading section in two shifts daily as follows:—

| | Starting time. | Stopping time. | Interval of rest. |
|---|---|---|---|
| A shift | 6 a.m. | 7 p.m. | 11 a.m. to 4 p.m. |
| B shift | 8 a.m. | 7 p.m. | 11 a.m. to 2 p.m. |

The employees have raised no objection with regard to the shifts proposed. In case of any practical difficulty the Management should consult the employees.

Thus I give my award with regard to the questions raised in issue Nos. 6 and 21-25. For legal difficulties I could not go into the other issues besides issues Nos. 1 and 2 raised in this case. Before parting with this case I must record that I cannot too strongly emphasise the need for harmonious work in a public utility concern like the Oriental Gas Company. I should impress upon the employees that they should give their very best in discharging their duties as the public are very vitally and immediately affected by their work and action. The sympathy of the public may easily be alienated if they are inconvenienced in any way as a result of any action on the part of the employees in this concern. The Management also should not be blind to the interests of the employees and should look to their difficulties with sympathy. The country needs as never before the co-ordinated action between the employers and the employees at the present time for the industrial progress and public welfare on the land.

I should also like to place on record my sincere thanks to the learned lawyers and others appearing for the parties in helping the Tribunal in [illegible] the dispute.

**ANNEXURE.**

BEFORE SREE S. N. MODAK, I.C.S. (Retired),
*Chairman, Industrial Tribunal.*

**In the matter of an industrial dispute between the Companies of Waverley Jute Mill of Athpur, the North Alliance and the South Alliance Jute Mills of Jagatdal, and the Alexandra Jute Mills, Limited, of Jagatdal, and their workmen as represented by the Barrackpore Subdivisional Chatkal Mazdoor Union.**

**Award.**

1. This industrial dispute between the Companies of Waverley Jute Mill of Athpur, the North Alliance and the South Alliance Jute Mills of Jagatdal and the Alexandra Jute Mills, Ltd., of Jagatdal and their workmen as represented by the

Barrackpore Subdivisional Chatkal Mazdoor Union, has been referred to me for adjudication under the Industrial Disputes Act, 1947, by the Government of West Bengal, Commerce, Labour and Industries Department, order No. 895Lab., dated the 23rd March 1948.

The dispute has arisen out of difference of an acute character between the employers of the abovementioned Companies and their workers with regard to the supply of articles of food including some rationed articles from the shops located in the Mills concerned. The case of the workers is that the system of supply has been seriously unsatisfactory in so far as the articles supplied were substantially adulterated and short weight used to be given, and the workers preferred to buy only rice and atta from outside shops. On the 17th February 1948 the workers of the Waverley Jute Mills refused to draw gram in lieu of the scheduled quantity of rice and atta and when their wishes were not complied with they refused to draw any articles at all and this attitude on the part of the workers is still being maintained so far as this particular Mill is concerned. From the 24th February 1948, the workers of the two Alliance Mills and the Alexandra Jute Mills also refused to buy their foodstuffs from the Mill shops, but the workers of these Mills abandoned that attitude since the 23rd March 1948. The dispute however is still persisting with regard to all the four Mills. On the basis of the statements submitted by both sides the following issues have been framed:—

(1) Should the system of supplying foodstuffs at concession rates be discontinued, and should the value of the concession be paid to the workers in cash?

(2) If so, should the employers' ration shops be maintained?

(3) Should the workers be paid in cash the difference between the market price and the concession rates for the period during which they did not draw rations?

2. Before I proceed to discuss the issues one after another, it will be useful to make some general observations about the lines of argument pursued by the two sides. The point of view of the workers is that the system of supply of foodstuffs from the Mill shops is totally unsatisfactory owing to various reasons including alleged malpractices which have, we are told, led to adulteration and short weight. It is not necessary for our purposes to come to a definite conclusion about the existence of the malpractices alleged. It is sufficient for our purposes to hold that the workers feel extremely unhappy about the way in which the system of supply has been going on in the Mill shops. It appears that the serious inconvenience to which the workers have apparently been subjected is at least partly due to the fact that it has not been practicable for the Mill authorities to receive a regular supply of rice and atta in sufficient quantities to meet the demand in a regular way. In fact it is admitted by the Companies that rice and atta were supplied in shorter quantities in certain weeks, though these were made up later on. Whatever may be the circumstances under which the workers have begun to feel completely unhappy over the system of supply from the Mill shops the position is that the dissatisfaction is of a very acute nature, and this psychological factor, in my opinion, should be carefully borne in mind in deciding the issuse before us. The claim made by the workers is that they would prefer to be free to buy rice, atta and other things from outside shops, and the Companies should be directed to pay to the workers the value of the concession which they have been allowing so long. It appears that the Companies have been supplying rice, atta, gram and dal at fixed concession rates, and evidently the Companies are paying on behalf of the workers the difference between the market price of the quantities of foodstuffs supplied and the total concession price which they have fixed. The case of the workers is that the Companies should now agree to pay to the workers in cash this difference between the market price and the concession price, so that the workers may be set free to buy their foodstuffs as they choose. It has been contended on behalf of the Companies that they buy the foodstuffs at wholesale rates which would normally be lower than the retail rates prevailing in the market, and if the Companies are now made to pay to the workers in cash the difference between the retail market price and the fixed concession rate, the Companies would in effect be made to pay more than the value of the present concession. The learned Counsel on behalf of the Companies, however, could not indicate the difference between the wholesale rates and the retail rates, and I think this difference would not be of such a substantial character as would really tell heavily on the finances of the Companies. In the absence of data I do not see sufficient reason for not considering the retail rates prevailing in the market for our purposes. It has been next contended on behalf of the Companies that this Tribunal should not proceed to adjudicate on isolated issues relating to only four Mills, when proceedings of a general character involving, among others, the broad issue of Dearness Allowance, including cheap ration concession are pending before a Major Jute Textile Industry Tribunal, which would be likely to make an award on the very same issues from a broader standpoint in respect of a large number of Mills including the four Mills under consideration. This is a point of view to which I have given my utmost consideration. But under the particular circumstances prevailing at the moment in respect of the four Mills, I am unable to hold that this Tribunal should stay its hands and decline to adjudicate on the present dispute, which, I am satisfied, is rather of an acute nature. The aim of the Industrial Disputes Act is to establish and maintain industrial peace. Peace has been disturbed in the four Mills under consideration with regard to a particular aspect concerning the mode of living of the workers concerned. It would be undesirable to wait for an indefinitely long time for the award of the Major Jute Textile Industry Tribunal, and while it may be necessary to see that there is no conflict between the award of this Tribunal and any possible award of the Major Tribunal on the same subject, I feel that it would be wrong not to proceed with the adjudication on the issues involved in the present dispute. The possible conflict which may be apprehended can be easily avoided if the period during which an award of the present Tribunal is to remain in force is suitably restricted in duration in the light of the date from which a possible award by the Major Jute Textile Industry Tribunal on the same subject may come into effect. I shall revert to this subject in a later paragraph. I shall now proceed to discuss the issues one by one.

**Issue No. 1.**

3. The subject matter of issue No. 1 is whether the system of supplying foodstuffs at concession rates from the Mill shops should be discontinued and whether the value of the concession should be paid to the workers in cash as demanded by them. The present position is that the Companies are already bearing the financial burden of paying the difference between the market price of the foodstuffs supplied and the concession price which they are actually charging. In making this statement I am ignoring whatever slight difference may exist between the wholesale rates and the retail rates prevailing in the ordinary market, as I believe the difference would not be worthy of being taken into account seriously. I may now proceed to set forth here the present market prices and the concession prices in respect of the different kinds of foodstuffs supplied to the workers from the Mill shops. It appears that the Mill authorities supply a total quantity of 5 seers of foodgrains per week to each

worker charging in all a concession price Re. 1 as shown below:—

| Foodstuff. | Quantity. | | Concession price. | | |
|---|---|---|---|---|---|
| | Srs. | chs. | Rs. | a. | p. |
| Rice .. | 1 | 13 | 0 | 5 | 9 |
| Atta .. | 0 | 10 | 0 | 2 | 0 |
| Gram .. | 2 | 1 | 0 | 6 | 3 |
| Dal .. | 0 | 8 | 0 | 2 | 0 |
| Total .. | 5 | 0 | 1 | 0 | 0 |

In addition to the above the following articles are also being supplied at concession rates as shown below:—

| Foodstuff. | Quantity. | Concession price. | | |
|---|---|---|---|---|
| | | Rs. | a. | p. |
| Extra dal .. | 1 seer | 0 | 3 | 0 |
| Mustard oil .. | 4 chattaks | 0 | 3 | 0 |

It therefore appears that the Companies supply from the Mill shops the abovementioned quantities of different kinds of foodstuffs for which they charge a total concession price of Rs. 1-6. At this stage let us examine the present retail market prices of these articles as shown below:—

| Foodstuff. | Quantity and rate. | Retail market price and present rate. | | |
|---|---|---|---|---|
| | | Rs. | a. | p. |
| Rice .. | 1 seer 13 chattaks @ as. 7. .. | 0 | 12 | 9 |
| Atta .. | 10 chattaks @ as. 5-6. .. | 0 | 3 | 6 |
| Gram .. | 2 seers 1 chattak @ as. 9. .. | 1 | 2 | 6 |
| Dal ... | 8 chattaks @ as. 8. .. | 0 | 4 | 0 |
| Extra dal .. (e. g. Arahar). | 1 seer @ as. 10. .. | 0 | 10 | 0 |
| Mustard oil .. | 4 chattaks @ Rs. 1-12 to Rs. 2. .. | 0 | 7 to | 0 |
| | | 0 | 8 | 0 |
| | Total .. | Rs. 3 | 7 | 9 |
| | | to 3 | 8 | 9 |

The difference between this total market price of Rs. 3-7-9 to Rs. 3-8-9 and the concession price of Rs. 1-6 actually charged is Rs. 2-1-9 to Rs. 2-2-9. This of course is the figure arrived at on the basis of the figures of market prices prevailing at present. The figure however will vary from time to time according as the maret prices fluctuate. It will further appear that the total quantity of foodgrains consisting of rice, atta and gram will be 5 seers, and as the quantities of rice and atta allowed by the Government authorities may increase or decrease, the quantity of gram sold from the Mill shops to make up the total quantity of 5 seers will correspondingly decrease or increase. The difference between the total market price of the foodstuffs in question and the concession price now allowed by the Companies will therefore vary to some extent on account of this factor also, that is to say, the factor of fluctuation in the quantities of rice and atta supplied by the Government rationing authorities. It has been contended on behalf of the Companies that the matter of calculation of the market prices prevailing for the time being may lead to difference of opinion between the Management and the workers, and may consequently lead to disputes. It may be reasonably hoped however that such differences of opinion will be easily eliminated by both parties exercising some degree of forbearance and readiness to meet the other side's point of view. I do not think that the little troubles that may arise from the question of calculating the prevailing market prices will be greater than the troubles and expenses which the Companies are already undergoing in taking upon themselves the task of securing supplies of foodstuffs and distributing the same to the workers by setting up a regular machinery for that purpose. On giving careful consideration to the whole question including the acute pychological factor which is disturbing industrial peace at the present moment, I come to the clear conclusion that the best course under the particular circumstances will be that the Companies should pay to the workers in cash the difference between the market prices of the foodstuffs enumerated above and the total concession price of Rs. 1-6 which is being charged for those articles at present. The introduction of this system of payment of the value of the concession allowed will not necessarily throw a heavier financial burden on the Companies so far as I can make out. On the other hand the process will bring about a feeling of satisfaction in the workers which will be conducive to industrial peace, and the Companies themselves will be relieved of the heavy and unpleasant task of securing and distributing foodstuffs under circumstances of exceptional strain. I therefore direct that the system of supplying foodstuffs at concession rates should be discontinued and the value of the concession (that is to say, the difference between the total retail market price of the foodstuffs and the total concession price of Rs. 1-6) should be paid to the workers in cash, and I make my award accordingly.

### Issue No. 2.

4. The question under issue No. 2 is whether the employers' ration shops should be maintained. This is entirely a matter for the employers to decide. If the system of supplying foodstuffs at concession rates be discontinued and the employers have to pay the value of the concession in cash, the question arises as to whether the employers will continue to maintain the ration shops located in the Mills. Looking at the point of view of the workers which was represented before me in course of the discussion I consider it unlikely that the workers would like to purchase foodstuffs from the Mill shops at market rates. The discontinuance of the Mill shops, if decided upon by the Companies, should not however be effected all on a sudden, and in fairness to the workers some reasonable time should be given to them to register their ration cards in outside shops. The question of maintenance or discontinuance of the employers' ration shops is otherwise left to the discretion of the employers themselves.

### Issue No. 3.

5. The subject matter of issue No. 3 is whether the workers should be paid in cash the value of the concession for the period during which they did not draw their rations in the four Mills under consideration. It is only fair that the workers should be paid the value of the concession as claimed in respect of the past gaps. I accordingly direct that the workers be so paid. This will mean that the employers will have to pay some lump amounts to the different workers within a reasonable time. I make my award with regard to issue No. 3 accordingly.

6. The question now is from what date this award will take effect and how long it will remain in force. It is desirable that the award should come into force as soon as possible and it is for the Government to decide upon the actual date. This aspect of course will apply to issue No. 1 and not really to issues Nos. 2 and 3. As I have already indicated it is further desirable that there should be no conflict between the present award and any possible award on the same subject, as a part of the broader issue of Dearness Allowance, which may be given by the Major Jute Textile Industry

Tribunal. From that point of view it is hoped that the Government will probably pass a suitable order to the effect that this award in respect of issue No. 1 in particular will remain in force for a period not exceeding one year and up to the date from after which a possible award on the same subject given by the Major Jute Textile Industry Tribunal may come into force.

## THE SCHEDULE.

I. ALLOCATION OF LIABILITIES IN RESPECT OF POST OFFICE SAVINGS BANK DEPOSITS, POST OFFICE CASH CERTIFICATES, DEFENCE SAVINGS CERTIFICATES, NATIONAL SAVINGS CERTIFICATES, AND POSTAL INSURANCE POLICIES.

### (1) Recommendations of the Steering Committee.

The Steering Committee recommend that the arrangement should be as follows:—

1. The two Governments should assume responsibility for all Savings Bank Deposits and Cash, Defence and National Savings Certificates in their respective territories on the date of separation, on the basis of the location of the particular deposits on that date.

2. A general notification should be issued forthwith saying that, although the two Dominions would be separate, depositors of Savings Bank and holders of Cash, Defence and National Savings Certificates shall continue up to the 31st March 1948 to have the same privileges as regards transfers of the deposits or certificates from one post office to another, whether within the same Dominion or from one Dominion to another after separation, as they have at present.

This announcement should be issued on the authority of the representatives of the two future Governments on the Partition Council.

3. The Government taking over the services of an officer holding a Postal Insurance policy, on the option of that officer for the Government, should assume responsibility in regard to his insurance policy and the Postal Insurance Fund should be allocated between the two Governments after acturial valuation on this basis.

4. This is to be an *ad hoc* settlement which is to have no influence on the general question of the allocation of the public debt of the country between the two new Diminions.

### (2) Partition Council's Decision dated 29th July 1947.

* * * * * * *

The Council approved the recommendations of the Steering Committee on the reference made by Expert Committee No. II (Assets and Liabilities) regarding the allocation of liability in respect of postal savings bank deposits, etc.

### (3) Extracts from the Minutes of the Partition Council meeting held on 1st December 1947.

*Case No. PC/216/20/47. Postal Cash, Defence and National Certificates.*

The formula approved by the Partition Council is that each Dominion should take liability for such Certificates as were registered in the territory of that Dominion on the 15th August 1947. The matter however has been reconsidered at Pakistan's intance in view of the large transfer of populations that has since taken place. It was agreed that the following formula would be adopted to determine the liability of each Dominion for such Certificates:—

(a) The liability of both Dominions should be notionally assessed on the basis of outstandings as on the 14th August 1947.

(b) For payments in either Dominion between 15th August 1947 and 31st March 1948 of certificates registered in the other, the Dominion making the payment will take the liability and the debts as calculated in (a) above will be corrected.

(c) For transfers between the two Dominions between the 15th August 1947 and 31st March 1948 the liability will be adjusted by correcting the original debt as calculated in (a) above without payment of the capital value in cash.

## II. ALLOCATION OF LIABILITY IN RESPECT OF PENSIONS.

### (1) Note by India on allocation of service pensions.

Paragraph 11(2) of the Indian Independence (Rights, Property and Liabilities) Order, 1947, has placed on the Indian Dominion the initial liability for the pensions which on the date immediately preceding the partition were the liability of the Governor-General in Council, subject under paragraph 13(2) of the Order to Pakistan making such just and equitable contribution as may be agreed upon or in the absence of agreement determined by the Arbitral Tribunal.

2. In the discussions of the Expert Committee, complete agreement could not be reached regarding the allocation of the liability for pensions.

3. The liability for pensions falls into two categories—

(a) liability in respect of serving officers for service under the combined Government up to the 14th August 1947;

(b) liability for pensions of officers who had retired from service on or before the 14th August 1947 or who retire from service after that date but without opting for service under either Dominion.

4. During the discussion in the Expert Committee, it was agreed—

In regard to (a) that the liability should be assessed actuarially and shared between the two Dominions in the ratio determined for the allocation of the uncovered debt;

In regard to (b) that the India members considered that the same arrangement should be followed but the Pakistan members suggested that this liability should not be capitalised but Pakistan should share the current expenditure in the ratio of her share of the unallocated debt. The difference of opinion is therefore not in regard to the relative share of the liability but the method of discharging it.

5. It is suggested that the following proposals may be put before the Partition Council—

(a) The liability in regard to both the serving and retired officers should be capitalised, the work being entrusted to two actuaries one nominated by each with an umpire to resolve any difference between the two actuaries.

(b) The liability should be allocated between the two Dominions in the ratio of the unallocated debt.

(c) Each Dominion should then assume liability for the pensions paid in its territory and for the serving officers who have been taken over by it. If the capitalised value of the pensions paid in Pakistan and for personnel taken over by Pakistan is more than its share of the total liability under (b) the excess should be taken in reduction of the debt resulting from the partition.

(d) The existing facilities for the transfer of pensions should be discontinued as between the two Dominions. (If the facility is maintained after the partition for a short period as a matter of convenience, it should be subject to the usual financial adjustments.)

6. This note does not relate to "political" pensions which are dealt with separately.

**(2) Extracts from the minutes of the Partition Council meeting held on 1st December 1947.**

*Case No. PC/195/20/47. Arrangements regarding the sharing of pensionary liabilities.*

India's proposals in paragraph 5(a) (b) and (c) of the paper for the Partition Council were accepted. The method of making financial adjustments for pensions transferred after the 14th August 1947 should be worked out.

**(3) Note by India on allocation of political pensions.**

There was no agreement in the Political Department Sub-Committee or the Expert Committee about the allocation of Political Pensions.

2. The Pakistan representatives on the Expert Committee suggested that these pensions should be treated as common and the current payments shared in the agreed proportion by the two Dominions. All future pensions will be the liability of the sanctioning Dominion.

3. The India side proposed that these pensions should be capitalised and treated in the same way as service pensions. The total capitalised value will be added to the debt of the undivided Government, each side will assume liability for pensions which could be allocated to it on a territorial basis and the balance that cannot be so allocated will automatically be shared as part of the uncovered debt.

4. From the administrative point of view there is the same objection to Pakistan's proposal here as in the case of their similar proposal for service pensions. It will keep a common liability for a long period (in some cases perpetually) and is bound to create friction in day to day working. From all points of view it is desirable to have a final settlement at this stage.

5. Unlike service pensions most of the political pensions could be definitely linked to the territory in connection with which they were sanctioned. It will be fair to pass to the State now in possession of that territory the responsibility attaching to it. For example, speaking very broadly, the Oudh, Carnatic, Tanjore and Mahratta pensions would pertain to India while the Multan and Sind pensions would pertain to Pakistan.

6. There will be some pensions like the Murshidabad, Nizamat and Duleepsinghji pensions, which, on territorial considerations, would relate to area now in both the Dominions. In their case the initial liability may be taken by the Dominion in which the bulk of the territory now lies and the share of the other Dominion determined and cleared on a capitalised basis.

7. Once the liability for pensions is allocated to one or the other of the Dominions, each will be free to consider whether it should be continued, modified or stopped.

**(4) Extracts from the minutes of the Partition Council meeting held on 1st December 1947.**

*Case No. PC/201/20/47. Allocation of political pensions.*

These will be capitalised in the same manner as the civil pensions and the liabilities shared between the two Dominions in the ratio of the uncovered debt. Each Dominion will continue to disburse the pensions in payment in its area and the necessary financial adjustment will be made as in the case of the civil pensions. This does not affect the right of either Dominion to terminate the grant of any political pension.

III. ALLOCATION OF CERTAIN MISCELLANEOUS LIABILITIES TO THIRD PARTIES AND CERTAIN ITEMS OF "UNFUNDED DEBT".

**(1) Extracts from the Report of the Expert Committee (No. II) on Assets and Liabilities.**

* * * * * * *

12. * * * * * *

(c) Miscellaneous liabilities may be allocated as shown in Annexure II.

* * * * * * *

(*i*) In Annexure V, we have set out a list of the various items falling under "unfunded debt" and have indicated the manner in which item should be allocated between the two States. As regards contingent liabilities, in cases involving large amounts like the liability for the British First War Loan, the Committee consider that these should directly be apportioned between the two Governments in the ratio of the uncovered debt. In cases involving small amounts the liability may be valued on a basis acceptable to both the States and a final adjustment made between them, say, not later than 31st March 1948.

* * * * * * *

**ANNEXURE II.**

[Paragraph 12(c) of Report.]

ALLOCATION OF MISCELLANEOUS LIABILITIES.

This note deals with all miscellaneous liabilities of the present Central Government to third parties. The various items may be dealt with as follows:—

(*a*) *EPT Deposits, refundable surcharge, refundable EPT and interest on EPT Deposits.*—For all assessment cases transferred to Pakistan the liability for refunds may be taken over by Pakistan.

(*b*) *Village Savings Deposits.*—These relate to schemes sponsored by the United Provinces and Madras Governments and the liability may be assumed by the Indian Dominion.

(*c*) *Bonus to temporary clerical personnel.*—The outstanding balance will represent payments due to the temporary men in service. The Dominion in which they are employed immediately after partition will take over the liability in respect of them.

(*d*) *Deposits of local funds.*—The liability may be allocated generally on the basis of the location of the local fund or body. In the case of all-India funds, if any, the allocation may be made on an *ad hoc* basis by the two governments by mutual agreement.

(*e*) *Deposits of Branch line companies.*—The amount involved is petty. The Dominion working the branch line may take over the liability.

(*f*) *Civil Deposits.*—These deposits cover a variety of transactions broad details of which as at the end of 1944-45 are given on pages 127—130 of the Finance Accounts of that year. No uniform principle would cover all these deposits. A large number could be allocated on the basis of location but in cases of deposits of specific outside funds like the Coffee Cess Fund, the Indian Research Fund, the Lac Cess Fund, etc., the wishes of the funds should be ascertained. A detailed investigation into the various deposits will be necessary.

*Other Deposits.*—These consist of Deposits of the Posts and Telegraphs Department, Defence Services and Railways. Posts and Telegraph Deposits consist of Dead Savings Bank deposits, unclaimed deposits of savings banks, deposits on account of foreign money orders and miscellaneous items. The deposits on account of savings banks (Dead S.B. Accounts and Unclaimed S. B. Deposits) may be allocated with reference to the location of the Post Office to which the deposit relates and the credit on account of Foreign Money Orders with reference to the relevant office of origin. Miscellaneous items may be allocated with reference to their location or otherwise by mutual agreement between the two Dominions.

Defence Services Deposits consist of security deposits, field deposits, unclaimed Provident Fund deposits and other miscellaneous items. It is not possible to lay down any general principle for allocating the liability beyond saying that after detailed examination of the items the liability should as far as possible follow the allocation of the troops between the two Dominions and other factors.

Railway Deposits consist of a number of miscellaneous items and the liability could be transferred with the Railways transferred to each Dominion. Any item which cannot be clearly allocated should be settled by mutual agreement.

*Deposit account of Dangs.*—This relates to the administration of the Dang areas in Surat and the liability may be retained by the Indian Dominion.

*Deferred Pay of Indian Troops.*—The liability may be allocated on the basis of the personnel transferred to the respective Dominion.

*Balances of Coorg.*—The liability may be allocated to India as Coorg lies in the Indian Union.

*Undisbursed Pay.*—This represents undisbursed pay of members of the Civil Pioneer Force. The liability may be allocated on the basis adopted for the uncovered debt if it cannot be allocated on the basis of the personnel as the units may have been disbanded.

*Accounts with Burma.*—There was a credit balance under this head on the 31st March 1945. Details of the transactions will have to be obtained and the liability allocated with by mutual agreement with reference to the location of the transactions or other relevant factors.

*Outstanding Cheques.*—Every effort should be made to have the cheques cashed before the 31st March 1948 so that the transactions are taken against the combined account. Any small balance that may be left may be allocated with reference to the transaction to which the outstanding cheque relates.

*Value of one-rupee notes.*—This is covered by a recommendation of the Expert Committee on Currency and Coinage.

*Outstanding Money Orders.*—With the accounts kept open till the 31st March 1948 the outstandings should be small. The payment may be claimed from the Dominion which received the original credit.

*Deposits on account of Enemy Property.*—The liability may have to be segregated and dealt with separately. If the balance lapses to the two Dominions under the peace treaties and is set off against reparations or other payments under the peace treaties there will be no liability to discharge.

## ANNEXURE V.

[Paragraph 12(i) of Report.]

The various items falling under "Unfunded Debt" may be dealt with as follows:—

(*a*) *Special Loans.*—These represent certain special deposits, mostly for charitable purposes, accepted at special rates of interest, in the past, the most important item of which is the endowment by the late King of Oudh amounting to Rs. 137 lakhs. There is only one item (Lawrence Memorial Asylum at Murree) which seems to relate to Pakistan. Subject to verification of details the liability may be allocated on a territorial basis to each Dominion except that the liability for the Oudh loan should be further examined and settled between the two Governments.

(*b*) *Treasury Notes.*—The entire outstandings pertain to Madras and the liability may be retained by the Indian Dominion.

(*c*) *Deposits of Service Funds.*—The balances represent—

(1) deposits of certain Service Funds (like the Bengal and Madras Uncovenanted Family Pension Fund) which are not under the control of Government but the balances of which are deposited with Government on favourable terms of interest; and

(2) deposits of the Indian Military Widows and Orphans Fund, the I. M. S. Family Pension Fund and the untransferred portion of the I. C. S. Family Pension Fund.

In regard to (1) it will be necessary to consult the administrators of the Funds and the subscribers through them before the balances can be split between the two Governments. The balances in (2) may be funded in sterling with H.M.G. as part of the sterling balances negotiations.

* * * * * *

(*f*) *State Provident Funds.*—The liability for the balances in these funds may be taken over by the Government to whose service the Government servant is transferred. In respect of Government servants on leave preparatory to retirement who have opted for neither Government the liability may be allocated between the two Governments the depositors being given the option to choose the particular Government.

(*g*) *Other Accounts.*—These consist of deposits of the Postal Life Insurance Fund and a number of miscellaneous funds like the Railway Staff Benefit Fund, the General Family Pension Fund, etc. In the case of the Postal Life Insurance Fund the liability for the policies may be taken over by the Government to whose service the policy holder is transferred or in whose territory the insurant resides and is paying his premium if he is a retired officer. For this purpose, the Insurance Fund should be valued as on the date of separation. As regards the other miscellaneous funds the liability should be allocated by location as far as possible and in the case of outside bodies in consultation with them.

**(2) Steering Committee's note on the Report of Expert Committee No. II.**

1. The report of Expert Committee No. II has already been circulated. The report covers a wide field and there are differences of opinion over many vital issues. The Steering Committee have not had time to consider the points at issue in detail and to narrow down the margin of differences. It is suggested therefore that further consideration of this report be postponed till the first meeting after the 15th August of the reconstituted Partition Council.

2. The Expert Committee No. II has been unable to reach a decision in regard to the cash balances to be allocated to the Pakistan Government. As that Government will start functioning from the 15th of August, it will need a working balance from that date. The Steering Committee have been unable to resolve the points at issue, which are submitted to the Partition Council for orders.

**(3) Extract from the meeting of the Partition Council held on Wednesday, the 6th August 1947.**

*Case No. PC/143/16/47. Report of Expert Committee on Assets and Liabilities.*

The Council agreed—

(i) that points of difference* in Expert Committee No. II's report which the Steering Committee were unable to agree upon should be referred to the Arbitral Tribunal;

(ii) that a working balance of Rs. 20 crores should be allocated to the Pakistan Government.

A list of the areas or classes of persons comprised in each officer's jurisdiction will however be found on the notice board of the Income-tax Officer concerned. If any person is in doubt as regards the officer to whom he should submit his return he may enquire either from the nearest Income-tax Officer or from the Personal Assistant to the Commissioner of Income-tax, West Bengal, 3, Government Place (West), Calcutta.
